For order

The Rev. P. O. lays down as a rule to be "universally adopted in future" that the grant of a local allowance to the proper mode of compensating officers (permanent or acting) appointed to exceptionally unhealthy or costly localities.

The Rev. Dept does not communicate to Public but to File which latter records and sends to Public

The order states that the principle is to be universally adopted in the future. The question as to what is to be done in regard to existing arrangements is left undecided

It will be seen from Financial No 541 d/16.7.94 & 56421.1.95 that the principle has already been

been brought into force
so far as Hospital
Assistants are
concerned

Civil Apothecaries
