accepting the office was not exercising proper
discretion. I beg to add that no subscriptions
were asked or collected and I do not belong to
the standing Committee.

I have the honor to be

your most obedient servant

J. Varada Rao
as Head Asst. Collector.

The rest of the lecture referred to statistics
of cattle destruction which were severely controverted
by some well informed in the meeting. There was
no reference to Government at all as far as I
could understand.

I have carefully read the civil service manual
I do not find that I have laid myself open to the
charge of non-observance or neglect of any
rule therein.

I beg to enclose the Hindu of the 30th September
which contains an account of a meeting held at
Palamcottah by Sriman Sawmy. The District
Judge presided and apparently spoke in support
of the objects of the meeting.

The record of meetings held by Sriman Sawmy
in other parts of India shows that officials belonging
to the civil service have presided at some of the
meetings.

I beg respectfully to state that I was not
aware when I was voted to the Chair, that my

J. Varada Row Esquire
of Head Asst Collector
Sinnerelly

The Chief Secretary to Government
Madras.

Sir

With reference to your memo Public
Department dated 9th October 1889 which I
received on 14th October 1889. I have the honor to
state that although I was voted to the Chair on the
occasion I took no part in the meeting except to
introduce the lecturer to the persons assembled.

Sriman Sany's audience consisted of about
100 or 150 persons who excepting about a dozen
persons were all Brahmins. Sriman Sany's
lecture consisted of long recitations from Hindu
Scripture concerning the sacred character of cows
and their past and present treatment by natives of
this country

Vanebo & Sons - C.S.

Note for C.S. I think it was
in yesterday's "Herald" - but the
paper office says it is said to be
C.S. - that I saw a telegram
the effect that Mrs. W. F.
had taken the chair.

DIAMOND IMPORTERS & DEALERS IN EVERY DESCRIPTION OF PRECIOUS STONES,
Manufacturing Jewellers, Gold and Silversmiths.

F. Orr and Sons are not Agents, at import their own Diamonds, in which they continue to be the largest dealers in Southern India. These Stones are selected by an experienced buyer from the largest and best stock in the London and Continental Markets. Their extended transactions, varied experience, and facilities for favorable buying, afford exceptional opportunities for acquiring gems of unequalled quality and brilliancy. They are accordingly in a position to offer Diamonds of a higher class than are elsewhere procurable in Madras, and at prices which do not exceed the asked for inferior Stones by other dealers.

F. Orr and Sons employ a set of Skilled Workmen specially trained for the manufacture of Native Ornaments—either set with Stones or plain Gold—and adapted to the requirements of Native Ladies or gentlemen. They note with much satisfaction the increased and growing appreciation with which their superior and high class productions are received by their Native friends, and beg to assure them that all orders with which they may be entrusted, shall continue to receive their personal and very careful attention. Native Princes, Rajahs, Zemindars, Noblemen and others, when visiting Madras, are invited to inspect P. ORR and SONS' choice selections of perfect Stones, in all sizes and adapted for every description of Native Ornament.

F. Orr and Sons desire that the Mofussil Constituents, when requiring Drawings and Estimates for these Ornaments, should invariably state approximately the Price they are prepared to pay. As the names of the Jewels oftentimes totally distinct in different districts, it would be as well to give a rough tracing to assist in distinguishing the particular Jewel described, when correct Drawings with Enates will be furnished. The manufacture of the following, amongst other Jewels, we are now prepared to undertake. All orders promptly executed, and the various styles guaranteed to be in accordance with Native tastes, whilst the workmanship and general finish will be of the highest order.
