ORDINARY, MS.

Reb DEPARTMENT.

G.O., DATED 10-10-95

No. 847

INDEXED.

When given for copying.

[Stamp]

Impressing upon
the Supt. Govt. Press,
the disinclination of
Govt. to the transfer
of piece to permanent
establishment; sanc-
tioning the employ-
ment of permanent
hands for the new
machines; and
requesting the Supt.
to report whether no
saving could be
effected in the cost
of the Press establish-
ment in consequence
of the abolition
of the Mil. Secretary.

Government Press,
Madras, 6th July 1895

R. Rice
Superintendent.

Office Note.

With reference to G.O. dated 7th May 1895, No. 349 Public, the Superintendent, Government Press, submits that the Press is wholly closed on 4 days in the year, viz. New Year's day, Good Friday, Queen's Birthday, and Christmas day. Although this is so, it must not be understood that the workmen do not get a fair share of the holidays granted. Urgent work must be pushed on with during the Easter and Christmas holidays but the whole establishment is not at work at any one time during these holidays. When the Superintendent informed Government that the men get a "half turn" and "third turn" it did not mean that each person only gets a half day's leave on each day of the holidays, but it meant half of the total working days are, if possible, given to each man for his holiday, the other half of the holidays he attends work for the full hours of each day; if he does not get his full half turn there are special reasons in his case for lessening it. To illustrate this - at Easter 6 days were gazetted (Thursday to the following Tuesday

vide his definition of "half turn" at place recorded in G.O. 349.

inclusive; nearly all the permanent employes got four clear days - holiday - the first from the Thursday to Sunday, and the second from the Good Friday, and from Sunday to the Tuesday. At Christmas 13 days were gazetted; and in the majority of cases the employes were granted from 5 to 8 clear days out of the 13 days.

2. From Statement (A) herewith sent showing in detail the holidays enjoyed by each permanent employe during 1894, he trusts Government will be satisfied that he treats the employes with the consideration desired by Government, and that they get a fair share of holidays. In the Examining department the least number of days enjoyed by one person employed for the year was 9 days, in the Composing departments 9 days, in the Press and Machine department 9 days, and in the Binding department 10 days. As this minimum is 50 percent, above the days desired by Government (6 days) to be ensured to each workman during the year, there is no need for the Superintendent to propose an extra establishment to obtain this rest for the workmen.

3. The Superintendent rarely sends the press for work on Sundays; he does, it is usually for special work required by

one of the Secretariats, and the Chief Secretary to Government is always made aware of it. A few years ago it was necessary to work on several Sundays for printing off the copies of some examination papers, to prevent a failure in the Examinations of that year. There was no Sunday work in 1893, and 1894.

4. To ensure the issue of the Govt. St. George Gazette at 4 A.M., on Wednesday mornings, or as soon as possible after that hour, the piece compositors and permanent establishment of the Gazette department attend at 6 or 7 A.M. on Monday mornings, and may be required to work up to 10 P.M. on Monday nights. On Tuesday mornings they attend at 6 or 7 A.M., and are not allowed to leave the press until the last pages of types are placed on the machine for in case of an accident in which one or more pages of the Gazette are broken up, they would be required to reset these pages at once. As soon as the last pages are laid on they are sent away, and only one imposer is retained to see to minor matters whilst the copies are being printed off. They leave at any time between 8 P.M. and midnight. Wednesday is usually an easy day for the Govt. men both piece and permanent.

to which labour overtime goes on at

the Govt. Press. It must be

At the General Post office about 45 sorters attend at 4 A.M. on Wednesday mornings to despatch the Gazette by the morning trains.

5. The North St. George Gazette is heaviest in the fourth quarter of the official year (January to March), and lightest in the second quarter (July to September). The other overtime charges are heaviest in the third and fourth quarters of the official year, and are chiefly incurred for Secretariat work and for the blank books and forms prepared for use of public offices at the beginning of each official year. Statement (B) showing in detail the number of extra hours worked in 1894, and the total earnings by overtime fees, is submitted.

6. In consequence of the tendency of permanent workmen to delay work during the regular hours of business from 9 A.M. to 5 P.M., when overtime was paid for any work done before 9 A.M. or immediately after 5 P.M., it was found necessary by Government, on the Superintendent's recommendation, to fix a scale of hours when no overtime should be paid, and it has worked with success ever since, and the piece workmen derive an advantage by work pushed on with throughout the day.

