[Despatch Abstract.]

Treatment of Snake bite

Comm. to the Surgeon Genl. letter from the Govt. of India
desiring that only well-authenticated cases of
cures of snake bite effected by injections of strychnine
in accordance with Dr. Mueller's method of
treatment should be reported to their Govt.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper:—

From R. NATHAN, Esq., Officiating Under Secretary to the Government of India, Home Department (Medical), to the Chief Secretary to the Government of Madras, dated Simla, the 30th October 1896, No. 26-Medical—949-965.

With reference to the correspondence ending with your letter, No. 453, dated the 7th April 1896, I am directed to state that the Government of India have decided not to call for further reports on the results of any further trials which may be made by medical officers for the purpose of testing Dr. Mueller's method of treatment of snake-bite by injections of strychnine. The Governor-General in Council, however, considers it desirable that any well-authenticated cases in which cures may be effected by the adoption of Dr. Mueller's method should be reported for the information of His Excellency in Council; and I am to request that, with the permission of His Excellency the Governor in Council, instructions may be issued to Civil Surgeons to report only such cases in future.

ORDER—No. 1219, Public, dated 14th November 1896.

Communicated to the Surgeon-General for guidance, in continuation of G.O., No. 415, Public, dated 27th May 1895.

(True Extract.)

A. T. ARUNDEL,
Ag. Chief Secretary.

To the Surgeon-General.
