From
L. Davidson Esq. M.P.

The Honble the Chief Secretary to Govt.
Belfast.

Sir,

I have the honour to solicit instructions
regarding the following difficulties
which have presented themselves to me
concerning the proofs of the 1st & 2nd
new red letter chapters of the Manual
of Administration which have the
to be issued in a separate volume.
2. 13 maps are attached to the 1st & 2nd
chapters viz: those relating to (1) Physical
Features of Country, area, climate and
chap. 6, corresponding to pages 1 to
Vol. I of Dr. Maclean's Manual of
Administration, and that relating
Historical summary, corresponding
pages 110 to 118 of the same Manual.

... going in there to a po is anything
sustainable and must be revised
they are to be retained. The question of
joining with them altogether was mooted
a note to be found in the office copy
G.O. dated 27th June 1893, No. 490.

And the Hon'ble Member appears from
style in his handwriting to have left the
letter to the Chief Secretary. It is doubtful
whether the Survey Department will be
able to furnish new maps in time,
I do not think they are absolutely
essential to the chapters and would
expect that they should be left out
altogether.

The Board of Revenue (Land Revenue)
submitting the proof of chapters
sent to Civil Divisions has remarked
"a map showing the situation of the
new districts should be attached
to proposed compilation." (Proceedings
Board of Revenue, Land Revenue,
19th August 1893, No. 4619 (Misc))

The map referred to in the Manual
Administration itself contains several
spelling and needs revision - but ap-
parently the Board has taken no action
the matter. I think it desirable that it
should be requested to submit a
revised map at once or to state if
the old map will be sufficient,
the latter case it will be necessary
ask the Survey Department to prepare
duplicate of it with corrected spellings.

I take this opportunity of drawing
your attention to the fact that the
of several chapters will consist of
notes. The Board of Revenue, in
proceedings above referred to has re-
marked "in most cases the notes in en-
type" (i.e. in chapters on Civil Divisions
and Land Revenue) have been omitted
"as in a compilation accompanying
"The Administration Report it is
"considered sufficient to furnish
"information regarding the existing
"state of things and as reference can

usual when required." This argument
lies with some force to the first
two chapters - nearly half the matter
which consists of small type
notes of a most detailed nature.
These notes are supplemental to the
text rather than explanatory of it,
and strike me as too detailed to
find place in a brief manual of
guiding information. I make
these remarks in case you should
agree with me in thinking it de-
sirable to omit the whole or a portion
of them.

I have the honour to request an
early reply to this letter as the matter
is more or less urgent.

I have the honour to be
your most obedient servant
