[Despatch Abstract.]

Transferring to the
Surge General for
disposal so much
of the petition from
the inhabitants of
Bellikere complain-
ing against Surge
Major Hakin

[illegible][illegible]

Petition Public current No. 3078.

Petition of the inhabitants of
Telli-cherry states as follows:—

To Surgeon-Major H. K. Kim,
Civil Surgeon, Telli-cherry, gives
any drug to patients and does
not touch and examine them,
they grow worse and sometimes
die suddenly. This is a great griev-
ance to petitioners, and hence
this petition. The Doctor comes
to the hospital just for a quarter
of an hour to sign the attendance
(register), but he does not attend
to the patients even though their
case may be a matter of life
and death. Moreover, he does
not give Government drugs
properly to sick persons resort-
ing to the hospital - but he has
arranged to ^{have them} ~~told them~~ that drugs
have not been received and that
they

temporarily buy drugs
from his brother-in-law's shop-
as you (sic) have come just at
the time when petitioners suffer
like this they hope that something
decided will be done in the mat-
ter. Recently a child which swallowed
a piece of a broken glass was
taken to the doctor, but the doctor
did not attend to the child
but said that the child was to be
brought the next day; the child
however, died the same night.
Although several petitions to
the effect were sent to the Surgeon-
General, yet the doctor has not
only not been transferred but
has been permanently appointed
to Tellicherry. The doctor says
that so long as the present Surgeon-
General is in office, he will not
be transferred to any other place
unless he applies for a transfer.
The doctor who already has
20

so much aversion to come to
hospital is, it appears, going
to remove from his present
comfortable house to one a
mile and a half from the hos-
pital and close to the Judge's
house where you (sic) put up
when you (sic) come. This is
because he has quarrelled
with certain Europeans and
wants to eject the present
occupants Mr. Burnet and
his children, against whom he
bears a grudge, and wishes
to put them to inconvenience.
As the doctor informed Govern-
ment that there ~~are no~~ good
houses in the place, that there
is only one good house in the
place and that that is one which
is the property of Government (sic)
Government

Government has issued an order
that the house should be vacated.
Petitioners doubt whether the
sanction given by Government
to Mr. Hakkim to live in a house,
a mile and a half from the
hospital, is in conformity with
their ruling that doctors should
live within half a mile from
the hospital. If he goes to that
house, probably he will not
come to the hospital at all -

As Surgeon Major Browning
who knows the place well
and who has done much good
both to the patients and to the
public, is with you (Sir), you
can ask him all about this
place and can examine the
hospital and the house in
question. Petitioners further
refer you (Sir) to an article
which

Sanchari of the case.
regarding Mr. Hakkim ^{Public Deptt}
military, Mr. Armitage, a young
man of twenty or twentyone years
of age, is put in charge of the
whole police in North Malabar
instead of there being two or three
Superintendents as in South
Malabar; and so this place
which was once quiet and
orderly is now the first in the
Madras presidency for thefts
and murders. The Superintendent
being a young man, most of
the cases committed by him
are thrown out, and consequently
in the Municipality itself
the murders committed with
impunity are numerous.
Recently

Government has issued an order
that the house should be
provision was also sent in
connexion with this matter,
but there was no reply. As
this young Superintendent
got information beforehand
that your Excellency would
ask him about this matter,
he took a month's leave and
absented himself. Petitioners
pray therefore that the Assis-
tant Superintendent should
be transferred and an able
man appointed in his stead,
and that you (Sir) should
issue orders to the effect
that in future only Europeans
should be appointed Salt
Inspector and Doctor, respectively,
at Tellicherry.

HaRKim should be ^{Public Dept.}
from Tellicherry immediately.

For orders whether
notice should be taken

in the papers was subse-

There is it will be obtained
