1895

With reference to paragraph 4
of G.O. No. 528 Public dated 26 June 1895 commu-
nicated with G.O. No. 1796 dated 19 July 1895,
I have the honor to report that I communicated
with the President of the Madras Municipal
Commission and that officer states that there
should be a street 33 feet wide between the
existing houses and the proposed quarters &
that under section 244 of the Municipal
act the street should be properly laid out
by the owner of the land. Under these
circumstances it will be seen from the
accompanying plan that there will not
be sufficient ground left to build the
General Hospital near St. Andrews & Hospital
Assistant.

SUBJECT.

Transferring letter from the Consulting Architect to Govt reporting that there will not be sufficient ground left to build the General Hospital Head Stewards and Hospital Assistants' quarters at the site proposed.

P. J. O

Ent. No. 562 D 13-3-96

The President Municipal Commission is requested to be so good as to state whether he considers it essential that a street 33 ft wide should be left between any buildings erected on the strip of land lying to the north of the General Hospital and the existing houses, or whether it is possible to allow a narrower lane which will admit of the construction of the quarters.

To The President Municipal Commission
thru' Ldm Dept.

Reminder sent by K on the 23rd May 1896

C. No. 782

FOR ORDERS.

In para. 3 of G.O. No. 482 dated 8. 26. 895, certain instructions were given in regard to the proposal that quarters for Hospital Assistants should be built on the open piece of ground immediately to the north of the General Hospital. The Consulting Architect was directed to utilize the whole width of the site unless the municipality were willing to make and maintain in proper order a lane between the quarters and the private houses to the north of them.

2. The Consulting Architect reports that the President of the Madras Municipal Commission states that there should be a street 33 feet wide between the existing houses and the proposed quarters which should be properly laid.

aid out by the owner of the land. Attention is invited to the plan from which it will be seen that allowing for a street 33 feet broad, there will not be sufficient space left to construct the proposed quarters.

3. It is understood that the width of any proposed street is left to the discretion of the President of the Municipal Commission who determines it in view of local circumstances. Unless that officer is prepared to allow a much narrower interval between the existing houses and the proposed buildings, the valuable site in question will be useless for building purposes.

J.D.B.
7.3.96.

Have we any means of saying how narrow the street must be if the quarters are allowed sufficient lane? J.D.B. 9/5/96

No, for no plan has been submitted since the issue of No. 528 Pubd. 26.6.95. The Sept. 1895 plan is J.D.B. 9.3.96

Quarters for Hospital Assistants

FOR ORDERS

H. E. THE GOVERNOR.

THE HON'BLE MR. H. W. BLISS, C.I.E.

THE HON'BLE MR. J. GROSE, C.I.E.

Must remedy shown in the sketch why so wide a street is needed - imagine that hospital against the land & building shown there was no street at all & I don't think one why this narrowness - almost impossible - (if a building it is impossible)

10/13/96 The Com. Arch. Bd. inform the H. H. H. the least width of street advisable if the building are to be constructed on the site & see if he can arrange for a narrower street. Or H. H. H. report the facts to Govt & then Govt. correspond with the H. H. H. J.D.B. 9/5.6

[G. 74.]

NOTE FOR THE CHIEF SECRETARY. B. J. Forbes Esq

Perhaps the Hon does not know that the existing houses face the road and that it would be most unfair to the owners to erect quarters facing the same way with only a conservancy lane between. Please see Encl. on the current.

No. 141.

From

The Consulting Architect
to the Government of Madras,

To

The Engineer
Municipal Commission.

Sir,

With reference to your letter No.43 dated the 10th Instant, I have the honor to state that the buildings have not been designed, their arrangement will depend on the space available. The front of the buildings facing the General Hospital will be parallel with the gutter & about 5 feet from it so that the entrance steps will come up to the gutter shown in the plan which it would appear is the southern limit of the Government land. The north face of the buildings will be designed so as to be parallel with the existing building so that a uniform width may be preserved for the proposed street. The larger building will be erected at the East side of the site which is wider. I should think that a street 20 feet wide will be quite ample. If the Municipality agree to this, I request that you will kindly furnish me with an Estimate for the Roadway which I expect you will have to construct, Government meeting the cost. I shall include the cost of the Road with the Estimate for all the buildings to be constructed.

2. Please return the plan with the decision of the President as early as practicable as the quarters are urgently required.

I have the honor to be,
Sir,

Your most obedient servant,

No. 311

OFFICE OF SURGEON-GENERAL

WITH THE GOVERNMENT OF MADRAS,

Madras, the 26th July 1896. 189

From

SURGEON-MAJOR-GENERAL C. SIBTHORPE, F.R.C.P.J.

