In June last a petition was recd. from the residents of the 17th & 18th Municipal divisions, Madras, requesting the speedy return to the Royapettah Hospital of asst. Surg. Mahomed oosman, who is at present acting as Civil Surgeon, Negapatam. The petition was also referred to a report that the appt. of asst Surg. at the Royapettah Hospital was to be abolished, and begged that such orders might not be issued.

The Surgeon Genl. in reporting on the petition submits a scheme - of which he approves - under which the asst Surgeon would be replaced by a Civil Apothecary, and a staff of nurses would be added to the Establishment. The scheme has the approval of the Municipality to which the Hospital belongs. If sanctioned ~~it~~ ^{it} would result in a saving to Govt of Rs. 10 per mensem.

Attention is invited to the note in G.O. dt 26.8.89, No. 715 A, which ruled that the "Triplicane appt. the appt. in question)

would be considered a permanent Asst Surgeoncy. of three eligible men at the time, Mohammed Osman was appointed on Dr. Bidie's recommendation: "in deference to the large Mohammedan population in Triplicane".

Triplicane is undoubtedly the headquarters of the Mohammedan community of Madras and taking all things into consideration it is submitted that it is very natural that they should desire to retain their Mohammedan Asst Surgeon. It is thought that there is less objection to a Mohammedan doctor attending Hindus than vice versa, and no complaint has been received from the Hindus against having a Mahⁿ Asst Surg. at Royapettah.

The nursing est^e recommended by Dr. Thompson is no doubt very desirable but it is submitted that the Municipality might manage to arrange for it without interfering with the existing Asst Surgeoncy.

15/3. But see please Dr. Thompson's letter No 175 dated 31st July 1893. I submit that he shows very good reasons for obtaining the appointment of an English Asst Surg.

Royapettah Hospital. There are however only two Mohammedan Asst Apothecaries over 7 years standing, there are two others who are in. One of these men could no doubt be made available if the Asst Surg. is done away with and an Apothecary substituted.

I submit that the proposal of Dr. Thompson may be accepted.

17/8/93

The scheme has come up in the next time.

Wesley

It is proposed to send the Asst Surg. to the hospital.

It is proposed to send the Asst Surg. to the hospital.

CHIEF SECRETARY
29 JUN 93
GOVERNMENT OF MADRAS

To

HIS EXCELLENCY

THE RIGHT HONORABLE THE GOVERNOR-IN-COUNCIL,

MADRAS.

May it please your Excellency-in-Council:—

We the residents of the 8th and 7th Divisions of the Madras Municipality, and others, respectfully beg to submit the following for your worthy and benign consideration.

2. The Royapetta Hospital is the only Medical institution in our Divisions. This time-honored Institution has had, for a good number of years, an able Muhammadan Native Surgeon attached to it, in the person of the late Dr. Mohideen Sheriff Khan Bahadur. On his retirement, we were on the *qui vive* as to whether his successor would prove as worthy of our confidence; and we are thankful that the Government gave us in his room a Muhammadan (Dr. Oosman Sahib) who has exceeded our most sanguine expectations. During the short period he has been amongst us, he has shown a ready sympathy, alike for the rich and the poor, without making any invidious distinction; and his treatment has been so successful that he has won our entire confidence. But, while congratulating ourselves on having secured the services of such an able and worthy successor to Dr. Mohideen Sheriff, we are sorry that we are not allowed to avail of his services by his sudden and constant removals. His present temporary transfer to Negapatam is looked upon as a calamity by the Muhammadan community. Without the least disparagement to the young Native Assistant Surgeon at present posted to the Hospital, we beg to submit that he is not a Muhammadan, and as such, could not be expected to enter into the feelings, and respect the prejudices of the Muhammadans in particular, when having to treat respectable Ghosha families. The majority of the patients that seek aid at the Hospital are Muhammadans, and it was on this consideration that Government was pleased to sanction a special Muhammadan Assistant Surgeon for this particular Hospital. This indulgence we have enjoyed for the last forty years with much gratitude to Government and we respectfully trust that we may not be deprived of it now either permanently or temporarily.

