GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

INVENTIONS and DESIGNS.

Dated Calcutta, the 10th October 1895.

NOTIFICATION.

In exercise of the powers conferred by sections 49 and 63 of the Inventions and Designs Act (V of 1888) the Governor General in Council is pleased to make the following rules for the preparation of applications and specifications filed under Sections 5, 8 and 51 of the Act and of drawings attached thereto:—

1. All words used in these rules and defined in the said Act shall have the meanings thereby assigned to them respectively.
2. Applications and specifications must be neatly and legibly written, printed, or otherwise reproduced upon one side only of stout paper of half foolscap size, that is, of a size of 13 inches in height by 8 inches in width, and the pages numbered consecutively in the righthand top corner.
3. Drawings must be on either stout paper or tracing cloth, and must be neat and clear. Photographs will be accepted if made or mounted in accordance with the following rules.
4. The lefthand portion of each sheet of drawings, to the width of a half sheet of foolscap, that is, a width of 8 inches, must be left blank, so that when the sheets are opened out, the sheets which lie above them and contain the text of the application or specification will conceal no portion of the drawings.
5. Each sheet of drawings must be—
 - (a) of a width not greater than that of a sheet of foolscap, that is, a width of 16 inches, except when the size of any single drawing is such that a greater width is required for it;
 - (b) of the same height as a sheet of foolscap, that is, a height of 13 inches, except when the size of any single drawing is such that notwithstanding increased width a greater height is unavoidably necessary.
6. A clear margin of half an inch must be left round the portion of the sheet which is occupied by drawings.
7. Reference figures and letters must be clear and bold, and the same letters should be used for the same parts in different views or drawings. In complicated drawings, or when there is not room to write the letters in their proper places, the letters should be shown outside the figure and connected with the parts referred to by fine lines.

8. The name of the applicant, and the year in which the application is made or specification filed, should be shown on each sheet of drawings in the righthand top corner of the blank space left under rule 4. The sheets, when more than one, should be numbered consecutively, and the number of each should be shown in the righthand top corner of the sheet.

9. No written description of the invention or design should appear on the sheets of drawings.

10. When a patent has been applied for or obtained in England, a fac simile of the drawings submitted with the English application may be filed, without reference to the above rules.

11. Notwithstanding its non-compliance with any of the above rules, the Governor General in Council may in his discretion permit any application or specification to be received and filed without requiring the same to be amended.

DENZIL IBBETSON,
Offg. Secretary to the Government of India.

ANNUAL REPORT

ON

INDENTURED INDIAN IMMIGRANTS

IN

THE COLONY OF GRENADA

FOR

1894.

SAINT GEORGE :

PRINTED AT THE GOVERNMENT PRINTING OFFICE,

1895.

ANNUAL REPORT OF THE PROTECTOR OF IMMIGRANTS FOR THE YEAR 1894.

IMMIGRATION OFFICE,
29th July, 1895.

His Honour

THE ADMINISTRATOR,

&c., &c., &c.

SIR,—I have the honour to submit the following report on the Immigration Department of Grenada for the year 1894.

2. The period for which the Immigrants ex "Poonah" 1885 had been engaged being nearly at its close (it would have terminated in January 1895) it was decided to take advantage of the opportunity which offered of joining with St. Lucia and to send them back in September 1894, as it would have been far too expensive to charter a ship solely for the return journey of the small number from Grenada.

3. Bounties in lieu of back passages were paid, on 11th August, to those Coolies who decided to remain in Grenada, they numbered 76 and comprised 54 adult males, 15 adult females, 3 boys, 4 girls, to whom the sum of £642. 10. 0 was disbursed. Later on an adult male who had been unable to attend on the day fixed for payment was also paid.

4. The "British Peer," the ship engaged to convey the coolies home, being due at St. Lucia at the end of August, the Immigrants in this Island were mustered in St. George's on the 24th of that month and housed at "Observatory" awaiting the arrival of the R. M. S. "Avon" which was to convey them to St. Lucia; embarking on board of the "Avon" on 27th August they arrived at St. Lucia on 28th, where they were detained for some days, as the St. Lucia coolies were not ready for embarkation—in this interval they were lodged in Castries in a building rented for that purpose. As it was not found possible to supply them with rations during their stay in Castries an allowance of 4d. per day to adults, and 3d. per day to children, was granted to them for their subsistence. One child died while in St. Lucia, it had been ill with cerebral meningitis when it left Grenada and was admitted to the Hospital in Castries shortly after its arrival there.

5. On the evening of the 5th September 76 Immigrants were embarked on board the "British Peer"; of these, 36 were adult males, 18 were adult females, 14 were boys, 8 were girls.

These Immigrants took with them Certificates representing £709. 19. 10 the amount of their savings which had been deposited in the Grenada Treasury for transmission to India to be paid them on their reaching their homes. One man had to be left behind—he is insane and confined in the Lunatic Asylum.

6. There are now no Indian Immigrants in Grenada to whom the Government have any Indenture obligations.—I have, &c.,

C. H. COLLYMORE,
Late Actg. Protector of Immigrants.
