Order No. 686, D. 19 July 1895

In connection with the proposal to construct quarters for the three Hapt posts attached. Genl. Hapt on the open piece of ground immediately to the north of that institution, was impressed upon Surgeon Genl. the Consulting Architect in para 3 of No. 528 P. 4 of 26.6.95 that the area of this valuable should be economised as far as possible. was at the same time remarked that there might be other subordinates of the Hapt for whom it would be desirable to provide quarters close to it, and the Surgeon Genl. therefore requested to consider his proposals & submit a complete scheme.

In para 4 of No. 528 P. 4 of 26.6.96 the Consulting Architect was directed to utilize the whole width of the site under the Municipality were within

municipal Court. replied that a
street 33 ft wide, to be properly
laid out by the owner of the land,
could be required. As this
could not leave sufficient
space for the quarters, the Court
as requested to state whether
a narrower lane would
not suffice. No reply has
yet been received but
the Consulting Architect states in his letter of 8. 6. 96
C. 1974 that the Municipality
wishes a road ⁵⁰ feet
wide.

The Court does not approve
the Consulting Architect's suggestion
of changing the site of the late W. 25
Hosp. for besides being
too far away, it is required
for other purposes. Moreover
the necessity for housing the
whole establishment of
38 ^{or 147} subordinates ^{referred}
^{enumerated} in para 4 of the
Consulting Architect's letter
is a matter which has
yet to be discussed. A
communication on the subject
on the Surgeon General has
been received by post.

The objections of the Con-
sulting Architect to the site
in question do not seem
to be insuperable. The
clearing

This is quite a new idea &
perhaps you would wish
to write regarding it before
anything else is done

18/5/6

25.6.95
 Messrs. Gurne & Co. The L.G. must
 be that reply & that Govt. must
 pass on it before anything
 be done. (2) We must also see
minimum width of roadway to the
 which the Municipality consent to
 lay, what power has the Board to
 give any width of street? We are
 proposing to lay out any new
 to that I know of - Why can't
 be laid right up to the boundary
 in land?

19/6/96

I am writing in favour of using
the site of the old W. O. C. hospital
for the establishment of the
Quaker Hospital - It is too far away. Besides
it is wanted for other purposes. Moreover
I don't know that it is at all necessary
to build quarters for the whole staff of
the Quaker Hospital - This is a question which
has never, so far as I know, been dis-
cussed; and the making a proposal of
the kind to the architect is just
the sort of thing that no decent body
would have the coarseness to

Should follow C. L. Rawson's directions to the site opposite the hospital. As to the clearing away of the earth on the putting in deep foundations, there are many matters of expense, which will be worth incurring in order to settle the site. ~~It is not~~ ~~offensive~~ ~~to~~ ~~the~~ ~~public~~ ~~to~~ ~~be~~ ~~done~~

C. d.

(1) The St. M. says they must reply to the letter in para 3 of fo. 528 in Lf 26.6.95 & that for must pass orders on before anything can be done. In the latter part of the draft ref. this has been asked for May it issue or must a separate reminder go?

(2) As to the minimum width of roadway the Murray will consent to, the Record in reply to an urgent reminder merely refers to his previous letter in which he states that the matter has been referred to the Consulting Engineer who has been asked to submit a plan

C.W. 25/6

Аса

No the ref: must not issue
as it is. The ~~only~~ smaller must
be put in order and draft on
the lines of Stair with proposed.

FROM

J. P. HEWETT, Esq., C.I.E.,
Secretary to the Government of India,

TO

The Chief Secy to the Govt of Madras

Home Department.
Medical.

th
Simla, the *29* May 1896.

SIR,

IN Home Department Resolution No. ^{s-Medical} 155-106, dated the 24th February 1896, it has been decided that in future the seniority of a Medical Officer officiating in civil employ shall be determined by the date on which he assumed charge of his first appointment. In the orders contained in paragraph 2 of the Home Department Circular Nos. 14-569-575, dated the 15th November 1880, the Government of India reserved to themselves the power of transferring Medical Officers in civil employ either permanently or temporarily, from one Province to another. It has now been represented to the Government of India by the Director-General of the Indian Medical Service that when a Medical Officer is transferred from a Province in which he has been confirmed, there may be difficulty in giving him in his new Province the pay to which he was entitled in the old one. The Director-General of the Indian Medical Service has accordingly suggested that the position to be occupied by an officer so transferred in respect of seniority and eligibility for a permanent appointment in the Province to which he is transferred should be regulated by the date on which he entered civil employment as provided in the Circular of the 24th February last.

2. It is intended that such transfers should be of exceptional occurrence, and they will generally be in the interests of the officer transferred. In order, however, to provide for the contingency of the transfer of a deserving officer from a Province in which he has a permanent appointment in civil employ, the Governor General in Council proposes to make it a rule that, when a transfer of this nature is made, the Local Government to which the officer is transferred should ordinarily appoint him to the first substantive vacancy which occurs after all officers in the Province of longer service in civil employment have been provided for. I am to enquire whether *his Excellency the Governor* in Council has any objection to this rule being adopted in the future.

I have the honour to be,

SIR,

Your most obedient Servant,

J. P. HEWETT,
Secretary to the Government of India.

Under Secy. to the Govt. of India.

9/18/41
which he worth
in a... is utilize waste.
Offers great advantage
particular purposes. I
observed that a great deal
of space is wasted by ^{having} roads
nine feet wide in four places
where they are obviously not
needed. With ref. to para
of the C.A.'s letter it is not
apparent how the munici-
pal or the neighbors can object
to foot's building what
pleases if a twenty foot
roadway is left.

3. It is observed from the
plan forwarded that a block
56 by 146, is about double the
area of a first rate London
house, is provided for one
class Warrant Officer,
Steward and one Steward
Apothecary, each in his
apartment having one
story. It is not clear why,
with such an area, there
should be any difficulty
as to kitchen and lavatory
arrangements. The Council
architect will submit a rough
plan of the buildings. The
plan ^{submitted} also provides quarters
for other Apothecaries.

Perhaps the C.A.
may know if the
road is not needed.
The road is not needed
perhaps.
