Hon. Secretary to the
 Governors of the Provinces

on cooks or friends, the number of
a diet is provided by the Hospital
led to an average of 25 per diem,
owing to the want of the means at its com-
mand, which have necessarily restricted its power
for good. The Budget Estimate for the current
year, as prepared by the Dufferin Committee and
herewith annexed, also shows a deficit of over
1150 Rupees. It is, however, to be hoped that the special
effort now being made by the Committee and the
Governors to obtain the pecuniary aid of the middle
classes of the Native Community by the circulation
of "Collection Cards" for small subscriptions, will
prove successful, and so far increase the funds
of the Hospital as to relieve it from its present
condition of indebtedness, and enable it to afford
a greater measure of medical relief than in the
past to the women and children of the Hindu
and Mohammedan communities.

5. The Governors beg, in conclusion, to express
their special obligations to the Government of
His Excellency Lord Wankar for the continued
sympathy and substantial support accorded to this
Hospital. Their cordial thanks are also due to
Major the Honorable R. J. Lawley for the warm
interest he has taken in the welfare of this
institution and for his unremitting exertions to
improve its financial resources and to extend its
usefulness.

I have the honor to be

REPORT

ROYAL VICTORIA HOSPITAL FOR
GOSHA FEMALES

As this institution has been amalgamated since May 1892, a brief review of its past has and probably instructive. For full particulars see last year's report.

In March 1885 a meeting was held at the Hospital for caste and goshu females. H. N. S. presided. So popular was this proposition that Rs. 70,000 was subscribed on the Rajah of Venkatagiri, C.I.E. The hospital was then located in a house in December, and was then located in a house at the disposal of the committee for four building is reported to have been "found" patients resorting to the hospital as well as and was therefore vacated in September 1887, and was therefore vacated in September 1887, referred to another building, the "Rookery," month. Government, prior to this, had given hospital in the Chepauk grounds, and the Raj princely munificence had given a lakh of rupees. The foundation stone was laid on 1st

that both she and Miss Pailthorpe severed their connection with the institution in February 1887.

Miss Bourchie was then appointed on a salary of Rs. 400 a month with free quarters. She was in charge until the 4th of February 1893, with a break of six months' furlough, during which time Miss Pethocary, acted for her.

In February 1891 the matron's post, hitherto held by a trained nurse, was assumed by Miss Ivach Ammall, a lady having the degree of Licentiate of Medicine and Surgery, who held the post for 14 months. She was succeeded by Miss Wray, a lady Apothecary. This arrangement had some peculiar advantages at that time, as the Superintendent lived at some distance from the hospital.

The funds of the hospital since its inauguration show a chronic deficit, as mentioned in last year's report. Government, in sanctioning its establishment, the absolute necessity that existed for a re-organization of the hospital, and such matters, a Sub-Committee of the Ladies' Committee was appointed. Doctor Price, of the Madras Medical College, was appointed as the Superintendent with a double qualification be appointed as the Superintendent of the grade of apothecary on a salary of Rs. 150, rising by biennial increments of Rs. 25 to Rs. 200, and an Assistant Superintendent on a salary of Rs. 100, rising in the same way to Rs. 150.

II. That the following recommendations were also made; the result of the above proposals was to effect at once an annual saving of Rs. 3,000, and a decided increase in efficiency.

When it was sent in her resignation and left Madras almost immediately. The charge of the hospital then devolved on the Matron, Miss Wray, who carried on the work satisfactorily at a very critical period.

Miss Florence Wells was then appointed Superintendent, and of the local. On April last. The Committee have much pleasure in assuming charge of her fact and general management of the hospital since she has been in charge.

On the re-organization of the establishment Miss Wray was promoted to the post of Assistant Superintendent. Her knowledge of the interior of the hospital was of much use to Miss Wells who only arrived assuming charge. Miss Wells has also assigned to her certain duties.

Other recommendations made by the above-mentioned Sub-Committee were:—
(a) That the Superintendent be directed to keep her daily average at a figure not higher than 25.

(b) That a "Visiting Committee of 4 ladies" be appointed to visit the hospital at stated intervals. In former years the Ladies' Sub-Committee did exist, but visiting intervals does not appear to have been one of the wording of the above resolution. Acting on this action, the following ladies were appointed: Firth, Mrs. Elwes, and Mrs. Cox. Their services were valuable, not alone in interest in the institution, but in communication with the Superintendent, in the fund such improvements in the work as from time to time present themselves.

