OFFICE OF THE PROTECTOR OF EMIGRANTS,
Madras, 15th August 1892

From

E. Turner Esq.

As PROTECTOR OF EMIGRANTS,
Madras,

To

The Hon.ble Mr. J. J. Price

CHIEF SECRETARY TO GOVERNMENT,
PUBLIC DEPARTMENT,

Fort St. George.

Cobalamund.

SIR,

I have the honor to request the sanction of Government, directing the Consulting Architect to Government to prepare an estimate for the construction of a Verandah 60 feet by 20 feet in front of the old Port Office buildings, for accommodating Emigrants and Immigrants, during the time of Embarkation and Debarkation.

2. The Consulting Architect, whom I addressed on the subject, says that the "Verandah must be of iron as the height of wall will not permit of any other kind of roof", and that its cost will amount to about Rs 2500. Hence this reference.

3. The Emigration Yard opposite the Custom's House

House, the buildings wherein, were constructed out of the Emigration Funds, and which had been in the occupation of the Emigration Department, had recently to be vacated for Customs purposes.

These buildings have been demolished in view to the site being utilized for the construction of a Public Warehouse for the Sea Customs Depart. *Mango. R No 46*

ment. I beg therefore that the cost of the proposed Verandah may as a set off be ordered to be debited to 9 "Customs, Sea Customs" on the analogy of the adjustment of the Charges *Find go 667*
18-7-92 incurred by the Presidency Port Office to make room for the Office of the Collector of Madras.

I have the honor to be

Sir

Your most obedient servant

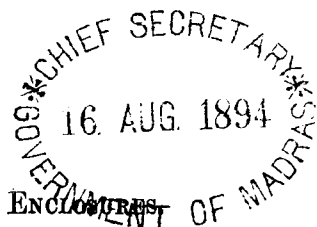

As Protector of Emigrants.

The Chief Secy said in his
first letter that the Verandah
was to be of iron - I supposed
a masonry structure with
up design for a masonry structure
with tiled roof, which will,
I should think, cost much more.
Why?

Also whatever the kind of
Verandah, work its structure
in the place proposed render the
rooms in the lower story of the
Custom House, in part of which
it is to be built, too dark as to
be quite unfit for occupation -
I don't say it certainly would.
There is a good Verandah, 23'
x 25' wide, all along the front of
the Custom House already. I don't
say that would amply suffice
for the emigrants in bad weather.
In good weather, if they can't stay
out in the sun about they are
not fit to be emigrated, to go
down as field hands -
Disables the project -
