GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—again the following papers:—

G.O., No. 800, Public, dated 3rd August 1896.

G.O., No. 1006, Public, dated 28th July 1897.

ABSTRACT.—Referring back, with remarks, to the Surgeon-General and the Inspector-General of Police the proposals for the re-organization of police hospitals, and requesting those officers to submit a joint report, based on instructions given, which should show the improvements and alterations really needed.

READ—also the following papers:—

From the Surgeon-General, dated 8th October 1897, No. T-5—12.

ABSTRACT.—Forwarding through the Inspector-General of Police letter from the Agent to the Governor in Ganjam reporting on the suggestion of throwing open the police hospital at Ballaguda to the general public.

From the Inspector-General of Police, No. 3788, dated 19th October 1897.

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Chief Secretary to Government (through the Inspector-General of Police), dated Madras, 6th November 1897, No. 432.

With reference to G.O., No. 1006, Public, dated the 28th July 1897, regarding the re-organization of hospitals for the police, I have the honour to submit the following suggestions which I now make after personal consultation with the Inspector-General of Police and consideration of the order under reference.

2. (a) In my opinion it is most desirable that there should be a properly equipped police hospital at the head-quarters of each district under the charge of the District Medical and Sanitary Officer, but this cannot be carried out completely at present, as there is a good hospital at Chittoor (North Arcot) under the charge of the Civil Surgeon, another at Chatrapore (Ganjam) under the charge of the Civil Surgeon, and one at St. Thomas' Mount (Chingleput) which I have already proposed to Government should be under the Regimental Medical officer at that station. The hospital for the Nilgiris is at Ootacamund under the Civil Surgeon.

(b) That in some instances where it is impossible to send the sick into

* 1. Kollegal.	7. Cumbum.	13. Ongole.
2. Satyamangalam.	8. Nandyal.	14. Coonoor.
3. Aska.	9. Ramnad.	15. Gudalur.
4. Chacacole.	10. Manantoddy.	16. Hosur.
5. Russellkonda.	11. Manjeri.	17. Parvatipuram.
6. Parakkimedi.	12. Vayittiri.	

† 1. Chingleput.	4. Guntur.	7. Tellicherry.
2. Conjeevaram.	5. Cannanore.	8. Ongole.
3. Cocanada.	6. Palghat.	9. Vizianagaram.

C it will be seen that the marginally-noted † ones are proposed to be done away with.

(c) That in the marginally-noted isolated places, there should be properly equipped hospitals in charge of a duly qualified medical man (see my letter, No. 26, dated 15th January 1895), and that part of the charges of the establishments for these hospitals should be met by the local bodies concerned or from Provincial funds or Agency charges.

3. *Establishments*.—I attach (appendix C) a statement showing the present and the proposed establishments for these hospitals and wards.

(a) All head-quarter hospitals should have one 3rd-class hospital assistant in sub-charge. I consider this most desirable if the hospitals are to be properly worked and the sick efficiently looked after. It is quite impossible to expect this to be done by men who have considerable responsibilities elsewhere and the fact is that where there has not been a medical subordinate in sub-charge of the hospital, the sick have not been properly attended to and the hospitals have generally been carried on without any respect to discipline. It was my observation of these facts that first led me to raise the question of re-organizing these hospitals. In cases where the medical officers in charge find that these medical subordinates have spare time in the day time, their services might be utilised in the nearest municipal hospitals or dispensaries but this should not interfere with their living at the hospital being always present for night duty, being in the hospital from 6—30 to 8 A.M. and from 5 to 6 P.M. daily, attending on the females of the police establishment in the lines, and performing the sanitary duties connected with the lines.

(b) A ward attendant (caste man if possible) and a sweeper are also required. The rates of pay of the former might be fixed from Rs. 6 to 8 a month and of the latter from Rs. 5 to 7 a month according to local circumstances.

(c) A waterman should alone be sanctioned where there are actual difficulties about obtaining water.

(d) I would like to see a caste cook attached to each head-quarter hospital in order that the sick could be dieted. I understand from the Inspector-General that this has been carried out in the North-West Provinces with great benefit to the sick and greatly in the interests of discipline.

(e) The wards for police sick as a rule only require the services of a toty or sweeper who should be paid according to local circumstances.

(f) The special police hospitals should be dealt with as suggested in appendix C (in column "remarks").

