Endt No 059 7/12 April 1897,
Returned to the
Local and Municipal
Department with the
remark ~~that the fact~~
~~considered~~ That the case
is preeminently one
in which the Civil
Apothecary should
not be replaced,
and ~~that the~~ ^{in which} whole
of his pay should be
met from Municipal
funds.

Should the Municipal
funds show in consequence
a deficit, ~~the fact remains~~
~~that~~ the taxation should
be raised. The increase
of the house tax by 1%
under the new Act
would suffice

its opinion that Hosptl Assts

para 2 of the last

stated that Govt would
not, except under very
special circumstances,
entertain the proposals
of local bodies to replace
existing Civil Apothecaries
in independent charge by
Hosptl Assts.

sustain, a Hoopl Asst
should replace the
Civil Apothecary
unless Govt was
prepared to pay the
Extra Rs 50 from Provincial
funds.

The Surgeon General
remarks: Thereon
that, considering the
importance of the insti-
tution and its distance,
1/2 miles, from the head
quarters of the M.S.O.,
could not approve
of Hoopl Asst. being
put in charge. He was
of opinion that Govt
should help the Munici-
pality from Provincial
funds and referred to
his remarks in this con-
-nexion in his letter N^o. A²
26 d/15-1-95. He was
then told that that letter
was under the consid-
-eration of Govt.

3. Attention is
solicited to that letter

concerning the reorganization
of the subordinate medl
dept, and especially
to para 9. In his L^t

4. The matter of the
Tinnevely Civil Apothecary
has now been brought
up again and the Law
Dept has referred
it to Public with ref to
the Surgeon General's letter 26

5. The Chairman of the
Municipal Council sub-
mits statements of the
receipts and expenditure
of the Municipality
with the object of showing
that the finances are
in an unsatisfactory
condition and unable
to bear the strain of the
Extra Rs 50 per mensem
that has now to be paid
to the Civil Apothecary
in charge.

The Surgeon General
reiterates his previous

Estimated expenditure = Rs 26570

vide his letter 113 d/4.7.97 C 1004 M

that foot should supplement the cost, as he is strongly averse to a Hosp. Asst. being left in charge of the institution which he remarks contains beds for both male and female patients.

Orders are solicited

The Municipal Council 197 asks that the Apthecary should be dispensed with & a Hospital Assistant placed in charge. This is contrary to the rulings of Govt. & to the advice of the Surg. Genl. ~~and~~ ^{should} not, it is submitted, be permitted.

It is observed that in the resolution of the Municipal Council reference is made to the fact that the present Apthecary is to be transferred (a mutual transfer is shown by the Chairman's covering letter). It is not said whether the incoming apthecary is of an equal or higher or lower pay.

It is submitted that all that can be done in Public is to reaffirm or set aside the principle that Hosp. Assistants should not be placed in charge of large hospitals.

The Surgeon Genl. has said (para 9 of his letter L d. 15 Jan 1895. no 26) that when the finances of a local body cannot possibly meet the extra expenditure involved when the pay of an apthecary rises, the apthecary is removed. It is for L. & the Dept. to say in the present case, after examining the finances of the municipality, whether such a step is required, & if so to ask that the Surg. Genl. should make arrangements accordingly.

* & local bodies will have to find their own way or get Assistant Surg. C²

The point will arise as to how costs form when Apthecaries die out (under the orders contained in G.O. no 1079 Th¹ d. 13. May 1884). It is submitted however that in view of H. H's note at B² the general question is not yet ripe for settlement.

AK. Cpt. has ruled that 100 cents is 4-57.

are not where it can be avoided blame
in charge of medical institutions. The
one which has given rise to this
reference is the municipal one in
which this principle shall be
affirmed.

The municipalities are absolutely

in a bad way. The question
is whether Govt will help it by contributing to the pay of the Apothecary
It helps a great deal to the municipalities I don't see why we should give a grant - He-
it will probably have to be given sides we have no money
elsewhere.

Perhaps the best way will be
to transfer upon the municipalities returning 2/3
the Apothecary, and paying him
and for the municipalities and up with
a deficit Govt. could help us
and give a grant to bring the
funds into equilibrium.
