With the Govt. of Madras.

Extract from letter No. 302 dated, Madras, the 20th May 1896, from the Senior Medical Officer, General Hospital, Madras to the Secretary to the Surgeon-General with the Government of Madras.

I have the honor to state, in explanation, that apparently by an oversight, the effect of the recent order of Government to absolutely discontinue the engagement of all extra servants in the Hospital has been overlooked and it follows that the four toties extra to the permanent establishment that the necessities of the increased work in the past four years have caused to be employed, will have to be discharged if the orders is held to apply to all branches of the menial establishment - and if so, some ward or wards must be closed as only enough and just enough toties are employed to do the all important work of excreta removal from the wards and Latrines. Experience has shown that the toty of Madras possesses a considerable amount of independence of spirit and if for any reason he dislikes the work in amount or kind given to him to do - he shows his dislike by simply absconding and similarly if he requires a day's leave for any cause he stays away from work and on return says he has been ill; and if punished by what he considers an excessive fine, he declines to remain in the hospital. It is thus a not uncommon incident for 2,3 or more toties to be absent of a morning and with a varying amount of difficulty, outsiders are obtained to do their work or else by straining the other toties on duty, the work is done for that particular occasion. It is thus necessary to have a full staff of these servants.

DEPARTMENT

SIR,

I have the honour to state that the present Senior Medical Officer, General Hospital, brings to notice that in the Proposition Statement of Non-Gazetted Staff of the General Hospital forwarded with my letter No. T/13, dated the 17th April 1896 and printed in G.O. No. 565, dated the 25th May 1896,

2. He reports that these men have been employed as extra servants since 1889 as the necessity for them arose and kept on till the present time. He is of opinion that they are absolutely necessary for the proper and efficient carrying out of the menial work of the combined Hospitals and therefore requests that they may be brought on the permanent establishment.

3. In the statement appended, he gives in detail the duties of each of them, the necessity for the continuance of their services and the pay proposed for each; and in connection with the employment of the extra toties he says :--"That the

the four toties extra to the permanent establishment, that the necessity of the increased work in the past four years have caused to be employed, will have to be discharged if the order (G.O.No. 304, Public dated the 8th February 1896, para 5) is held to apply to all branches of the menial establishment; and if so, some ward or wards must be closed as only enough and just enough toties are employed to do all the important work of excreta removal from the wards and latrines."

4. I quite agree with the Senior Medical Officer and would therefore recommend that the sanction of Government be accorded to bring these extra servants on the permanent establishment.

5. Surgeon-Major-General Sibthorpe intended to postpone -- making this recommendation till after the receipt of the orders of the Government of India on the proposition statement submitted with my letter quoted in para 1, but Surgeon-Lieut: Colonel Browne points out that if the sanction of Government were not obtained prior to final orders being passed on the proposition statement now before the Government of India, these extra servants will have to be discharged directly the final orders are received. And as some time would elapse before application is made and sanction obtained for their re-employment, I deem it necessary to make the recommendation at once to avoid the inconvenience and difficulty which the hospital would be put to without these necessary servants during that time.

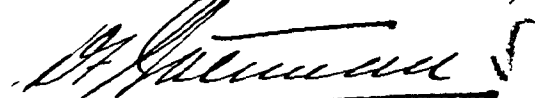

6. The cost of the increase in the permanent establishment would amount to Rs. 60 per month, but no actual increase in expenditure on their account will accrue as they have been borne on the extra establishment since 1889.

7. Should Government be pleased to sanction the proposal made a fresh proposition statement will be submitted.

I have the honour to be,

Sir,

Your most obedient Servant,

Surgeon-Colonel,

Acting Surgeon-General with the
Government of Madras.

FOR ORDERS.

The Surgeon-General reports that there are ten attendants on Rs 6 each per mensem, who have been employed regularly at the General Hospital for periods varying from the past eight to the past two years, who have not been included in the proposition statement forwarded to the Govt of India with G.O. 565-66, Pub. 4126th May 1896, because apparently the former instructions in para 5 of G.O. 304 Pub. 4128. 2. 96 were understood by Brigade Surgeon Col Price to apply to all branches of the menial establishment. A statement of the work done by each of the ten is submitted and shows that there is really plenty for them to do. It will be seen from para 5 of the current that Surgeon-General Sibthorpe's intention was to postpone