4. *Equipment*.—The scale of equipment has been carefully reconsidered. Appendix A shows what is now considered necessary for a head-quarter or an isolated police hospital, and appendix B shows that required for a ward for police sick. As a matter of fact these lists are for future guidance, most of the hospitals and wards being already equipped. In many cases the surgical instruments and appliances are now considerably in excess of requirements and the surplus will have to be returned into stores as no longer required.

5. As regards the hospital at Ballaguda, I have already addressed Government on the subject in my letter, No. T-5—12, dated 8th October 1897, submitted through the Inspector-General of Police.

6. The report of the Agent to the Governor in Ganjam on the Udayagiri hospital has not yet been received; when it is, I shall submit it with my remarks through the Inspector-General of Police.

No. 4124.

Forwarded. The Inspector-General went through each point with the Surgeon-General and agrees with the proposals now made. The only point on which the Government is likely to object to the present proposal is the employment of the 3rd-class hospital

assistant on Rs. 30 at head-quarter hospitals. The Inspector-General agrees with the Surgeon-General on the point, viz., that it is most advisable to have such a medical attendant at all the head-quarter hospitals. The increased expenditure is not large and when the new railways enable the hospitals mentioned in paragraph 2 (b) of the Surgeon-General's letter to be closed, there will be a considerable decrease in expenditure. It is important that the police in a police hospital should receive more attention than they do at present and one result will probably be a decrease in the number of police who go to hospital. There will be less malingering with better medical care.

As regards the provision of a cook, it would be a great advantage to supply one to each hospital. In Bengal, the Inspector-General understood the arrangement to be that, when in hospital, each constable gives up half his pay. He is then fed entirely from Government funds and allowed to have whatever the medical attendant orders in the way of food. At present, the benefits of hospital treatment are very much diminished owing to the constables being obliged to feed themselves, often leaving the hospital in the middle of the day for food and, of course, taking, as often as not, food which is very bad for them. With a cook, this could be altered. At present, it is probably not advisable to try the experiment which would cost something more than is now spent. The Inspector-General would, however, like to see the experiment tried in three or four of the larger hospitals. The cost of the food supplied would be met from contingencies, half the constable's pay being deducted to meet the charge.

MADRAS,

From the Surgeon-General, dated Madras, 27th May 1898, No. T-147.

ABSTRACT.—Stating that the present arrangement of charging the police hospital at Ramagiri-Udayagiri with the entire cost of treating the civil sick does not appear satisfactory, and suggesting that the total cost of the institution be divided equally between the Agency and the police, and proposing that this institution should be placed in charge of an apothecary.

From the Inspector-General of Police, dated Madras, 4th June 1898, No. 2046.

ABSTRACT.—Stating that the Inspector-General agrees with the Surgeon-General in considering that the total cost of the police hospital at Ramagiri-Udayagiri may be divided equally between the Agency and the police.

ORDER—No. 844, Public, dated 4th July 1898.

In G.O., No. 1006, Public, dated 28th July 1897, the Surgeon-General was desired to revise his scheme for the re-organization of the establishment of police hospitals, framing his proposals with reference to the actual requirements of each institution, and not with a view to uniformity. It was further requested that in recommending a whole time hospital assistant for any hospital, he should explain fully the circumstances under which he made the proposal. In the present letter the Surgeon-General has not complied with these instructions. Uniformity is still the basis of his proposals. The Government is under the circumstances unable to sanction the additional expenditure proposed, the necessity for which has not been shown, and the police hospitals must therefore remain upon their present footing. The scale of equipments has been slightly modified; but, in the opinion of Government, it is still far in excess of actual requirements, and in this respect also the existing arrangement must therefore continue.

2. His Excellency the Governor in Council is unable to approve of the proposal now put forward that a cook should be engaged for each institution, and the patients dieted within the hospital. It is impossible to stop half the pay of a constable on Rs. 7 or Rs. 8 per mensem without running the risk of leaving his family insufficiently provided for.

3. Turning to the other proposals made in the Surgeon-General's letter, No. 172-Tour, dated 6th June 1896, the Government does not approve of the suggestion in paragraph 5 to fix at Rs. 5 per mensem the contribution to be paid by Government to local bodies towards the pay of the medical subordinate. The proposal in paragraph 6 to hand over police wards and their equipment to the local and municipal hospitals to which they are attached, is sanctioned.

4. In paragraph 7 the Surgeon-General proposes that six police hospitals in the interior parts of Ganjām, Vizagapatam and Malabar should be placed in charge of an apothecary. The hospital at Vizianagram will shortly be closed, and no orders regarding it are therefore required. The Government does not consider that any revision of the scale of establishment is necessary in the case of the other hospitals. The employment of an apothecary at Ballaguda and Koraput appears to be desirable, but for the other hospitals a hospital assistant should be sufficient.