During the time Government was on the E. furnished by the visitor of the week to the Secretary, middle of April and the 25th November the hospital was visited by these ladies, and this opportunity of expressing his thanks to them for their most helpful co-operation.

In addition to the regular visits of the Ladies' Committee, the following have visited the hospital during the year: H.E. The Lady Wenlock, T. Muttusami Iyer's family, and also of Mir Hum Major the Hon. R. T. Lawley, the Rajah of Ramnad de Fabek, Rai Bahadur Krishnamah Charri, Mrs. Oxley, Miss Billington. The Rajah of Ramnad kindly presented the hospital with twenty-four iron and four chairs. His interest in the hospital has as he gave Rs. 2,000 to the hospital, thus compensating of Rs. 5,000 towards the Lying-in Ward, which he endowed to commemorate the visit of H. the Duke of Clarence and Avondale.

(c) That Doctors Price, Branfoot and Brown be appointed as visiting Medical Officers to supervise the general management of the hospital. This they kindly consented to do, and assistance have been of the greatest possible benefit. The Secretary cannot let the opportunity pass without appreciation of the cordial co-operation received from them, rendered very often, as it must have been, at great expense to themselves.

(d) That "the purpose of the Ladies' ward not be to entertain, but to acquaint the public with the uses and to enlist sympathy and interest on the part of the ladies." The Ladies' ward represents a not uncommon form of European hospitals, namely, the endowment of 1 supporting a bed pays Rs. 6 a month or an annuity of Rs. 72. With this sum a patient can be fed, housed, and attended for a whole year, and it is not too much to expect well among well-to-do native ladies, that they will be their poorer sisters. Sir T. Muttusami Iyer in compliment to the visit not alone endowed one of these beds with a cot and bedding; his good example in this latter followed by all the ladies, and now each bed is equipped. At present beds are supported by the The Lady Wenlock, the Nawab Rahmat-ur-Nisa Begam, T. Muttusami Iyer, Mrs. Barclay, Nawab Kurshed Sahiba, Mahali Mirza Mahomed Ismail Khan Bahadur.

A. charitable organization, the Sara Carmichael made a very welcome offer to support and equip

intended to visit the hospital at stated intervals; hence the recommendation of Mrs. Firth, Mrs. Elwes, and Mrs. Cox. Their services were valuable, not alone in interest in the institution, but in communication with the Superintendent, in the fund such improvements in the work as from time to time present themselves.

Between the report was visited by these ladies, and this opportunity of expressing his thanks to them for their most helpful co-operation.

Committee and inspected the hospital during the year: H.E. The Lady Wenlock, T. Muttusami Iyer's family, and also of Mir Hum Major the Hon. R. T. Lawley, the Rajah of Ramnad de Fabek, Rai Bahadur Krishnamah Charri, Mrs. Oxley, Miss Billington. The Rajah of Ramnad kindly presented the hospital with twenty-four iron and four chairs. His interest in the hospital has as he gave Rs. 2,000 to the hospital, thus compensating of Rs. 5,000 towards the Lying-in Ward, which he endowed to commemorate the visit of H. the Duke of Clarence and Avondale.

asked to act as visiting Medical Officers to supervise the general management of the hospital. This they kindly consented to do, and assistance have been of the greatest possible benefit. The Secretary cannot let the opportunity pass without appreciation of the cordial co-operation received from them, rendered very often, as it must have been, at great expense to themselves.

understood, the objects and the uses of the institution. The Ladies' ward represents a not uncommon form of European hospitals, namely, the endowment of 1 supporting a bed pays Rs. 6 a month or an annuity of Rs. 72. With this sum a patient can be fed, housed, and attended for a whole year, and it is not too much to expect well among well-to-do native ladies, that they will be their poorer sisters. Sir T. Muttusami Iyer in compliment to the visit not alone endowed one of these beds with a cot and bedding; his good example in this latter followed by all the ladies, and now each bed is equipped. At present beds are supported by the The Lady Wenlock, the Nawab Rahmat-ur-Nisa Begam, T. Muttusami Iyer, Mrs. Barclay, Nawab Kurshed Sahiba, Mahali Mirza Mahomed Ismail Khan Bahadur.

Orphanage, made in the

hospital, three of which are reserved for Hindus and three for Muhammadans. An application was recently made to the Orphanage Committee inquiring whether they could not see their way to making this a perpetual arrangement by increasing the funded capital of the hospital to the necessary amount. A reply has been received that it will be favourably considered at an early date.

