28TH MARCH 1895, No. 782 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.  
Civil Works.

READ—the following paper :—

From A. H. GARRETT, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 20th February 1895, No. 2246 G.D.

I have the honour to bring to your notice the marginally-noted correspondence and request I may be informed to what extent Executive Engineers should be held responsible for the state of public buildings and compounds which are under the charge of this department.

2. I certainly consider that the compound attached to a public building should not be leased out for growing

fruit and vegetables, as it would increase the difficulty of keeping the surroundings of the building as clean as is desirable.

3. The other matters reported by Mr. Howley are not referred to by the District Judge, and as I have frequently noticed that compounds round public buildings as well as the buildings themselves are much neglected, I request that the responsibility of Executive Engineers in such cases may be clearly defined.

ORDER—dated 28th March 1895, No. 782 W., Public Works.

His Excellency the Governor in Council observes that it is the Executive Engineer's duty to point out any irregularity in the use of public buildings and of the compounds attached thereto which may come under his notice. Representations thus made should be attended to by departmental officers occupying the buildings, who will be held responsible that compounds are kept in proper order and used for their legitimate purposes only. They are intended to secure healthy surroundings and sufficient light and air. If they are used for plantations and cattle sheds these objects are defeated.

2. The compound round the District Munsif's court-house at Amalapur will be at once cleared of the objectionable trees and unsightly shed which have been placed there, and the attention of the Postmaster-General will be called to the misapplication of a portion of the building made over to the Postal Department for use as a Post office.
