

India.

This seems a peculiar case. The memorials were recd. from India for return to the writers with the usual intimation. But please see the Rajah's rejoinder.

From their forms it would appear that India must have sent the memorials home and overlooked the fact on their return.

It will perhaps be sufficient to simply record the papers. Do you think the Rajah should get a reply?

Note for C.C.

The memorials are addressed to the G. of D. not to the S. of S. & I fancy your view of the matter is correct. I think the Rajah should be told that there has apparently been some mistake about the petitions in the office of the G. of D.