The hospital buildings are in good repair. During the year the following additions were made to the Assistant Superintendent's quarters: A verandah was thrown out on the west side, which was much exposed to the sun. The south verandah was closed in with venetian shutters, thus giving increased accommodation, and the east verandah which forms a passage between the two upper wards was screened off, thus giving increased privacy. The cost of these improvements, Rs. 838, was divided between hospital funds and the Dufferin Funds.

Furniture and bedding is ample, several additions being made during the year. The Nurses' quarters were supplied with stools and a toilet set. The bedding and linen of the hospital was in very poor condition; much of it was condemned as useless, and a new supply obtained. This, with that supplied by Lady Wenlock, Mrs. Barclay, Rahmut-un-Nisa Begam Sahiba, Sir T. Muttusami Iyer, and the Rajah of Ramnad, has made the equipment complete in this direction.

Staff.—The establishment consists of—

	Pay.
Rs.	
1 Superintendent	150
1 Matron	50
1 Compounder and Clerk	20
3 European Nurses at Rs. 15 each	45
2 Muhammadan Ayahs at Rs. 5 each	10
2 Hindu Ayahs at Rs. 5 each	10
1 Muhammadan Cook	6
1 Hindu Cook	6
2 Peons at Rs. 6 each	12

1 Dhobi	10
2 Sweepers (male) at Rs. 6 each	12
3 Female sweepers at Rs. 4 each	12
Storekeeper's pay with cooly	9
Total	358

It became evident during the year that the weakest point in the administration was the nursing staff, their pay Rs. 7, was totally inadequate for their maintenance, and a good class of women could not be obtained for such emoluments. Miss Wells, who has been doing something towards training these girls, found herself handicapped by their extreme ignorance. Not alone were these defects evident from a professional point of view as seen by the Lady Superintendent and visiting Physicians, but the position of these girls was brought to notice by the Lady visitors. Mrs. Shephard very kindly presented them with uniform, and on her representation, a morning meal was given to each of them. It was felt, however, that something further should be done, although our chronically impecunious state did not make the matter an easy one. A review of the annual report drawn up for the Central Dufferin Fund showed that although there was a most satisfactory increase in the work done that it was not more than any Lady Doctor resident on the premises, aided by a trained matron could not fairly easily get through. It was decided therefore at the meeting of the Fund held on the 19th ultimo that the post of

Assistant Superintendent should be held in abeyance, and that a matron should be appointed on a salary not exceeding Rs. 60 per mensem. It was then possible to do something for the nurses, and their pay was at the same meeting raised to Rs. 15 a-month. A better class of nurse will gradually be obtained when some provision can be made for those now on the establishment. By the above changes the nursing staff will be much improved, and with a skilled matron no decrease in efficiency will, it is believed, occur, and the month's expenditure on establishment reduced from Rs. 384 to Rs. 358.

Mrs. Williams has been appointed Matron; she has very excellent testimonials, and appears to have had much experience of midwifery work and hospital management in the Lady Aitchison's Hospital, Lahore.

It is interesting to note how, with increased financial experience, the cost of establishment alone, has been from time to time reduced—too slowly perhaps! When the hospital was first opened in December 1885, the average monthly charge under his head was—Superintendent Rs. 600, Assistant Superintendent Rs. 325, Matron Rs. 70, other establishment Rs. 132—total Rs. 1,127; the average daily attendance at this period was 47. Apart from the excessively large upper staff, the disproportion between their pay and the cost of the menial establishment is marked.

In February 1887, Miss Bouchier was appointed on a salary of Rs. 400, Matron Rs. 80, other establishment Rs. 161—total Rs. 641. The average daily attendance of in- and out-patients for the next four years was 68. In April 1893, Miss Wells was appointed—salary Rs. 150, Assistant Superintendent Rs. 100, other establishment Rs. 134—total Rs. 384. The average daily attendance for the past year has been 99. The financial position of the hospital was better during the past year, than at previous times, and its existence, and still we find that the establishment taxes our resources to the utmost. A striking feature, however, to be noted is that in spite of these very necessary reductions, the hospital attendance has steadily increased. The above is very instructive, and may furnish food for reflection to those opening and interested in similar institutions.

