OFFICE OF SURGEON-GENERAL

WITH THE GOVERNMENT OF MADRAS,

Madras, 18 October 1895.

SURGEON-MAJOR-GENERAL C. SIBTHORPE, F.R.C.P.I.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

SIR,

Public DEPARTMENT.

With reference to G.O. No. 706 dated the 27th August 1895, Public, I have the honor to report that the proposed alteration and additions to the lying-in Hospital were recommended to avoid disfigurement of the Central building by overlapping covered ways. The Superintendent reports that the alteration will add greatly to the appearance of the building and be also convenient.

2. The plans and estimate are here with resubmitted.

I have the honour to be,

Sir,

Your most obedient Servant,

*C. Sibthorpe*

I think I had better go &  
have a look at the building -  
I don't want to spend more  
money than necessary, but if  
an inspection I see it will  
be a real improvement I shall  
not object

How

Have been to the Hospital  
I find that there is no doubt  
that the existing covered ways  
between the new rooms at either  
end of the central block far too  
small. The proposed alterations  
will not however be satisfactory - Dr.  
Branford & I are agreed that the  
proper thing to do is to remove altogether  
(as noted in red ink on the plan) the  
covered ways at the end of the  
Central block in a S.E. direction  
towards the entrance gateway & to  
rebuild them parallel with their exist-  
ing position as shown by dotted red  
lines on the to map cloth plan.  
This will cost more - perhaps Rs  
3500 - but will be a much better  
job. Should call for estimate first -  
I am struck by the extraordinary  
depth of foundations - 5 or 6  
feet - provided in the plan  
submitted - But that

ORDER, *M. 955 d 19 Nov '95*

After personal inspection, in company with the Superintendent, Lying-in Hospital, the Govt. is of opinion that the existing covered ways shut in the new rooms at either end of the Central block far too much. The alterations proposed by the Consulting Architect will not, however, prove sufficiently remedial. The covered ways which run out from the Central block in a south easterly direction towards the entrance gate-way should be removed altogether and rebuilt parallel with their existing position. The Consulting Architect will be requested to submit a revised plan and estimate accordingly.

2. The attention of the Chief Engineer, P.W.D. will be invited to the apparently excessive depth of foundation provided in the plan and estimate.

My dear Sir,

As notices are now out  
calling on candidates to apply for  
examination in January next, I  
should be glad if orders could be  
conveniently be passed on my  
letter of the 12<sup>th</sup> October which are  
early date.

Yours sincerely
