DEPARTMENT.

SIR,

3047 D
I have the honor, with reference to
G.O. No. 865, Public, dated 14 November 1894 and
No. 1796 H. dated 19 July 1895, to forward for the
sanction of Government the accompanying plan
and estimate for the construction of quarters
for the Hospital assistant at Bhadrachellum
at a cost of Rs 2800.

2. The cost appears to me to be very
high.

I have the honor to be,

FOR ORDERS.

In my opinion the mistake in building of this petty description is to build any thing above the basement in mortar except perhaps that a little mortar work might be allowed round doors & windows though even that is hardly needed if the wood work is tanked. Ask the P.W.D. if they can't reduce the estimate in this way.

The Surgeon Genl submits for the sanction of Govt (with ref to para 6 of G.O. No. 865 Pubd 14th Nov '94) a plan and Estimate for the Hospital Asst. quarters at Bhadrachalam at a cost of Rs 2800, with the remark that the cost appears to be too high.

It will be seen from the abstract estimate given in G.O. No. 1796 W. d. 19th Jul 95 that the cost for the construction of the standard design of quarters is estimated at Rs 2850.

The Executive Engineer in his report which accompanies the present estimate explains that as it is proposed to construct the building with random rubble (15H)

in mortar instead of brick
in mortar as provided in
the standard estimate,
the thickness of the walls
has been increased without
reducing the dimensions
of the rooms &c. Hence the
difference in the detailed
estimates in the two cases

Further a concrete-in-mortar
floor has been substituted

The result is that while
in some particulars there
is a saving ^(a) in others
the standard estimate
is exceeded ^(b).

Dated ~~Madras~~, 3rd June 1896.

Note by the Chief Engineer, P.W. Department:-

No. 3222. dated 3rd June 1896

The estimate of Rs. 2,800 for constructing quarters for the hospital assistant at Bhadrachalam in the Godavari District can be reduced by Rs. 115 by building the foundations, basement, and the lower and upper 1 foot of the walls in mortar and the rest in mud, but it does not seem worthwhile to alter the estimate in order to effect this small saving.