The records and stock books had not been kept up in former years in a very systematic way, and not in accordance with the methods generally observed by the Medical Department in India. During the present year, however, the matter was carefully gone into, stock books were opened and the registers of attendance revised, and carefully and accurately kept up to date. In this connection, it is to be noted how desirable it appears to be, that a uniform system of statistics should prevail in all the hospitals working under the Fund. Form VI, which appears as Appendix VIII in the last Annual Return of the Central Committee, as it now exists, is, it must be acknowledged, defective: columns exist for the number of in- and out-patients treated, but there are no columns for average daily attendance, the true test, with the number of operations performed, of a hospital's popularity—figures showing total treated, may, either through ignorance of such matters, or wilfully, be made to represent anything, but corrected by figures of average attendance, the work done from one period to another, and as compared with other hospitals can be seen at a glance. In the body of the Central Committee's report above referred to, it is to be noted that the medical authorities in charge of many of the fund hospitals, for instance, Fyzabad, Allahabad, &c., recognize the necessity of the controlling figures showing average daily attendance. This matter has already been brought to the notice of the Central Committee.

1893	...	1,008	30	69

Maternal
head as con
cases treate

ere has been a satisfactory increase under this
previous years. The following table shows the
two years:—

	Labour, natu- ral.	Labour, dis- cult.	Labour, pre- ternatural.	Labour, com- plex.	Abortions.	Total.
1892 ...	42	2	2	2	0	48
1893 ...	47	10	0	2	0	59

Of the 57 1893 cases, 36 were Hindus and 21 Muhammadans; in 1892, 36 were Hindus and 21 Muhammadans; in 1893 the proportion was approximately the same, there being 47 Hindu and 31 Muhammadans. Three deaths occurred among the labor cases—one from tetanus, one from puerperal convulsions, one from shock.

The following table shows:

The following table shows the number of operations performed during the past five years:—

return of sick it will be seen that there was a slightly larger number of Muhammadans treated in 1915, probably being that, with the exception of the "Ladies" ward, all those in the "Ladies" ward are used as out-patients; however, this is expected, are in excess; of the 6,384 out-patients, 2,217 Muhammadans.

ot classified in the record.

Miss Wells reports a very satisfactory
In 1892, 525 of the out-patients were Brahmins.
review the number rose to 760.

As regards the total number of patients treated in mind that the attendance is limited to caste. If the hospital were open to all classes, a much could be shown, the special objects of the hospital be kept in view. Again, as regards in-patients, the limited to a certain extent, by the resolution of the allows only an average of 25 diets per diem; themselves may be admitted to the extent of 1 available, the limitation here referred to, be it a large hospital wards an empty appearance even a number are under treatment.

Among out- and in-patients the chief diseases of the generative system; these diseases account for 14.4 per cent. and 25.3 per cent. of the latter.

A review of the above report shows the year to be a successful one in every way, and, if funds were available, the prospect of a still further increase in work. The hospital still continues to be a source of anxiety in its working.

As mentioned in last year's report, an effort was made to secure an exemption from Municipal assessment, and a special survey of the condition of the well-to-do Hindus and Muhammadans was made. The results were barren. The reason for this latter failure was that the new organization would become more popular, and that they perhaps would feel more inclined to give assistance. This became more popular, and is daily increasing in popularity. There is no room for doubt, and, in publishing this report, is made to the natives of both communities. It will help, as far as in them lies, an institution, which will help their own interests, and which must commend itself to an ably disposed person; to quote from a former report, "who are nobly ambitious to mitigate suffering, and to develop the happiness of domestic women, whose closely protected seclusion, and jealousy render them the least susceptible to modern influences, have a tender and chivalrous feeling for the gentle and for aid. The Committee appeal to them to lend their pecuniary support either in the form of subscriptions."

Large donors have been prominent from the accompanying list shows, but surely charitable monopoly of the very well to do? Any sum, no matter how small, is gratefully received and duly acknowledged, and will give some measure of relief to some suffering woman. Since April, thousands have given their mites which have amounted to 15-18-0 to date, and for which a patient can be treated for two and a-half months.

RULES OF THE VICTORIA CASTE AND GOSHA FEMALES' HOSPITAL.

