FROM

L. M. THORNTON, ESQ.,

Deputy Secretary to the Government of India,

To

The Chief Secy. to the Govt. of Madras.

Home Department.
Sanitary.

CHIEF SECRETARY
GOVT. OF MADRAS
Simla, the 10th Nov. 1895.

SIR,

WITH reference to the correspondence ending with your letter No. 512/24, dated the 13th July 1894. I am directed to forward a copy of a Resolution which has been issued by the Home Department of the Government of India relative to the establishment of a Bacteriological Laboratory in India for the training of young Medical Officers in that science and also as Chemical Examiners at a Central Laboratory at Calcutta under the Chemical Examiner of Bengal.

2. It will be observed that the proposal, circulated with this Department's letter Nos. 331—334, dated 24th May 1894, to increase the pay of Chemical Analysers with a view to attracting the best men in the service has been for the present abandoned, and I am to explain that this is due to the relatively paramount importance which the Government of India attach to the establishment, as soon as practicable, of the proposed Bacteriological Laboratory at Agra, and to the anxiety felt by the Governor General in Council to make trial, before incurring increased expenditure by enhancing the salaries of Chemical Analysers, of a system by which a junior Indian Medical Service Officer will be attached for training to the Calcutta Laboratory and will be available, after training for employment in any of the Laboratories at Madras, Bombay, Lahore or Calcutta in which his services may be required.

3. It is also proposed in paragraph 9 of the Resolution eventually to attach young Medical Officers for a six months' course of training to the Chemical Analysts Office or the Bacteriological Laboratory and I am to request that, with the permission of His Excellency the Governor in Council, the Government of India may be informed whether arrangements can be made to give effect to this proposal as regards Medical Officers who are serving in the Madras Presidency.

I have the honour to be,

SIR,

Your most obedient Servant,

L. M. Thornton

Deputy Secretary to the Government of India.

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

Madras,

To

THE Honble the Chief Secretary to Government.

Public Department

SIR,

With reference to your endorsement N^o 2997 dated 14th Dec^r 1895 herewith returned with the attached correspondence regarding the appointment of a minor officer of the Indian Medical Service to the Calcutta Laboratory for training in the duties of a Chem. for Examiner, I have the honor to inform you that owing to the short-handed state of the establishment in Madras no such

Officer is available at present nor is there likely to be one until the arrival of the ten new Officers about November 1896

2. If the rule as now proposed is sanctioned for India as was done in Madras in 1884 vide paragraph 3 of my letter N^o 1000 dated 26th June 1894 on page 4 of G. O. N^o 511 Public dated 13th July 1894 and an

Officer was available in Madras I consider he could be given quite as effectual a training in the Laboratory of the Chemical Examiner in the Madras Medical College as he would get in Calcutta with the advantage that he would not have to live in the more expensive city of Calcutta & that Govt. would be saved considerable travelling

I have the honour to be,

Sir,

Your most obedient Servant,

C. Sibthorpe

Surgn.-Major-Genl.,

Surgeon-General with the Govt. of Madras,
