The Consulting Architect reports that 3 estimates in view of the one for constructing a Nursing Institute at the General Hospital, Madras, were forwarded by him with his letter No 1347 dated 16th June 1896 to the Surgeon General for approval and submission to Government. One of these amounting to Rs 6,300 for altering the linen room into quarters for two native paying patients has been received and sanctioned vide G.O. No 2537 W dated 2nd September 1896. The other two have not yet been received and the budget grant of Rs 15,000 will lapse unless the two estimates are sanctioned at an early date. The undersigned has the honour to request that the transmission of the two estimates to the P.W. Department may be expedited.

Sir,

With reference to your endorsement No. 2546 dated the 12th November 1896, herewith returned with the enclosures, I have the honour to state that no portion of the estimates in question can be utilized until the Station Hospital is handed over.

2. I would strongly urge on Government the reconsideration of paragraph 1 of G.O. No. 254 dated the 5th February 1896 regarding the extension of the Hospital buildings on the roof, as the Senior Medical Officer of the Hospital has pointed out to me that, unless these buildings are erected, it will never be possible to house the Nursing Staff satisfactorily or to separate the women and children from the male patients as should be done.

3. If Government will approve of the buildings being erected, this money could be spent on getting materials together and the work could be commenced in the next financial year when the plans and estimates are passed.

FOR ORDERS

 In C. 204 of 1904, the Government of the proposed conversion of the General Hospital, and for the conversion of the Robert Argyle and Dufferin ^{Wards} into cubicles for the Nurses.
 In C. 3163 of the P.W. Dept. it is recommended that unless the estimates for these two works were sanctioned at an early date the budget grant of Rs 15,000 would lapse.
 In C. 3766 it enquires whether there is any likelihood of the Government being at liberty to undertake the works in question during the current

current official year, as otherwise the budget grant for them will be reduced.

The papers were referred to the Surgeon General whose reply is given in C. 4061 the last in the current file. The estimate amount looks big and the 2957. The Surgeon General states that no portion of the estimate is in question. It is to be withdrawn until the Station Hospital is handed over.

M and N

The new Detention Hospital is progressing very slowly

The papers are circulated for orders as in para 2 of his letter D. Sibthorpe reopens the question of continuing the third storey over the Military portion, suggested in para 4 of his letter N° 535 of the 12th December last recorded in D.O. N° 204 Pubd 10.11.96 and vetoed in D.O. N° 264 Pubd 20.11.96. The reasons, which influenced foot in coming to a conclusion on the point

ref, that there were more important and urgent calls on the public purse, apply now with even greater force.

Nevertheless, however, that, when the extensions are carried out it will remain possible to have the dining staff satisfactorily to separate the women and children from the male patients as should be done; and that, if not done, the building of the kitchen, the money available for the Matron above, can be spent on getting materials together, while the work could be begun in the next financial year when the plans and estimates are passed. The rough estimate was 85,000/-

There seems to be no room for the estimate for the kitchen as a kitchen room for the kitchen. The kitchen is not yet built, though it will have been done long ago. L. 1. 1. 1. 2.

NOTE FOR THE CHIEF SECRETARY.

Please see H.G.'s note on the Note for Orders and files on A - "I cannot quite agree to this".

It is essential that para: 1 of the draft order should issue at once - but the question of the 3rd storey is not finally settled. It is proposed to insert the words "at present" in para: 3 of the order - and to resubmit the question to both H.G. with ref: to H.G.'s remarks, after the G.O. has issued.

Estimate (for the current vehicles) - in the G.O. in which the note was sanctioned (1904, 20.12.95, May 2) from which it is deduced that the work should be extended when the State Hosp. Building is vacated. It is suggested that the latter estimate must be shelved. H.M. who knows the details will instruct the J.G.'s arguments to the other question.

This must stand over until the Station Hospital is vacated by the Military. The vehicles cannot therefore be constructed at present - the note for this work must stand over until next year.

The continuation of the 3rd Storey of the fourth - even if we had the money, which we have not, I don't think that the necessity is such as to justify a large expenditure.

I am afraid we cannot spare the money at present, but will have to do so. I.G. has said that the necessity is not such as to justify the expenditure.

ORDER.

N^o 1340 of 19-12-96

The Public Works Dept will be informed that the construction of the National Kitchen, bathroom and tank provision, the estimate for which approved in P.O. No. 204 Pub. W. of 1896, should be taken in hand at once. It is observed that in that order the early commencement of the work was requested.

The conversion of the Angkor and Dufferin wards into Cubicles for the military cannot be carried out until the Station Hospital has been vacated by the military. The estimate for this work must ^{therefore} lie over, until the ~~financial year~~ ^{financial year}.