3. We humbly beg to assure Government that this Memorial is not a mere attempt in favor of Dr. Oosman Sahib on the part of Muhammadans. The Hindus, Eurasians and others that have signed this Memorial are equally interested in his retention and their co-operation with the Moslem community in this respect is a true evidence of his worth. We beg pardon for venturing to say, that we, as rate-payers, contribute to the charges of this Hospital, which has been made over to the Municipality; and we pray that the Government may be pleased to show us some consideration and order his return to his appointment as soon as the exigencies of the service can permit.

4. In connection with this subject, we beg to submit, we are alarmed by a report that has appeared in the local papers that it is in contemplation to do away altogether with the Assistant Surgeon for this Hospital. This, it appears, is consequent on a revision of the Hospital Establishment recommended by the Surgeon of the District. The present Staff consists of an Assistant Surgeon, an Apothecary and two, 1st class Hospital Assistants, and it is intended to do away with the Assistant Surgeon, to employ two Apothecaries and one 3rd Class Hospital Assistant; and what is more, a European Matron and two Eurasian Nurses. The scheme has, it seems, commended itself to the Municipality on the bare merit of involving no extra charge. It will however prove anything but satisfactory to the people for whose benefit it is intended.

5. We need not add that the appointment of officers of the Apothecary Grade in lieu of the Assistant Surgeon, is a step in the wrong direction and will result in the transfer of serious cases, hitherto undertaken by the Assistant Surgeon, to the General Hospital, to the great inconvenience, if not risk to life, of the patients that require immediate attention. And we apprehend the reputation of the Hospital will likewise suffer by this arrangement.

6. In conclusion, we most submissively and earnestly pray that your noble Excellency-in-Council may be pleased to weigh all the facts and grounds stated in this Memorial, and hear our prayer, in a matter involving the life and health of our families, and be pleased to give us back Dr. Oosman Sahib, or any other equally competent Muhammadan Assistant Surgeon.

Humbly begging to be pardoned for this intrusion on the precious moments of Your Excellency-in-Council.

We beg to remain,

Your Excellency's most obedient servants,

Md Abdul Aziz Badsha

Surgeon
Surgey 4th District

No 118

Royal Peltah Hospital
27th April 1893

From

Surgeon Major C. M. Thompson
4th District

To

The President

Municipal Commission
Madras

Sir

I have the honor to bring
to your notice the present inadequacy
of the staff of this hospital, and to
submit for your approval a revised
list of the Establishment which I
consider it would be advisable to introduce
and which if adopted will, I feel sure,
greatly enhance the usefulness of the
hospital as a charitable institution, and
also facilitate and render more satis-
factory its management and supervision.

I have always thought that one of
the greatest drawbacks to the efficient
professional working of this hospital
has been the want of reliable trained
nurses and in the revised list I
have provided for a head nurse or
matron to whom the general supervision
of the nursing would be entrusted

at Sec No 1 to Sec No 15 etc

No 21/2

and who would be responsible for the care of the hospital clothing and linen who would supervise the issue of rations to the patients and see that the food was properly cooked and whose duty it would be to see that the patients received their medicine regularly and at the proper hours — I have also provided for two under nurses and for a night nurse.

The Matron should be a Eurasian woman who had gone through a course of professional training in the Lying-in hospital and who had received a certificate of efficiency from that institution. In several years past a large number of Eurasian women have been annually trained in the Lying-in and Woman and Children Hospitals, and I have no doubt a respectable reliable woman could be easily procured at the remuneration I propose — The two under nurses I should prefer also to be Eurasians and considering the large number of trained nurses who are unemployed, there would be no difficulty in getting suitable women for the pay offered. The night nurse might be a Hindoo or —

Mohammedan

Mohammedan. The nursing establishment of the hospital is at present represented by two ignorant native women who have no right whatever to the title of nurse in as much as they have received no professional training of any kind. Apart from the great advantage of having trained nurses from day to day considered absolutely necessary in every well managed hospital. I consider it highly desirable for many reasons, that there should be some respectable women living in the premises, and I feel sure that a large number of Eurasian and native women of higher caste, would avail themselves of the advantages of hospital treatment, if they knew that during their stay in hospital they would have the protection of a respectable person of their own sex. At present none of the female Eurasian community of the neighbourhood some of whom are very poor, even think of coming to hospital for treatment.

