IMMIGRATION.

Report of the Protector of Immigrants for 1894.

Council Paper No. 108 of 1895.

M. P. No. 2376/1895.

IMMIGRATION OFFICE,
7th May, 1895.

SIR,

I have the honour to report for the information of the Governor as follows on matters connected with Immigration during the year 1894, and attach the usual Abstract of Quarterly Returns with other tables.

Immigrants introduced from India.

2. Four vessels arrived from India during the year 1894 which embarked 2,592 at Calcutta, landing here 2,519, or 73 less than they took on board, giving a percentage of 4.12 per cent., or 41.28 per thousand as against 1.18 per cent. for the year 1893.

3. The births and deaths during the voyage for the years 1893 and 1894 were as follows:—

				Embarked.	Died.	Births.
1893	...	...	...	1,942	23	21
1894	...	...	...	2,592	107	34

4. It will be seen from these figures that the mortality in 1894 was higher than in the previous year, but this was chiefly due to an epidemic of measles which occurred on board every vessel of the season, and to the sequelæ of which much of the mortality must be attributed.

There is no doubt that the epidemic of measles must have originated in India, but the question of preventing it in future would, I fear, involve an expenditure which would greatly affect Immigration into the Colony.

5. The numbers of those who paid their passages during the years 1889 to 1894 were as follows:—

1889	...	...	...	...	31
1890	...	...	...	...	41
1891	...	...	...	...	31
1892	...	...	...	...	22
1893	...	...	...	...	16
1894	...	...	...	...	12

6. The amount deposited in India by Indians who came as passengers or as Immigrants to be paid them here was:

1889	...	...	...	...	£1,568	10	6
1890	...	...	...	...	976	17	7
1891	...	...	...	...	887	8	0
1892	...	...	...	...	660	18	0
1893	...	...	...	...	146	11	6½
1894	...	...	...	...	397	1	0½

7. Deckers from other Colonies and the Spanish Main are as follows:—

YEAR	Arrivals.	Departures.
1889	11,144	8,206
1890	10,991	8,407
1891	13,321	10,448
1892	12,022	8,823
1893	15,787	12,784
1894	11,559	8,459

There is little doubt that the depression in the Sugar industry will largely increase the numbers of this class especially from Barbados where want will force them to leave for

this or other Colonies in which extensive tracts of Crown lands still exist. I may however mention as I have said in some of my former Reports that these figures, although approximately correct, cannot be taken as exact, as in some instances persons leave the Island at the last moment without any record of their names being made. I do not however consider that this will materially affect the accuracy of the above Return.

8. Mortality among indentured Immigrants.

Years.	General mean death-rate.
	3.73 per cent.
1875	3.04
1876	3.26
1877	3.06
1878	3.65
1879	2.45
1880	2.51
1881	2.53
1882	2.57
1883	2.57
1884	2.60
1885	2.30
1886	2.07
1887	1.94
1888	1.93
1889	1.86
1890	1.74
1891	1.65
1892	1.68
1893	1.75
1894	

9. The above Table shows to what an extent the mortality amongst indentured Immigrants has been reduced by the laws passed by Sir Arthur Gordon (now Lord Stanmore) when Governor of this Colony, at the same time it must not be forgotten that this is also due to the care and consideration shown by many of the employers to their indentured labourers.

10. The abstract of labour in the appendix shews that in 1893, relating to both indentured and unindentured immigrants on estates employing indentured labour there is a slight increase, that for 1893 being 34,178, while for 1894 is 34,407.

This is a matter worthy of careful consideration, for it must not be forgotten that some Sugar estates have gone out of cultivation owing to the crisis in the Sugar industry which began in 1883. It may perhaps be as well to state for the information of persons not intimately acquainted with the subject, that the Sugar estates employ a much larger number of labourers than any other agricultural industry in the Colony, which with the exception of the Pitch Lake may be said to be entirely devoted to agriculture.

11. Absentees.

The number of absentees is slightly on the increase; this is not to be wondered at owing to the present depression in the labour market here, and the advantages that the adjacent coast of the Spanish Main offers where the immigrant can obtain land with great facility, and can not only plant what he requires for ordinary use, but may also grow Ganja for the purpose of being smuggled into this Colony.

12. Commutation of Return Passage.

I have little to say under this head, but, I think that the steps lately taken by this Colony and approved by the Secretary of State, that our Agent in India should not again recruit an immigrant who has left this for India is a wise one, as I believe it will materially affect the number of immigrants who return from this to India.

