[The following *Resolution* was passed unanimously in a crowded Public Meeting of the citizens of Bombay, held under the auspices of the *Indian Anti-Vivisection Society (Bombay)*, at Mahadev Bag, on Sunday, the 29th November, 1896. Dr. Bhalechandra Krishna Bhatradekar, the ex-Medical Officer, Baroda State, and a well known medical professional gentleman of Bombay, presided.]

“ This Meeting strongly protests against the establishment of a Pasteur Institute in this country, arrangements for which are reported to have been already made under the auspices of Government, is of opinion that such an Institute will in no way be beneficial to the people but on the contrary is calculated to deeply injure their feelings, and therefore this Meeting most humbly requests the Government to finally abandon the idea of establishing such an Institute.”