2. If my proposal in reference to the entertainment of trained nurses

is accepted, it would be necessary to provide accommodation for them on the premises, this could easily be done at a trifling cost, by making a few alterations in the present sheds, which are no longer required for the purpose for which they were originally constructed.

3. The present Assistant Surgeon is a man in whom I have great confidence, but I think that such a highly paid officer is hardly required for the duties he has to perform, and I am of opinion that the services of the present incumbent could be more profitably utilized elsewhere - I have accordingly in the revised list substituted a civil apothecary of more than twenty years service for the present Assistant Surgeon, and as I presume Government would be willing to continue to contribute to the support of the hospital in the same proportion as they have hitherto done, I propose that the present apothecary should be paid by Government as well as the Apothecary I propose to substitute for the Assistant Surgeon.

4. At present there are two first class Hospital Assistants on the

the Establishment I think that one man of this rank is sufficient, and I propose that instead of one of the first class man now attached to the hospital, Government should be asked to provide two third class men of the Hospital Assistant grade.

5. I understand that a meeting of some kind has been passed for the erection of a new out-patient department, but if the plan which I lately submitted for your approval is accepted, the new building will not cost nearly as much as the sanctioned plan. The surplus will therefore be available for altering the present sheds so as to make them suitable for the accommodation of the Matron and Under Nurses.

6. As will be seen from the accompanying statement the change which I propose will entail an increased expenditure of 24 rupees per month to the Municipality and a saving of 10 rupees per month to Government - the slight increase in cost to Municipality will in my opinion be converted into a considerable saving owing to increased efficiency and economy in the working of the hospital with the proposed staff.

7. The remaining changes which I propose in the staff of the hospital do not call for any explanatory remarks.

8 I trust that this question of the
revision of the Staff of this hospital may
receive your early attention and that
the proposals which I have brought
forward may meet with your approval
and support.

9. I intend at an early date
to address you on the subject of the
erection of a new female ward on
the space available over the present
female wing of the hospital.

I have the honor to be
Sir

Your most obedt Servt.

C. M. Thompson. M.D.

Surgeon Major

Surgeon 4th District

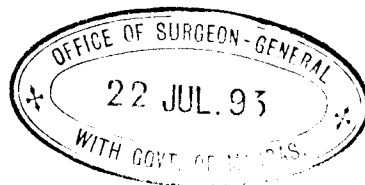

True Copy

Surgeon Major
4th Dist.

No. 175

Royapettha Hospital
21st July 1893.

From
The Surgeon
4th District

To

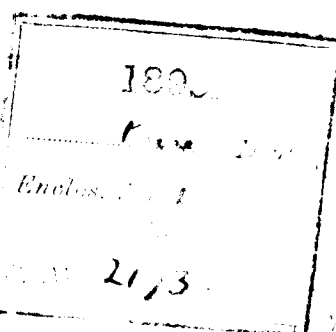

The Secretary to
Surgeon-General
with the Govt. of Madras.

Sir

I have the honor to return the petition
referred to me for remarks under your
Memo. No. 4384 of 15th July 1893.

2. The Surgeon-General is aware
that some time ago I submitted to the
President of the Municipality a scheme
for the re-organization of the staff of
this Hospital. One of my proposals
was that the Assistant Surgeon, at
present attached to the hospital, should
be withdrawn and that in his place
Government should be asked to provide

a civil

a Civil Apothecary of more than 7 years Service and in addition should be asked to bear the cost of the present Apothecary, who is now paid by the Municipality.

3. I made these proposals — which have been approved by the President Municipal Council — because I was and am firmly convinced that — considering the nature of the duties he has to perform, such a highly paid officer as an Assistant Surgeon is quite unnecessary and because I was anxious to provide for the hospital, without incurring additional expense, an efficient nursing establishment, a want which has long been felt to exist by every Medical Officer who has been in charge of it. The Surgeon-General is no doubt aware that the Royapetta Hospital is the only one

3.
in Madras to which there are no properly trained nurses attached. At a very late date the nursing establishment was represented by two ignorant — native women who had no special training and who were absolutely unfitted for the duties they were expected to perform.

