2. Para 2 of the letter read above will be communicated to the Public Department in view to the Surgeon General's explanation being obtained as to the delay in despatching the annual supplies of medicines to the Pungia Camp.

3. The Superintendent of Works should not have telegraphed to Messrs W. E. Smith & Co in any case, but to the Surgeon General. When Government is making its own quinine in large quantities outside purchases cannot be permitted.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

From the Superintendent of Works
no. 1 Periyar Division no. 12 C. & A.
29. August 1893: —

^{Read the following}
I have the honor to
report that I have been compelled
to telegraph to Messrs W. E. Smith & Co.
Madras, for 2 lbs of quinine, the
stock of which is exhausted at
both Periyar and Thekady hospitals.

2. The annual supplies of
medicines were due from the Surgeon-
General in July, but I learn that
they have not yet been despatched
from Madras. Meanwhile the fever
at both camps is very much above
normal and the demand for quinine
is large that the annual supply
— intended for about the half the
present number of fever cases —
will be quite insufficient when it
arrives.

3. I beg that under these
circumstances that you will be
good enough to ask Government
to sanction my action.

Order these.
