No. 139.

From

A. REA, ESQUIRE,

SUPERINTENDENT, ARCHAEOLOGICAL SURVEY,

(MADRAS,)

To

The Chief Secretary
to the Government of Madras.

SIR,

With reference to para 3 of G.O.,
No. 972. Public, dated 20th July 1897, I
have the honour to state that I gave
very careful and anxious consideration
to the remarks on the photographs ac-
companying that and previous Govern-
ment orders.

2. To the Head Braughtman, who
took these photographs, I gave very special
instructions as to what points were to be
attended to, and what avoided to secure
good pictures. But many photographs
are taken from places in the interior of
temples, where it is impossible for me
to go.

3. One of the chief faults is overexposure. This may have been hitherto partly due to a bad camera. But another cause may possibly be, that it has been usual, - to avoid the carrying about of a large quantity of chemicals, - to develop some of the plates at headquarters after the return from the season's tour. Thus, light may have got at them in the boxes, or they may have been affected by the hot weather which has then set in. This point will be specially seen to, during next cold season.

I have the honour to be
Sir,

Your most obedient servant,

A. W.
Superintendent.