4. Convinced that an Assistant Surgeon was unnecessary and that a proper establishment of trained nurses was absolutely essential for the proper treatment of patients, and as I had reason to believe that the Municipality would not be prepared to incur any additional extra expenditure on the hospital, I considered it my duty to make the proposal regarding the withdrawal of the Assistant Surgeon and the utilization of the funds set free by his withdrawal, towards meeting the extra expenditure for providing —
nursing

missing staff which has resulted
in the presentation of this petition to
Government.

5. This is the only hospital in
Madras to which an Assistant
Surgeon is attached, and it seems
to me that whatever may have
been the nature of the special cir-
cumstances of this part of Madras
in the past, which rendered such
an appointment advisable, they no
longer exist. When the late Dr.
Mohideen Sheriff was appointed
to the Hospital it was no doubt
considered necessary to encourage
the poorer classes of Mahomedans
to have recourse to the European System
of treatment, such encouragement is
not now required and whether a
Mahomedan Assistant Surgeon is
attached to the hospital or not, the
Out-patient department is thronged
every

every day with Mahomedan applicants for
medical relief, most of them the very
poorest and most ignorant of the
Mahomedan population.

6. I notice in the second paragraph
the following sentence in which it seems
to me the promoters of the petition have
unwittingly disclosed the real reasons
which have prompted them to submit it.
Speaking of the Hindu Assistant Surgeon
at present doing duty at the hospital,
the petitioners say "he is not a Maho-
medan and as such could not be
expected to enter into the feelings and
respect the prejudices of the Mahomedans
in particular when having to treat
respectable gosha families". Under no
circumstances would respectable
gosha families make use of the hospital,
though it would be no doubt a considerable
advantage for them to have an Assistant
Surgeon posted to the hospital and
subsidized by Government for engaging
in private practice amongst them.

7. My objections to having an Assistant
Surgeon

Surgeon attached to the Hospital are entirely based on considerations affecting the usefulness of the hospital as a charitable institution. I believe firmly if the interest of the poorer classes of the population are to be considered as against those of the richer and more influential classes who never make use of this hospital, that there can be no doubt the interests of the former will be better considered by the establishment of a proper nursing staff, whereby the facilities for proper and efficient professional treatment will be increased than by the retention of an Assistant Surgeon who is not required.

8. In para 2 of the petition it is asserted that the majority of the patients that seek aid at the hospital are Mahomedans: the following figures taken from the annual report of 1892 prove clearly that this assertion is inaccurate. In that year there were treated at the Royapettah Hospital 11,711 Mahomedans, 13,211 Hindus and 1,828 Eurasians, but even supposing the attendance was as

Stated

7

stated in the petition, I do not see how this fact would assist the case for the petitioner, for there is no reason why the Apothecary, whom it is proposed to attach to the hospital instead of the Assistant Surgeon, should not be a Mahomedan, in which case the name and rank and ~~not~~ not the nationality of the Medical Officer would be changed. There is at present a Mahomedan Hospital Assistant, Syed Mohideen, on the staff of the hospital, who has been here for many years and who is well known to all the Mahomedan population. He is a man, in whose general and professional capacity I have the greatest confidence.

9. There are a large number of poor Eurasians residing in the neighbourhood who at present make very little use of the hospital, and I could quote several instances of their refusing to do so on the ground that there are no proper arrangements for people of their class and no proper female supervision in the hospital. This is a defect for which I have proposed a remedy by the appointment of a Eurasian Matron.

10. The Surgeon-General will perceive that my arguments against the retention of an Assistant Surgeon are based on general grounds. I have nothing to say against the professional capacity of Mahomed Osman, but I consider the services of such a highly paid subordinate medical officer are not required, and that if it is a question of his retention or the postponement of the necessary reforms in the administration of the hospital, which I have embodied in my proposals submitted to the President of the Municipality, then I say without hesitation... if the interests of the hospital, as a charitable institution for all classes of the population are to be considered, that the appointment of the Assistant Surgeon should be abolished and the saving thereby effected utilized in the establishment of a proper and efficient nursing establishment, whereby the professional and general efficiency of the hospital will be vastly increased and

and a large number of poor Europeans will be induced to make use of the hospital, some of whom are also ratepayers and as such have a right to some consideration.