7. If it is necessary to bring permanent employes at

8 A.M. no overtime is given, but if he is required at 7 A.M. he is paid 2 hours overtime (7 to 9 A.M.); if he attends at 6 A.M. he gets 3 hours overtime. No overtime is paid for work done between 5 and 7 P.M.; overtime commences after 7 P.M.; working until 8 P.M. gets one hour, 9 P.M. two hours, and 10 P.M. three hours overtime. It was between the hours of 8 and 9 A.M. and from 5 ^{to} 7 P.M. that the uncontrollable abuse of overtime charges was incurred until this rule was introduced.

8. At the time this arrangement was made the ordinary working hours of a London compositor was from 8 A.M. to 7 P.M., and it was taken as the standard for controlling and reducing the heavy overtime charges then incurred.

9. To lessen the long hours worked by the Press and Machine men on book and job work, the Superintendent submitted his official No. 762 dated 20th May 1895, giving reasons for soliciting sanction for the purchase of 3 additional printing machines; sanction has been accorded for their purchase, and the indent has been forwarded for transmission to the Secretary of State.

10. To lessen the charges for lighting in the Press and Machine department, the Superintendent since April last has arranged

that whenever extra hours are
required to be worked the men
are to attend at 6 instead of
9 A.M. and leave off at 6 P.M.,
getting overtime for the 3 hours
worked between 6 and 9 A.M.
Up to the present the arrangement
has worked satisfactorily, and
will be continued.

R. Hill

Superintendent.

Government Press.

MINT BUILDINGS, MADRAS,

1st October 1895.

OFFICE NOTE.

With reference to Public
Memorandum, No. 2283, dated 26
September 1895, the Superintendent
Government Press, submits that
advantage would be derived
working the machines with men
paid upon a piecework scale.
It is an impossibility to fix a
satisfactory scale, and that
the reason why all machine
workmen are paid fixed salaries
in England.

2. There is also the
risk that men, to get increased
earnings for the time being, will
not regard the necessary precautions
to prevent undue wearing away
of the several important parts
of the machine, and in consequence
there would be increased expense
for general repairs to the machine.

ENCLOSURE

Subject.

Submits that no advantage
could be derived by working the
machines with men paid upon
piecework scale.

he file is with that draft for the Government
to the Press.

NOTE FOR THE CHIEF SECRETARY.

I have called over this
matter with S.A. and as
the result please see the
clip attached, with ref.
to wh. perhaps C.S. may
like to add to his note.

It would be a very good
thing to make a definite
rule as to the time within
which papers for the Gazette
should reach the Press - and
to authorise the Dept. to
abide by it. There seems
no reason why the Gazette
should not issue on Thursday
morning instead of
Wednesday. Tuesday is a
better day for a small time.

CHIEF SECRETARY
GOVERNMENT OF MADRAS
18 OCT. 1895

File on the 1st 22 22 22

Monday. Council meet
here on Friday & the Gazette
does not issue till today.
the delay of the one day -
Wednesday - would not
be material.

SEP

7/9/5

Cp

I have read through C's
memo which seems all right. As
regards Sunday work I know that the
Press worked on Sundays last year at
the budget. It was absolutely necessary.
But in this respect the Press men are
no more off than some of us are.

The cure for midnight work at
the Gazette is to introduce a halfpast
rule that no work for the Gazette will
be accepted after noon on the day
preceding its issue and to change
either Council day at Madras to
Monday or Gazette day to Wednesday.
It is the notification sent in at 6 PM
on a Tuesday which ~~is~~ necessitates
re-arrangement of the Gazette.

Keep the men at work so late. Mr.
Stell's Office will push matters in
a very moderate manner. From what
he has told me himself I know their
Gazette rights as from an old score
a strain for any ordinary mortal.

As regards holidays to police
work men I don't see it necessary to
make inquiries? They are in the
the permanent establishment and
the more they work the more they
earn. It seems to be more a
matter for their own consideration.

J.S.

FOR ORDERS.

Mr. H's office note of 26/11/90 certainly seems to bear a diff^t meaning from his present statement. The ^{present} system as unexplained seems unobjectionable
DH

Mr. Hill's explanation of the matter in a very different light from what I believed them to be when I wrote my note dated 18/4/95. This belief was based upon what Mr. Hill had personally told me from time to time ^{as on} complaints made by men of over-driving, Mr. Hill's definition of "half time" marked with a slip and on the knowledge which I had that the Gazette work on the night of issue goes on practically all night - a fact which Mr. Hill even now does not deny. I was under the impression that when half time was worked the establishment worked in daily shifts. This was clearly under the explanation now afforded incorrect. Mr. Hill has himself more than once mentioned that he has been obliged to work men on Sundays and to work himself and

Mr. Kullenback told me more than once during the last legislative session that printing & work at the Press had to go on on Sundays.

I have no knowledge of any reports ever having been made to me formally of the occasions when the Press was open on Sundays and hands at work at it but I am quite certain that I have more than once been told that it frequently was.

