DEPARTMENT.

SIR,

I have the honour to submit for the sanction of Government an indent in duplicate on the Secretary of State for India for a Microscope required for pathological purposes for the Lunatic Asylum, Madras.

2. There is at present no Microscope in this institution and consequently there are no means of investigating the many interesting pathological changes met with in cases of brain lesions. The carrying out of these investigations is very important as they tend to throw light on the causation and diagnosis of cerebral diseases in this place, and thus pave the way to better prophylaxis and treatment. The Microscopes supplied by the Medical Stores are only of use for the commonest hystological purposes and quite unsuited for the requirements of a large asylum.

3. It will be noted that a microtome, staining agents, slides, cover glasses &ca, have not been included in the indent as these can be more cheaply procured locally.

4. The articles indented for may be sent direct to the address of the Superintendent, Lunatic Asylum, Madras.

5. A copy of the indent has been forwarded to the Accountant-General.

I have the honour to be,

Sir,

Your most obedient Servant,

Finl Dept for C. I. FOR ORDERS.

The S. G. submits for sanction
an indent on the Secy of State
for a microscope required
for pathological purposes at
the Lunatic Asylum, Madras.
He states that the microscopes
supplied by the medl stores
are quite unsuited
for the investigation of cases
of cerebral diseases (C

ment can, the S. G. avers,
be met from savings
in the medl. budget
for 1897-98 (space copy
put up)

In C 3905 the Secy
Genl has pointed out
that there was provision

the fumative account for 97-98
against which the cost
could be suit debited

It does not seem likely
that there will be any
savings as anticipated
by the S. G. Plague operations
will probably cause
heavy expenditure.

Orders are therefore
solicited. The S. G.
may be told that he should

C.S. explain more fully under
4/4/97 what had he anticipated
a saving as no provision
has been made.

It appears to be evident from the
S G's own estimates that he will
not have any savings and this
might be pointed out to him.

Yes and the proposal
disallowed. It is a ^{scientific} luxury
not a medical necessity.
I suppose the S. G. is right
in quoting £14 as the cost,