I have the honor to be

Sir
Your Most Obedient Servant

W. H. M. Jones M.B.

Surgeon-Major
Surgeon, & District.

OFFICE OF SURGEON-GENERAL
WITH THE GOVERNMENT OF MADRAS,
Madras, 8 August 1893.

No. 395

From

SURGEON MAJOR-GENERAL W. F. DEFABECK, M.P.,

SURGEON-GENERAL WITH THE
GOVERNMENT OF MADRAS,

Madras,

To

THE Honble the Chief Secy. to Government

Public Department,

Encls: 4

SIR,

In returning the memorial referred to me for remarks with your endorsement no: 1166 dated the 4th July 1893 I have the honor to state that Assistant Surgeon Muhammad Usman Sahib was temporarily posted to Negapatam to meet the exigencies of the service and is likely to continue there for some time longer as there is no Commissioned Medical Officer available to be sent to that station.

2. As regards the question of his retransfer to the Royapettah Hospital I have to state that the Medical Officer in charge of that Institution has since submitted a revised scheme for the better working of the Hospital, a copy of which is enclosed for the information of Government.

1003
Pulse
2

3. This scheme has met with the approval of the Madras Municipality to which the Hospital belongs also commends itself to me - I consider it very necessary in the interests of the Institution that the several proposals recommended by Surgeon Major C. M. Thompson should be sanctioned, the most important of them being the employment of a staff of trained nurses so essential for the efficient professional working of the Hospital.

4. To carry out these reforms is a matter of expenditure, but as the finances of the Madras Municipality are not in a very flourishing condition to admit of the extra charge it becomes necessary to redistribute the present expenditure so as to avoid any additional contribution being applied for from Government. With this view the Medical Officer proposes the substitution of the present Assistant Surgeon by a civil apothecary.

5. I am aware that in the retirement of the late Dr. Moodeen Sheriff in 1889 Government directed that the

Reference on
No. 2394 Public
Dept. of 26-8
August 1889.

In 20715A
26-889

The Ensigne appointed to be considered a permanent assistant surgeon and called for nomination, in obedience to which order an Assistant Surgeon has hitherto been maintained. I may however respectfully point out that whatever may have been the necessity for an officer of the rank at that time it does not appear to me that his services are now of much utility in the Royapettah Hospital. The grade of Assistant Surgeon was introduced solely for the purpose of arranging District Head Quarters duties when District Medical Officers proceeded on inspection tours and the employment of one as a ~~Presiding~~ Hospital can only result in swelling the item of Hospital

capital expenditure without a
corresponding benefit to the
hospital or to the Community. —
Then other and more important
hospitals in Madras have done
and can do without an assistant
surgeon it does not appear why
special concession should be
accorded to the Royapettah
hospital.

As regards the several
points connected with Hospital
statistics &c. raised in the
memorial, I have the honor
to enclose for the information
of Government a report from the
Surgeon of the District from
which it will be seen that the
Memorialists are under a mis-
apprehension regarding the wants
of the Hospital and the 4th
District.

LD

I have the honor to be,
Sir,
Your most obedt. Servant.

W. H. S. M. G. S.

Approving the progs: of
the Madras Board Comm^{rs}
re: the reorganisation of the
Royapettah hospital —

Currents 1759, 2172 & 2306

Order! of 6th Sept 1893, No. 725.
WLS

His. The petitioners will
be informed that in order
to increase the efficiency
of the Royapettah Hospital
and to enhance its use-
fulness as a charitable
institution it has been
found necessary to obtain
the appointment of Asst
Surgeon and to substitute
a Civil Apothecary, a Ho-
pital Asst and a staff
nurses.

2. G.O. of 21.8.93, No. 1100 M
will be comm: to the
Surgeon General.