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE Honorable the Chief Secretary to Government,
Public Department.

Sir,

With reference to G.O., No. 636 Public dated the 1st July 1896, and G.O., No. 528 Public dated the 26th June 1896 in which it was directed that a complete Scheme be submitted for providing quarters for other subordinates besides the three Hospital Assistants attached to the General Hospital, I have the honour to submit the following proposals for consideration:-

2. It will be convenient to dispose first of the question of housing the ninety-two ward-attendants- male and female- and the thirty-one toties. The Senior Medical Officer in his letter on the subject remarks - "that each of these servants must live with his family; for, on no other condition would they remain in the service of the Hospital and therefore this number must be trebled or quadrupled". On this account, and in consideration of the fact that such a large number of families collected in one spot would constitute positive danger from a sanitary point of view, I think it would be advisable to leave them out altogether in this scheme.

3. I would therefore recommend that the menial staff be allowed to make their own arrangements for quarters as at present.

4. With regard to the Head Steward and the Subordinate

Medical

Medical Staff consisting of one Military Assistant Surgeon,
nine Apothecaries and four Hospital Assistants for the com-
bined Hospital, I consider that it would be of great advan-
tage to the administration of the hospital and would add to
the efficiency if this subordinate staff were accommodated
with quarters on this site opposite the General Hospital.

5. I am forwarding this letter through the Consulting
Architect to enable that Officer to reply to the points
raised in the G.O. regarding the structural requirements of
the buildings.

I have the honour to be,

Sir,

Your most obedient servant,

W. H. Sturges

Surgeon-Major-General,

Surgeon-General with the Government.

Enclosures.

1. Learning

With reference to GO No 22104 dated the 31st July 1896 I have the honour to submit rough plan and sections of the following quarters arranged on the vacant sites opposite the General Hospital.

1. Military Assistant Surgeons quarters.
2. Head Stewards do.
3. Quarters for nine Civil Apothecaries
4. Do for four hospital assistants.

As suggested by the Surgeon General with the Government of Madras the accommodation provided for the Military Assistant Surgeon and Head Steward is as far as possible, as laid down for "senior apothecary, 1st grade" in the I.M. Code Appendix VIII Chapter X para 173, and that for civil apothecaries as laid down for "conductor or apothecary". Stable and

Quarters for the Medical Subordinates
attached to the General Hospital.

G.No. 3187

FOR ORDERS

In his letter No. 202, dated 10th July 1896, the President of the Municipal Comm. Madras, ~~intimated~~ intimated that there was no objection to the street between the existing and the proposed buildings to the north of the General Hospital being only 20 feet wide.

In his ~~letter~~ No. 311, dated 21st July 1896, the Surgeon General considered that the Head Steward, Military Assistant Surgeon, nine apothecaries and four hospital assistants should be provided with quarters near the General Hospital.

The Consulting Architect submits a rough plan of the proposed quarters as called for in G.O. No. 686, Public, dated 1st July 1896.

Will the H.M. kindly say whether he would wish the file submitted to him at Madras so that he may examine the site and plan together.?

The following observations in regard to the plan are submitted:--

Hospital Assistants' Quarters. The open area between the house and the four foot verandah of the outhouses is only three feet wide. It would be better to omit the verandah and have an open space of 7 feet. The latrine to the east open on to the area in which is situated the entrance to the basement of the next

Not

Copy of the S.D.
is available
at present.

This plan must have cost a great deal of time & trouble, but I am not sure that it could not be improved upon. I wait until the new Consulting Architect joins & then ask him to come & speak over about it, at the same time returning the papers here.

BS
23/10/96

Do so. need not
trouble H.M. with the query.
H.M. 10.9.96

I have discussed this matter with Mr. Harris, who thinks that the location of buildings according to the plan would give a very long-sided appearance to the street, which is one of the principal beauties of Madras. His criticism is a good one. Mr. Harris' suggestion that the verandah might be omitted, & the building, by taking up the space between Kithasani Kundali's house & the street (see site plan) making a wide lane with its eastern entrance to the basement of the next

use accommodation is available only for Military Assistant Surgeon and Head Steward. It will be seen that the spaces left between the blocks are for the sake of ventilation.

In arranging the plan I have endeavoured to keep the quarters in each block as private as possible with regard to the space available. It is possible that the Civil apothecaries & hospital assistants may be of different notes.

I have the honour to be

You are: Bliss. C. J. R.
Submitted.