1. *Name.*—The hospital shall be called 'The Victoria Hospital for Caste and Gosha Women.'
2. *Management.*—The affairs of the hospital shall be managed by a committee subject to the control of the governors of the institution.
3. *Qualifications of Governors.*—Those gentlemen who have contributed, or who may hereafter contribute, Rs. 1,000 to the endowment or other funds of the hospital shall be 'Life-Governors,' and shall exercise all the rights and privileges of governors without any further payment. The names of all life-governors with the amounts subscribed by them shall be written up on the wall of the hospital, or on a board to be placed in a conspicuous part of the building. A subscriber of the sum of Rs. 50 yearly shall be a governor of the hospital for the calendar year to which such subscription relates, and shall be entitled to vote and exercise the privileges of a governor during such period, as he may remain a subscriber of the annual sum of Rs. 50.
4. The Government of Madras, so long as it contributes to the funds of the institution, may appoint not less than five persons to be governors for the time being of the hospital; and they shall hold office during the pleasure of Government.
5. *Ordinary Meetings of Governors.*—As soon as may be after the 31st day of December of each year the governors shall hold an annual meeting, at which the report of the Committee of Management and Medical officers on the result of the year's work shall be laid before them.
6. No special business or alteration of rules shall be undertaken at such annual meeting, unless fourteen days' notice has been given to the Secretary in writing of the intention to introduce such business or alteration of rules.
7. *Extra Meetings.*—It shall be competent for not fewer than 10 governors to address a requisition to the Secretary at any time, calling upon him to convene an extraordinary meeting of governors for the purpose of considering any matter which, in their opinion, requires to be dealt with before the ordinary annual meeting of governors takes place; provided that fourteen days' notice of the date and objects of such meeting be given to every governor through the Secretary. No business other than that specified in the notice shall be discussed at such meeting.
8. *Committee of Management.*—The Committee of Management shall be the Executive Committee of the Madras branch of the Countess of Dufferin's Fund. It shall be responsible to the governors that the rules of the institution are carried out and that the accounts of income and expenditure are duly kept. It shall submit to the governors annually, in the month of January, a report of the operations of the hospital during the past year and a budget of income and expenditure for the year then commencing.

9. The Committee of Management shall be at liberty to entertain such nurses and servants as may be necessary for the wants of the hospital, and to dismiss the same when they may think fit. The Committee may also enter into contract for the supply of articles of diet, clothing, furniture, and other necessaries as may be required for the service of the institution.
10. *Superintendent.*—The Superintendent of the hospital shall be a lady who possesses either a degree or a license from some recognized university or corporation to practise in medicine and surgery.
11. The appointment, dismissal and remuneration of the Superintendent shall rest with the Committee of Management subject to the approval of the governors.
12. The Superintendent shall be responsible for the due performance of the medical and surgical duties of the hospital. She shall attend the hospital daily and prescribe for patients between the hours of 8 and 10 A.M., and at such other times as may be requisite.
13. The appointment, salary, and terms of service of the resident medical women shall be at the discretion of the Committee of Management.
14. The Committee of Management shall submit to Government annually, within three months after the expiration of the calendar year, a report containing a full account of the management of the hospital, accompanied by such statistics as may be prescribed from time to time.

JUNE.

Triplicane Langarkhana.
Reviewing the report on the — for the year
1893-94.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From M.R.Ry. M. VINAYAGAM MUDELIAR, Assistant Commissioner of Police, to the Commissioner of Police, dated Madras, 11th June 1894, No. —.

I have the honour to submit the following annual report and statement of receipts and expenditure of the Triplicane Langarkhana for the year 1893-94 :—

		Amount.		
		RS.	A.	P.
(1) Receipts—				
(a)	Balance at the close of 1892-93	..	..	..
(b)	Amount drawn from the treasury	..	1,126	10 9
(c)	Interest drawn on investment of Rs. 3,000	..	4,800	0 0
(d)	Amount of toddy-rent derived from the cocoanut trees	..	119	11 2
(e)	Sale-proceeds of broken rice, plantain, fruit, &c.	..	132	0 0
		..	219	2 6
Total		..	6,397	8 5
(2) Expenditure—				
	For feeding 1,858 out-door paupers with cooked food	..	2,094	2 5
	„ distributing raw-rice to 2,189 out-door paupers	..	3,098	1 1
	„ money-doles to 187 out-door paupers	..	122	2 0
	„ feeding 90 inmate paupers	..	173	15 8
	„ servants' wages from March 1893 up to February 1894	..	833	14 9
	„ contingent charges	..	135	10 3
Total		..	5,457	14 2
Balance		..	939	10 3

2. Under the head of receipts there has been an increase in item (d) owing to the arrangements made with the toddy contractor by which a monthly average income of Rs. 11 has been secured, as reported last year. There has been a decrease of about Rs. 31 in the item (e) of the receipts, showing the sale-proceeds of broken rice, plantain, fruit, &c. This is due to the storm that occurred in November last by which the whole plantain plantation was levelled down to the ground. Had it not been for the storm the income from the garden would have been much larger than that for last year. Every effort, however, is being made to revive the garden.