13. Immigrants who returned to India in 1894.

648½ statute adults deposited in the Colonial Treasury for remittance to India the sum of £10,863 1 9; besides this they deposited gold to the amount of £300 0 0 taking away with them jewellery to the amount of about £500 0 0. This however is small as compared with the deposits and jewellery which were taken away in the "Peshwa" of 1884 when they took with them about £18,000 including money deposited and jewellery.

14. Remittances to India.

The following table shows the remittances for the last 13 years. The amount

remitted in 1894 was £2,545 1 2½, an increase on that remitted in 1893.

YEARS.	Amount remitted to India.			Number of Remitters.
	£	s.	d.	
1882	1,276	8	4	222
1883	2,087	3	11	459
1884	2,206	11	8½	524
1885	2,052	14	10	482
1886	1,899	1	3½	479
1887	2,030	11	2	515
1888	1,818	3	3	505
1889	1,965	19	0½	560
1890	2,213	10	5	608
1891	1,468	10	2½	382
1892	2,074	12	7½	559
1893	2,512	17	2½	654
1894	2,545	1	2½	683

15. Passports issued to immigrants during 1894.

Indian immigrants received 185 passports for British Guiana, the Spanish Main, and other Colonies, of these 23 were for Grenada, 30 for British Guiana 17 for Tobago and 85 for the Spanish Main, this clearly points out what I have already stated in paragraph 11, that some of our Immigrants are going to the Spanish Main and there may be many cases in which, owing to the propinquity of its coast to this Island, they have gone there without passports.

16. Murders among Indian Immigrants.

The following table shows the number of murders reported also murders of wives by their husbands from the year 1872 to 1894.

1.	2.	3.	4.	5.	6.				
YEAR.	Population	Total Murders reported	Murders of Women.	Murders of Wives by Husb'ds.	PERCENTAGES.				
					Of column 3 on column 2	Of column 4 on column 2	Of column 5 on column 2	Of column 4 on column 3	Of column 5 on column 3

1892	74,139	6	4	3	.00809	.00539	.00404	66.6	50
1893	76,082	4	2	1	.00525	.00262	.00131	50	25
1894	78,486	5	3	3	.00637	.00382	.00382	60	60

17. Abstracts of Indentured and Unindentured Labourers.

The abstracts of indentured and unindentured labourers for the years ending 31st December, 1893 and 1894 show that notwithstanding the slight fluctuation in the amount of Sugar produced during the last few years, the number of immigrants under indenture on 31st December, 1894, was 10,636 as against 11,460 in 1893, while the number of those not under indenture working on estates was 17,905 for 1893, and 18,937 for 1894, a majority in favour of 1894 of 1032 with a decrease of 824 of indentured labourers. But as the area under cultivation has grown smaller in so far as the cultivation of sugar cane in this Colony, these figures are worthy of careful consideration for it shows that labourers not under indenture, pressed by necessity or otherwise have returned to work on the sugar estates of the Island. In this statement I have not taken into consideration cocoa estates employing indentured immigrants as the amount of labour they employ hardly affects the question.

18. Lands alienated by the Crown to Indian Immigrants.

I cannot give this as I have not yet received a return in connection with this matter from the Crown Lands Office.

19. Orphan Homes and Schools.

In the Orphan Homes at Belmont and Tacarigua there were, during 1894 56 and 61 orphans and I cannot speak too highly of the manner in which they are treated in these establishments.

20. The attendance at the Schools of the Canadian Mission are as follows: Tunapuna, Couva, San Fernando and Princess Town.

On the Roll ... 3,195.
Daily attendance ... 2,045.

This says much for the efforts made by the Canadian Presbyterian Mission to advance education in this Colony in connection with the Indian population of the Island.

21. Wages of Indian Immigrants.

A question has been raised in connection with the earnings of indentured immigrants on sugar estates and the minimum rate of wages guaranteed by the Colony, but I do not propose to enter on this at present, as the matter is still under consideration by the Executive.

Savings Banks.

22. The amounts deposited in Savings Banks by Indian Immigrants will be seen from the following Table for the last eleven (11) years. Though not quite as much was deposited in 1894 as in 1893, I am glad to see that the depositors had a larger amount to their credit on 31st December, 1894 than in the previous year.

Years.	Average amount per head to credit at the end of each year.			Number of Depositors.	Amount deposited each year.			Balance to credit on 31st December of each year.

I have the honour to be,

Sir,

Your most obedient Servant,

CHARLES MITCHEL,
Protector of Immigrants.

The Hon'ble
THE COLONIAL SECRETARY.

Indian Immigrants embarked at Calcutta and landed at Trinidad, Births and Deaths on the Voyage, and the number sent on arrival to Colonial Hospital and Convalescent Depot during the year 1893.