I suggest he consulted Mr. Chester
Donn & Co. as to what the probable
cost of taking up this block of land, with
the buildings on it, would be. I estimate
it at least \$25000 (vide Mr. Harris's
d. o. letter of 10/11/96, with the enclosure
put in the file) - I don't think we can
afford to much more money and I don't
think, even if we take up the add'l land,
we shall get such a site as will enable
us to find room for all the required
buildings, without encroaching them
too near the side of the road for a good
effect to be produced. I therefore conclude
that we must either adopt the plan of
building quarters near the Genl. Hospital
for the most subordinate employed there,
or must build on the plan now on foot
(with some slight modifications in detail which
I will discuss with Mr. Harris). There can
be no doubt that it will be a great
loss to the advantage of the Hospital to have
such subordinate lodged elsewhere, and
there is possibility of obtaining accommodation
by building a separate building to house
the object - Apart at least of that piece of
ground will, however, with the land
be required, for the E. C. P., although
for a division of Hall Tax Road which will
be required with the E. C. P. & Grouping
the Central Station. Besides, it is too good a
block of ground, & has cost too much to
give up to health subordinate quarters.
I am therefore in favour of building according
to the plan, but hesitate at once to have
orders to this effect lest any how Mr. Chester
should think it would be a mistake to build
here, on the other ground above stated.
The papers should therefore be circ'd for
decision in detail according to the plan, but
we have the file again that they point to
details with Mr. Harris.

I do not think the economic objections are sufficient to prevent our taking advantage of this piece of ground in the way that has been proposed.

I should build according to

The 4th Land, and placed toe-ing
the drain of the main road, the
road will appear lob-sided, but this
I mentioned to you at your house.

Mr. Chester tells me he believed
there is some order against building
on this site, as Govt. objected to any
existing open spaces being built on.
What further action, would you
like me to take?

Quickly return me the enclosed
letter and plans.

Yr. sincere

Wm. Harris.

Public Works Department,
CONSULTING ARCHITECT'S OFFICE,
Chennai, Madras,
10.11.1896.

Dear Mr. Harris

I have received the enclosed
from Mr. Chester - I, as you wished,
went over the site opposite the
Hospital with him, and we dis-
cussed the matter fully.

You will see from his letter
that it will probably cost Rs 22000/-
to acquire the site.

I am afraid that if the
building suggested, is erected.

NOTE FOR THE UNDER SECRETARY.

Please see Mr. Harris' note
of 29th ult. The note
will now issue. The
addresses have been
added.

Mr. Harris' d.o.
however has yet to be
attended to. The follow-
ing draft d.o. is
submitted

13. May 1897.

My dear (Mr.) Harris,

I am directed
to return the letter and
plans received with
your d.o. of the 10th
Nov ^{last} to the Honble
Mr. Bliss.

Yours sincerely

ORDER. 12509845-97.

Hon. Mr. H. B. Bliss. C.E.

Mr. Li.

Submitted for orders as to whether any modification of the rough design is to be called for, with reference to Mr. Li's note d. 13-11-96.

Flagged N
26/4/97

Not necessary. I have discussed the plans with Mr. Harris, in whose hands the matter may be left.

29/5/97 Sen. For Requisition 314197

The question of providing quarters for certain subordinates attached to the General Hospital having ^{arisen} ~~been brought~~ before Government, the Surgeon-General was requested in G.O. No. 528, Public, d/ 26th June 1895, to submit a complete scheme, showing the accommodation required. In his letter No. 311, d/ 21st July 1895, ^{the Surgeon-General} ~~that officer~~ reported that quarters should be provided for (1) The Head Steward (2) The Military Assistant Surgeon (3) nine Apothecaries and (4) four hospital assistants. ^{This material} ~~was~~ submitted. The site of the proposed quarters is the vacant space immediately to the North of the General Hospital. It was at first ^{estimated} ~~reported~~ that a width of 33 feet would be necessary for the road to the North of the proposed building, in order to comply with the requirements of the Municipality. The President of the ^{Commissioners} ~~Municipality~~ has however ^{estimated} ~~reported~~ in his letter No. 202, dated 10th June 1897,

4/11/13 Pick Sign
20/1/16 H.W. 2410

that a ^{roadway} ~~roadway~~ of 20 feet would be sufficient. ~~The width~~ ^{the width} will accordingly be adopted.

These plans having been ^{desired &} ~~settled~~ it remains to pass orders on the rough plan now submitted by the Consulting Architect. The possibility of improving the appearance of the proposed building by acquiring an additional plot of ground for ~~the~~ ^{its} erection has been considered, but the cost ^{of doing this} ~~acquisition~~ would be more than the Government can sanction for such purpose. The accommodation provided in the rough design appears to be all that is required. ~~Plans and~~ ^{in accordance with it} Estimates should now be prepared ~~according to that design~~, and submitted for approval.

AK.
