NOTE FOR THE UNDERSTANDING.

① There is no information available here as regards the amount now paid by the Govt. Hospital & Medical College for water rates, but the Budget a certain sum is shown under Contingencies for "Rents Rates & Taxes" A. A Ref will have to be made therefore to the Surgeon Genl.

② It is true that the Store Depot is now under the Director Genl, Indus., but from the papers put up flagged it will be seen that the question whether Provincial should continue to bear the cost of providing accommodation for the Medical Stores is still under reference to the Govt of India.

The information required by Ld. C.W. will not being available, 7/7/97 a draft note for P.W.D.

is submitted. Should
Mr. S. S. be asked what
the present cost of water
is?

The medical store has
been included in the
bill for P.W.D. as it
seems quite possible
that India may
repeal its objection
to pay for this institution

Before countersigning the
draft order below the
undersigned will be glad
to have some information
as to the approximate sum
which it is proposed to debit
annually to Provincial funds,
on account of each of the
three institutions concerned.
Until this is known it seems
impossible to decide whether
the supply of seven full
water shares, in these three
cases, be retained.

NOTE FOR THE Hon. S. W. Bliss.
K.M.E.

The P.W.D. draft proposes to
debit to Provincial the cost of
supplying seven wells water
to the Medical College, General
Hospital, & enquiring it
appears that the estimated
Y This cost is Rs 304 per annum

The Senior Medical Officer
considers it "theoretically
B. advisable" that the seven wells
(no III) supply should be retained, in
addition to that from the Red
Hills. He explains that the
free allowance granted by the
Municipality of Red Hills
water is not sufficient to meet
requirements, & that excess
water has to be paid for: he
apparently proposes to give up
using this excess, and to use
seven wells water instead.

The Surg. Gen. reports however
that no excess water from the
Red Hills was consumed in these
institutions last year. (1916-17)
The point
for orders therefore is whether

Ans 3489
Pub.

His retention of the seven
wells supply is worth Rs
384 per annum.

The water rate paid to
the municipality is an out-
let of Rs 1175 per annum.

H.H.

I don't know
enough about the matter
personally to give any
opinion: but on the face
of the case seems to be
made out. The S.L.G. has
not however been asked
to offer a definite opinion
as to whether the institutions
in question should have
the 7 wells supply or whether
the ordinary municipal
supply is ~~enough~~ all
that is needed.

S.P. 20/9/97

I agree & think
the seven wells supply
only under the
existing drain.
only a question of
there is a further
ability for removal
may come very much
into question.
