Too late I dare
say we may have to send
someone somewhere to learn
Dr. Haffkin's method. But
things are not ripe for it
yet

It is not known what
enquiries Dr King refers to.
No official ones can be
traced and Dr K. is away
at Kurnool so cannot
be asked. It is possible
he may have had an
interview on the subject
with the Hill.

If any officer is to be sent
to Calcutta for instruction
Dr K. is no doubt the right
man but it is sub? for
orders whether his letter
may in the first instance
be referred to the Surgeon
General for his remarks.

25/1/96

I know of no inquiries such
as those attached to Dr King

I sent down to his Office to ascertain if any information was available there: there was none.

I submit that there is no need for Dr. King to go to Calcutta: as far as I am aware Dr. Haffkine's system has had no positive results and is still in the experimental stage. Dr. H. I believe to think can do more use if he stays here and looks after his legitimate duties than if he were to Calcutta to learn a system of probational value.

There is ample work for him to do here

Enclosure.

SIR,

With reference to certain enquiries lately made by Government as to the practicality of adopting Mr. Haffkine's method of inoculation against cholera in this Presidency, I have the honor to state that Dr. Simpson who has worked with Mr. Haffkine at this special method has, on my communicating with him on the subject, had the kindness to express his willingness to train any medical officer sent to Calcutta for that purpose by the Madras Government - provided (and on this point he anticipates no difficulty) that the Municipality of Calcutta allow their laboratory, which is under his charge, to be utilized.

2. As it is advisable that I should be acquainted with this method, and be thus in turn capable of training any officers Government might wish to place on this

duty, I request I may be sent to Cal-
 cutta on duty on the usual arrangement
 as to deputation (Article 98(a) C.S.R. 2nd Edition)
 for a period of six weeks. I should arrange
 to fulfil my office work, including that of
 communication with the Sanitary Board,
 without inconvenience during my period
 of absence from this Presidency. In the
 event of Government consenting to this
 arrangement, I request that I may be
 allowed full deputation allowance as
 living in Calcutta is very expensive,
 and also that I be permitted to have one
 clerk and two peons with me.

3. I may state that Mr Simpson leaves
 for Europe on furlough in April, and that
 if Government consents to my request
 it would be advisable I be allowed
 to proceed to Calcutta at once.

I have the honor to be
 Sir

Your most obedt Servt