3. There were 4,324 paupers against 3,705 in 1892-93 and the average expenditure per mensem was Rs. 454-13-2 against a monthly average of Rupees 435-2-8 in the preceding year. The cost of each pauper per mensem is Rs. 1-4-2 against Rs. 1-6-6, or As. 2-4 less than that of the previous year.

4. The following is an abstract statement of paupers to whom relief in the shape of either cooked food or raw rice or money-dole was granted in the institution during the year :—

Month and year.	Out-door paupers.			Inmate paupers.	Total.
	Receiving cooked food.	Receiving raw rice.	Receiving money-doles.		
April 1893 ..	149	151	16	7	
May ..	143	155	16	7	
June ..	155	153	16	7	
July ..	158	157	16	8	
August ..	160	157	16	8	
September ..	160	160	16	8	
October ..	160	160	16	8	
November ..	159	204	16	8	
December ..	152	214	15	9	
January 1894 ..	151	223	15	7	
February ..	156	227	15	6	
March ..	155	228	14	7	
Total ..	1,858	2,189	187	90	4,324
1892-93 ..	1,713	1,682	192	88	3,705
		3,617			

5. The total number of out-door paupers receiving relief in the shape of cooked food, raw rice and money-doles was during the year 4,234, giving a monthly average of 353, against 3,617 or a monthly average of 301 in the preceding year. It will be observed that there has been an increase in the number of paupers under all heads. The increase in the out-door paupers alone was 617, the total increase being 619.

	Total out-door paupers.	Monthly average number.	Monthly average cost.
1884-85 ..	3,354	279	403
1885-86 ..	3,482	290	402
1886-87 ..	3,526	293	348
1887-88 ..	3,728	310	401
1888-89 ..	3,603	300	417
1889-90 ..	3,516	293	377
1890-91 ..	3,648	304	412
1891-92 ..	3,446	287	404
1892-93 ..	3,617	301	435
1893-94 ..	4,234	353	454

6. From the marginal statement it will be seen that during the last 10 years the year under report is the one during which the largest number of paupers has been maintained by the institution; still there is a pretty large balance in our hands which will be gradually worked off by giving relief to a still larger number of paupers. The number of paupers on the rolls on the date of this report is about 400.

7. The following statement shows the prices at which rice was purchased during the year under report and in the preceding year:—

Months.	1892-93.		1893-94.	
	Measures per pagoda.		Measures per pagoda.	
April ..	23 0 $\frac{3}{4}$		26 0	
May ..	24 0 $\frac{1}{4}$		26 1	
June ..	22 0 $\frac{3}{4}$		25 3 $\frac{1}{2}$	
July ..	22 0 $\frac{3}{4}$		27 0 $\frac{1}{2}$	
August ..	24 0 $\frac{1}{2}$		26 4 $\frac{1}{2}$	
September ..	24 0 $\frac{1}{2}$		26 3 $\frac{1}{2}$	
October ..	24 0		25 5 $\frac{1}{2}$	
November ..	24 0 $\frac{1}{2}$		24 "	
December ..	22 7 $\frac{1}{2}$			
January ..	24 0 $\frac{7}{8}$			
February ..	26 0			
March ..	25 0 $\frac{3}{4}$			
12) 285 3 $\frac{1}{2}$			322 7 $\frac{1}{2}$	
	23 6 $\frac{1}{2}$		26 7 $\frac{1}{2}$	

It will be seen from the above that the prices although not very favourable were certainly not so high as in the preceding year. If the prices had continued to be as bad as in the preceding year, the balance would have been reduced a good deal further.

8. The contingent charges were by thrifty management less than those of the preceding year by Rs. 32-0-8.

9. M.R.Ry. P. V. Kistnasamy Chettiar, High Court Vakil, was kind enough to send Rs. 40 to give a treat to the paupers of this institution in connection with his mother's obsequies. The sum was spent accordingly.

