Department.

(Meteorology)

SIR,

At the instance of the Astronomer Royal it has been suggested to the Government of India by the Right Honourable the Secretary of State that the Observatory Reports from Madras and Bombay should be for the same period and be submitted at the same time so as to admit of both reports being considered together by the Indian Observatories Committee early in November when the Royal Society is in Session. I am accordingly to request that, if His Excellency the Governor in Council has no objection, the report of the Colaba Observatory may in future relate to the year ending 31st March, and that it may be submitted to the Government of India not later than 1st August annually.
