Venereal Affections.

Forwarding to the Government of India a letter from the Surgeon-General submitting, with remarks, a statement showing the extent of — in the City of Madras during the year 1896.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From Surgeon-Major-General C. SIBTHORPE, F.R.C.P.I., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Madras, the 18th March 1897, No. 151.

With reference to G.O., No. 741, Public, dated the 20th October 1892, I have the honour to submit a statement in the form therein prescribed showing the extent of venereal affections in the City of Madras during the year 1896 as obtained from the hospital statistics.

2. There were 4,174 cases treated in the different hospitals in Madras against 4,750 or 576 cases less than the number treated in the previous year, though there was an increase in the number of institutions over the previous year by two—Bezwada-Madras Railway Dispensary (newly opened) and Second District Dispensary—being included for the first time in the report.

3. There was a decrease of patients treated in the following institutions :—

(1) North Black Town Dispensary	..	..	..	..	..	by	27
(2) Royapettah Hospital	..	..	..	..	..	..	203
(3) Government General Hospital	..	..	..	..	..	..	245
(4) Government Voluntary Venereal Hospital	..	..	..	..	..	..	67
(5) Victoria Caste and Gosha Hospital	..	..	..	..	..	..	37
(6) St. Thomé Dispensary	..	..	..	..	..	..	49
(7) Government Leper Hospital	..	..	..	..	..	..	12
Total decrease	..	..	..	..	..	..	640

4. The following institutions showed a slight increase in the number treated :—

(1) Native Infirmary	..	..	..	..	..	by	23
(2) Government Ophthalmic Hospital	..	..	..	..	..	..	4
(3) Government Maternity Hospital	..	..	..	..	..	..	15
(4) Raja Sir Ramasawmy Mudaliar's Lying-in Hospital	..	..	..	..	..	..	5
(5) Port and Marine Dispensary	..	..	..	..	..	..	7
							54
The Bezwada-Madras Railway Dispensary treated ten patients	..	..	..	..	..	..	10
Total increase	..	..	..	..	..	..	64

5. None were treated during the year 1896 for venereal affections in the Government Leper Hospital or in the Second District Dispensary.

6. As regards the diseases treated, both primary and secondary syphilis showed the largest number, viz., 2,546, next came gonorrhoea 1,252, ulcer of penis 220, against 2,473, 1,307 and 236, respectively, of the preceding year. All other venereal diseases amounted to 156 against 734 of the previous year.

7. Out of a total of 4,174 cases treated during the year, 1,347 (32·27 per cent.) were afforded in-door relief, and of this number 142 were Europeans and Eurasians against 197 during the last year. Of the aggregate number treated, the proportion of males to females was 10 to 7—2,443 being males and 1,726 females.

8. Out of a total number of 203,854 cases of all diseases treated in these institutions, 2·05 per cent. were for venereal affections.

9. Among the British troops, with an average strength of 556, there were 411 cases treated for the following complaints :—

Primary syphilis	..	..	..	..	..	..	..	103
Secondary do.	..	..	..	..	..	..	..	70
Ulcer of penis	..	..	..	..	..	..	..	54
Gonorrhoea	..	..	..	..	..	..	..	184
