READ—again the following paper :—

G.O., No. 335, Public, dated 3rd May 1895.

ABSTRACT.—Directing, in supersession of previous orders, that all Government civil hospitals in the Presidency shall in future be lime-washed internally once a year, and requesting the Surgeon-General to report whether such petty work cannot be carried out departmentally.

READ—also the following paper :—

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, 26th September 1895, No. 414.

With reference to paragraph 2 of G.O., No. 335, Public, dated 3rd May 1895, I have consulted all the medical officers concerned and there is a strong consensus of opinion that the annual white-washing and colour-washing of the interior of the hospitals and lunatic asylums should be carried out departmentally. The detailed measurements could be obtained from the Public Works Department. The medical officers would then be able to select their own time and it is probable that a saving would be effected.

2. The Public Works Department should place the amount at the disposal of the medical officers for this year, and in future I consider the amount should be included in the budget of each institution.

To

THE Honorable the Chief Secretary to Government,
Public Department.

SIR,

With reference to paragraph 2 of G. O. No. 335, Public, dated 3rd May 1895, I have consulted all the medical officers concerned and there is a strong consensus of opinion that the annual whitewashing and color washing of the interior of the hospitals and Lunatic Asylums should be carried out departmentally. The detailed measurements could be obtained from the Public Works Department. The medical officers would then be able to select their own time and it is probable that a saving would be effected.

2. The Public Works Department should place the amount at the disposal of the medical officers for this year and in future, I consider, the amount should be included in the Budget of

of each institution.

I have the honor to be
Sir

Your most obedient servant

Chas. Clarke

Surgeon Major General

Surgeon General with the Cont. of America.

Secy to Govt P. W. D.
in favour of Annual Whitewashing

3RD MAY 1895, No. 335., PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper:—

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, 8th April 1895, No. 350.

I have the honour to state that the Senior Medical Officer, General Hospital, Madras, in his letter, No. 3176, dated the 8th March 1895, brought to my notice that the half-yearly whitewashing of the hospital throws the institution into confusion and suggested that the whitewashing be done annually.

2. From my own experience the objection of the Senior Medical Officer to the half-yearly whitewashing appeared to be well founded, and I accordingly addressed the Consulting Architect to Government with a view to the proposed change being carried out. That officer in reply has sent for my information a copy of G.O., dated 10th May 1890, No. 1318 W., and suggests that I should address Government on the subject.

3. It will be seen from the Senior Medical Officer's letter that there is at present a special bricklayer at the hospital who constantly whitewashes the inside of the hospital, thereby doing away with the necessity for a half-yearly whitewashing. The present system is both expensive and inconvenient and I would therefore suggest that in future all Government Civil hospitals in the Presidency be whitewashed annually instead of half-yearly.

4. The whole correspondence is herewith forwarded for perusal and favour of return.

ORDER—dated 3rd May 1895, No. 335, Public.

In supersession of G.O., dated 22nd April 1890, No. 308, the Government directs that in future all Government Civil hospitals in the Presidency shall be lime-washed internally *once* a year.

2. The Surgeon-General will be requested to report whether such petty work cannot be carried out departmentally. Detailed measurements of each ward could no doubt be furnished by the Public Works Department and the trouble involved would be very small. The great advantage would be that the Medical officers could choose their own time for the lime-washing. A saving should also be effected.
