CURRENT No.

Colonial Secretary's Office,
Colombo 13 April 1897.

Sir,

I am directed to inform you of the occurrence of a case of Cholera in Pendleton Estate on 2nd April 1897 among a gang of coolies who had recently arrived via Tuticorin. The case proved fatal, and from enquiries made it was ascertained that three other cases had occurred at Tuticorin in the same gang on 23rd March 1897 all of which proved fatal.

2. As this Government is desirous of taking every precaution against the introduction and spread of this disease, I am desired by His Excellency the Governor of Ceylon to seek the assistance of the Government of Madras in carrying out such measures as are deemed necessary by the Medical authorities. His Excellency has reason to believe that such assistance will be readily rendered as heretofore.

3. The Principal Civil Medical Officer of this Island has suggested that whenever cholera breaks out among a gang of coolies at Tuticorin on their way to Ceylon, the fact should be reported by wire to the Port Surgeon Colombo.

The Hon'ble,

The Chief Secretary to the Government of

Madras.
