JUNE.

Public Buildings.

Communicating to the heads of departments under the Public Department Proceedings, Public Works Department, directing that whenever Superintending Engineers, during their tours of inspection, have occasion to remark on the condition of any public building, they should forward an extract of their inspection notes concerning that building to the senior officer of the department occupying that building, in view to his taking such action as may be necessary.

READ—the following paper :—

G.O., No. 1250 W., dated 17th May 1898.

Read—the following paper :—

Inspection notes of J. HANNAN, Esq., Superintendent Engineer, II Circle, for February 1898.

* * * * *

21st.—Inspected Taluk Cutcherry (at Kavali).

Old Native building built in Native Choultry style.—Low and dark. Little court inside intended for light and air, occupied by the treasury room. Accommodation quite inadequate especially as regards records; altogether about as bad a specimen of the cutcherry of the old style as I have seen. A new cutcherry badly required indeed. Treasury room not safe, people doing business have to come inside and treasury might be rushed. The following new buildings have been built in the compound; all crowded together: sub-jail, cook-house, latrine, sub-registrar's office; and outside the compound a ryot's shed, but intended for a latrine. The materials of all these buildings including the stone which is cut-laterite could be utilized in a new cutcherry.

Memo. No. 28 D.

Copy of the last paragraph of inspection notes of the Superintendent Engineer, II Circle, for February 1898, is forwarded to the Revenue Department for information.

18th April 1898.

(Signed) W. B. DEWINTON,
Ag. Secretary to Government.

OFFICE NOTE No. 42.

With reference to the endorsement from the Public Works Department, No. 28 D., dated 18th April 1898, forwarding an extract from the inspection notes of the Superintendent Engineer, II Circle, regarding the condition of the taluk cutcherry building at Kavali, the undersigned has the honour to state that, in such matters, the proper course would be for the Superintendent Engineer to send a copy of his report to the Collector who will initiate such action as may be necessary.

7th May 1898.

(Signed) G. S. FORBES,
Ag. Secretary to Government.

To the Secretary to Government, Public Works Department.

Order—No. 1250 W., dated 17th May 1898.

Communicated to Superintending Engineers for information and guidance.

2. Whenever Superintending Engineers, during their tours of inspection, have occasion to remark on the condition of any public building, they will forward an extract of their inspection notes concerning that building to the senior officer of the department occupying the building, in view to his taking such action as may be necessary.