He has said up to Mr. Hill that it covers the whole of the establishment of the Press which is some 900 men. Statement A covers 458 and Statement B 367 only.

Mr. Hill who now shows that all hands get a full holiday on four days in the year and that they also get varying numbers of days out of other holidays which seems ample, but he says nothing as to what the balance of the nine hundred men which includes press workers get.

In para 4 of his note Mr. Hill deals with the subject of the Gazette. In this he admits that on Mondays the hands may

FOR ORDERS.

H. says they get a night day on Wednesday 10/2

Imagine there are nearly nine workers, as would be 10/2

have to work 20% less than 16 hours and on Tuesdays have to remain on to an indefinite time which is from what Mr. Hill has previously told me ^{previously} 20% short of midnight which would give the men one day of 16 hours work and the rest of 18. or 34 hours out of 48. It is obvious from what Mr. Hill says that some portion of the establishment viz e.g. layers, stokers, Press men & others have on Tuesdays to be up nearly ready all night at work. I would never hope they may give fewer holidays close at regular hours and do not systematically keep their hands up to take hours at night at least three a week. They have to take their regular hours. The last few pages of Statement B show to which extent overtime goes on at the Govt. Press. It would be

expressly enforced. There no doubt
 would relieve the pressure that now
 exists by materially for the Press
 would have them instead of two
 days to get into the Gazette and
 the establishment will know that
 after 12 noon nothing more to
 be set up will come in.
 Perhaps Mr Hill's opinion may
 be asked with regard to the pro-
 posed.

20
 9/5/88.

time is not allowed in Calcutta
 as I suppose, but it must be remembered
 that the J. of. P. Press is a far larger
 one than ours & more ca-
 pable of dealing rapidly with a large
 amount of work.

12/9

FOR ORDERS.

Resubmitted to
 Hon'ble Members
 with ref. to H.E.'s note.

It may not be convenient
 or always possible to send
 in the Municipal & Meteor-
 ological reports by noon on
 Monday. The monthly &
 Annual Minfall reports
 are invariably sent in
 long before the date of
 publication. Perhaps
 then it may be ad-
 visable not to say anything
 about these but to
 leave well alone.

I have looked thro
 the Gazette & find that
 the heaviest publications
 are Notes of Reservation
 under the Forest Act, of
 Land Acquisition under
 Act I of 94, Enam.
 notices, & Abkari
 Sale ~~Notes~~ and
 these have been dis-
 posed of in the f.o.

Mr Hill's reply
 to Mr. W.'s remarks
 on the arrangement
 of the Gazette is put
 up.

It does not seem to
bear on the matter
in hand, but the
substance of the office
note (no 2149) can
be embodied in
the G.O. if necessary
not necessary C.W.
24.9.95

C.S.

I propose with yr:
permission to send
the draft G.O. to Mr Hill
for any suggestions he
may have to offer. It
might obviate subse-
quent references.

J.D.B.

Public dept

I send order in the
sense of the part of H.E.
note of Sept 13 which I
have marked with red pencil
say we can't have transfers
from piece work to permanent
employ unless the workers of
such nature is that piece
work is unsuitable, in which
case he should for his reasons
also emphasize the fact
that under his proposal
there will be no saving at all
from the abolition of the United
Secretariat, which did a great
deal of printing.

current 3229. being
Mr Hill's reply to the
question whether the
new machines could
be satisfactorily worked
by piece workers instead
of by permanent men.
is submitted for orders.

The Finl. dept asks
for the early settlement
of this est. question
as the Press budget
awaits it.

JH Hill note is marked with
red type: This remarks re
working machines by piece work
with white

4/10/95

Go. 7th 10th Oct: 1895 No. 847

The Govt. desires to impress upon the Superintendent, Govt Press, its ^{disinclination} ~~disinclination~~ to the transfer of piece to permanent establishment. ^{No} Such a transfer will ^{can} ~~not~~ be sanctioned unless sufficient reasons are adduced by the Superintendent to make it perfectly clear that ^{in the particular} ~~the~~ piece work is unsuitable. Under the circumstances ^{has} explained the Govt. will not withhold its sanction to the employment of permanent hands for the new machines.

2. It is ^{a matter for surprise} ~~regrettable~~ that notwithstanding the abolition of the Military Secretariat, ^{for} ~~for~~ which a great deal of printing was done, there the Supt. contemplates ^{no} ~~no~~ saving whatever in the cost of the Press &c. ~~shown under the Supt's proposals~~ He ^{will be} ~~is~~ requested to ^{reconsider matters in the light of these remarks} ~~submit revised proposals at an early date.~~ C. W. 24/10/95
