GARRISON QUARTERMASTER'S OFFICE,

Fort St. George,
18th March 1898

From

Captain W. M. Davel

GARRISON QUARTERMASTER,

Fort St. George,

To

THE Chief Secretary
to Govt. of Madras,
Fort St. George.

SIR,

I have the honor to bring to your notice the strong smell which emanates from the latrines on the beach, for use of factories employed in the Government.

A small quantity of disinfectants from the allowance for the Fort is occasionally given for use in this latrines, but it is far from sufficient.

I have therefore the honor to request that you will kindly arrange for a supply of carbolic acid and Carbolic powder monthly for use in this latrines.

I have the honor to be,

Sir,
Yr. Most Obedt. Servant,

W. M. Davel

Offg. Garrison Quartermaster

GOVERNMENT OF INDIA

To
TH Chief Secretary
to the Government of Madras
With the Governor
Stone House
Cochin

SIR,

I have the honor to request that
you will be good enough to favor me
with a reply to my letter no 126 of 18th
March 1898, regarding the supply of
arsenic acid and arsenic powder
for the use of the Beach latrine.

I have the honor to be
Sir
Your obedient servant

E. M. Jackson
Garrison Quartermaster,
Fort Saint George.

The latrine on the foreshore was
erected primarily for the Secretariat
Clerks. Three scavengers on Rs.5 each
were employed by this office to look
after it, but as the Military authorities
were constantly complaining that it was
not kept as clean as it should be, with
their consent the conservancy was handed
over to the Garrison Quartermaster, we
furnishing one scavenger which was all
that they asked for. The latrine now
seems to be used not only by Secretariat
Clerks but by the employes of several of
the public offices in the Fort, e.g., the
clerks of the Accountant-General's and
the Military Controller's office, for
some to a certainty, are known to visit
the place.

In the current the Garrison Quarter-
Master asks for disinfectants and the
question arises whether these should be
supplied at the sole cost of the Secre-
tariat offices or whether other public
offices

offices whose clerks resort to the latrine should share the cost.

The Garrison Quartermaster will probably be able to say which are the public offices concerned other than the Secretariat.

C.B.

Encl No 1012 of 28 April 1898

Submitted that it is not my business to supply disinfectants in this case. P.W.D. may, ^{perhaps} ~~perhaps~~, be asked for its remarks

D. P.W.D.
Encl No 1012 of 29 April 1898
Charges of this nature are debitable to office contingencies. If it is considered worthwhile to distribute the cost, it can be divided amongst the offices using the latrine.

NOTE FOR THE P.W.D. Encl No 1012

Will please say if there is any rule under which the office in the Fort can be expected to supply the disinfectants. The conservation of the latrine is under the Garrison Quartermaster and it seems proper that the Military authorities should arrange for everything that may be required.

C.B.
2.5.98
H. 3.5.98

Note for the Public Dept.

There is no rule so far as the P.W. Dept. is aware. To give this particular case which is that of our Dept. looking after the conservation of a latrine belonging to another Dept. Each Dept. usually provides its own disinfectants. Fort St. George is, according to Army Regulations, Vol. V, p. 244, allowed 112 lbs of Carbolic powder per mensem. The military authorities have already declined to supply disinfectants for a latrine

which has erected premises for Secretariat clerks, & is apparently to meet. I would report the Secretariat's accepting the charge

Submitted to the Chief Secy.
with reference to the notes overleaf.
It is more to the interests of
the Military than the disinfectants
should be used as the civil population
occupies the Fort for a portion ^{only} of the
day hours. The sanitation ^{of the latrine} has been
turned over to the Ind authorities
and if their disinfectants are
not sufficient they should, it is
submitted, get more themselves. The
supply of disinfectants is part of
the service the Military authorities
have taken over
