AUGUST.

Dr. Haffkine.

Communicating to the Local and Municipal Department, to the Surgeon-General and to all
Collectors letter from the Government of India intimating that - proposes to visit this Presi-
dency in September and the first half of October next to make preliminary arrangements for the
introduction of anticholera inoculation.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From C. H. A. HILL, Esq., Under Secretary to the Government of India, Home Department (Medical), to the Chief Secretary to the Government of Madras, dated Simla, the 5th August 1896, No. 674.

With reference to your letter No. 621, Public, dated the 12th June 1896, I am directed to forward, for the information of the Government of Madras, the accompanying copy of a programme furnished by Mons. Haffkine of his movements during the remaining months of this year, from which it will be seen that he proposes visiting the Madras Presidency in September and the first half of October.

ENCLOSURE.

From Mons. W. M. HAFFKINE, to the Secretary to the Government of India in the Home Department, Simla, dated Calcutta, the 21st July 1896.

With reference to your letter No. 575, dated Simla, the 10th July, I have the honour to inform you that, as far as it is possible to fix now, the programme of my movements during the present year is as follows :—

Till the end of this month—Operations in Poona, where I am going to-night.

Between the 5th and 20th August—I intend to be in Simla in connection with the deliberations on the Pasteur Institute.

End of August and beginning of September—Tour between the coolie-recruiting districts in the Central Provinces and Bengal, and the landing stations in Assam.

In September and the first half of October—I will be ready to visit the Madras Presidency, and to make at least preliminary arrangements for the introduction of anticholera inoculation.

In the second half of October—At the height of the coolie traffic, second tour on the emigration road.

November and December—Supervision and carrying out of the anticholera inoculation in the coal mining districts of Bengal.

In the beginning of next year I intend to visit the Bombay Presidency, in connection with a suggestion of the Secretary of State to attempt the introduction of anticholera inoculation among the pilgrims embarking for Mecca, should they be willing to accept it.

In giving this programme I must add that the plan of my movements is obviously subject to constant modifications in connection with the prevalence of cholera and the willingness or otherwise of the people to adopt inoculation, as the object of my personal work is to demonstrate, wherever possible, the effect of the method, and, therefore, to endeavour to take timely advantage of epidemiological and other circumstances appearing unexpectedly and favouring this demonstration.

ORDER—No. 894, Public, dated 19th August 1896.

Communicated to the Local and Municipal Department, to the Surgeon-General and to all Collectors in view to every facility being afforded to Dr. Haffkine during his stay in this Presidency.

2. Attention will be invited to G.O., No. 292, Public, dated 11th April 1893.