10. The following statement shows the casualties and admissions during the year:—

	Deaths.	Dismissals, absentees, &c.	Admissions.
Cooked-food recipients ..	10	77	90
Raw-rice recipients ..	18	16	114
Money-dole ..	1	1	10
Inmate paupers ..	4	6	

11. The following statement shows the number of paupers on the rolls in each class at the beginning and at the end of the year:—

	Out-door paupers.			Inmate paupers.
	Cooked-food recipients.	Raw-rice recipients.	Money-dole recipients.	
1. Number on the rolls on 1st April 1893 ..	152	148	16	7
2. Number discharged ..	77	16	1	6
3. " died ..	10	18	1	4
4. " admitted ..	90	114	..	10
5. Number on the rolls on 31st March 1894 ..	155	228	14	7
6. Average daily strength ..	154.51	182.21	15.5	7.51

12. The cost of distribution of raw rice to the 40 Muhammadan paupers nominated by the Paymaster of the Carnatic Stipends under G.O., dated 7th November 1885, Political Department, amounts to Rs. 596-9-6 as detailed below. There were two deaths and two admissions during the year:—

Month and year.	Number of paupers.	Cost of relief.
April 1893 ..	39	Rs. A. P. 48 10 3
May ..	40	49 14 2
June ..	40	49 15 6
July ..	40	49 15 6
August ..	40	49 15 6
September ..	40	49 15 6
October ..	40	49 14 2
November ..	40	49 14 2
December ..	39	48 11 5
January 1894 ..	40	49 14 4
February ..	40	49 14 6
March ..	40	49 14 6
Total ..	596	9 6

13. The number of Mussulman paupers of Mylapore and Triplicane who received money-doles at the Police Commissioner's office was on 1st April 1893 as follows:—

	RS. A. P.
27 Females receiving ..	51 12 0
1 Male receiving ..	2 8 0

The number that stood on the rolls on the 31st March 1894 was -

25 Females receiving RS. A. P.
.. .. . 48 12 0

Two paupers (one male and the other female) died and one female pauper was struck off the roll for long absence, her whereabouts not being known.

No. 65.

Forwarded to the Chief Secretary to Government, Madras.

MADRAS,
13th June 1894.

(Signed) H. W. H. COX, Colonel,
Commissioner of Police.

ORDER—dated 26th June 1894, No. 463, Public.

With the foregoing endorsement the Commissioner of Police submits the report on the Triplicane Langarkhana for the year 1893-94.

2. The subjoined statement compares the receipts and charges of the institution for the last three years:—

Receipts.	1891-92.	1892-93.	1893-94.	Charges.	1891-92.	1892-93.	1893-94.
Government contribution.	RS. 4,800	RS. 4,800	RS. 4,800	Pauper inmates ..	RS. 196	RS. 200	RS. 174
Interest ..	120	120	120	Cooked food to tent-door ..	2,044	2,201	2,094
Donations ..	100	120	120	Raw rice ..	1,376	1,753	2,098
Miscellaneous ..	394	320	351	Money doles ..	125	125	122
Opening balance ..	640	1,109	1,127	Establishment ..	774	775	834
Total ..	5,964	6,349	6,358	Contingencies ..	141	168	136
				Total ..	4,855	5,222	5,458
				Closing balance ..	1,109	1,127	940

3. The total number of paupers who received help from the institution increased by 619. This accounts for the rise in expenditure, which was Rs. 5,458 against Rs. 5,222 in 1892-93. The fall in the monthly average cost of a pauper from Rs. 1-6-6 to Rs. 1-4-2 was due to the decrease in the price of rice.

4. The expenditure on account of 40 paupers nominated by the Paymaster of Carnatic Stipends was Rs. 597, or nearly Rs. 50 per mensem. There were 25 Mussulman paupers belonging to Triplicane and Mylapore on the rolls at the close of the year receiving Rs. 48-12-0 as money-doles.

5. The report is satisfactory.

(True Extract.)

Full form

The total number of paupers was less than in the year 1891, not been for the money doles, was during the garden a monthly average of 300 larger than a monthly average of 301 in effort, however. It will be observed that the garden, an increase in the number of 33, donate heads. The increase in paupers is being big. The average from the margin of the Report is 154, it will be seen that during average of the last year the year ending year which the largest number of paupers had been maintained by the Institution. Still there of the pro is a pretty large balance in on hands which will be gradually worked off by giving relief to a still larger number of paupers. The number of paupers in the