5. The Government approves of the proposal to throw open the police hospital at Ballaguda to the public and to share the cost of the establishment with the Agency. The scale of pay required for the menial servants being purely a question of local knowledge, the Agent's proposals should be followed. The small expenditure required for structural alterations in the hospital may be incurred.

6. With regard to the hospital at Udayagiri the Government has no objection to the proposal that Agency funds should bear half the cost of the institution.

Madras.

Dated Chattrapur ^{22nd July} ~~August~~ 1897.

Sir

With reference to para 3 of G O No 16068
7-10-96

A

I have the honor to state that I have consulted with the Inspector General of Police on the question of throwing open the Balliguda Hospital to the General public, and that he has no objection to handing over the building provided that he can retain one of the two wards for Police patients. I therefore request that Government will be pleased to sanction the proposal and provide an annual grant of Rs 1187 on account of the undiminished charges for the proposed civil hospital. The institution is at present in charge of an Apothecary on Rs 175 per mensem including his allowances with a waterman and sweeper on Rs 4 and 3 each. I propose that $\frac{3}{4}$ of the pay of the Apothecary and half of the salaries of the waterman and sweeper shall be borne by the Police, charging the remainder to Agency. A cook on Rs 5 per mensem will be required.

the Civil inpatients, and as his services are not required for the Police hospital, I propose to charge the whole amount of his salary to Agency funds only.

The estimated cost of the Establishment and other charges will therefore be:—

Medical officers one fourth pay and allowance } 525-0-0

Diet of patients —

For 4 beds at the rate of Rs 5 per mensem for each bed — } 240-0-0

Miscellaneous charges including Country medicines at Rs 10 per mensem — } 120-0-0

European medicines — 200-0-0

Establishment:—

Pay of cook at Rs 5 per mensem — 60-0-0

Half of the salaries of the waterman and sweeper on a monthly salary of Rs 4 & 3. } 42-0-0

1187-0-0

OFFICE OF SURGEON-GENERAL

WITH THE GOVERNMENT OF MADRAS,

Madras, 3rd October 1897

C. B.
SURGEON-MAJOR-GENERAL C. SIBTHORPE, F.R.C.S.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

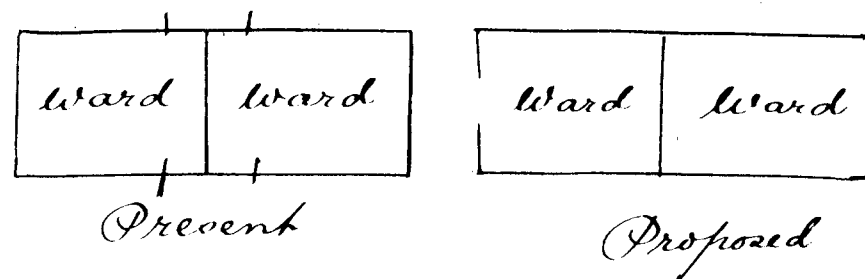

Public DEPARTMENT.

SIR,

In forwarding the accompanying communication from the Agent to the Governor, Ganjam, regarding the suggestion to throw open the Police Hospital at Balliguda to the general public, I have the honor to state that I agree with his proposals. The out house attached to the Police Hospital which is now used as a Lumber and Straw Store room should be handed over and altered so as to serve as a dispensary and Store room for medicines. The wards should also be slightly altered by partly building up the four side doors converting the upper half of each into a window and opening one door at the end of each ward; this will permit of more superficial floor

Public

floor space being available, as will be seen from the sketch noted below:-

2. A sum of Rs 100 to Rs 150 will probably be sufficient to carry out these alterations.

3. The estimated cost of the establishment and other charges for the proposed Civil Hospital will be Rs 1217 and not Rs 1187-0-0 as stated by the Government Agent as particularized below:-

Rs - Ann - P.

Medical Officer one fourth pay and allowance. 525-0-0

Diet of patients-

For 4 beds at the rate of Rs 5 per mensem } 240-0-0
for each bed

Miscellaneous charges including country } 120-0-0
medicines at Rs 10 per mensem.

European Medicines 200-0-0

Establishment-

Pay of Cook at Rs 5 per mensem 60-0-0

Half of the salaries of the waterman and } 72-0-0
sweeper on a monthly salary of 5 Rs each
with hill allowance of Rupee 1 extra

1217-0-0

Di No 53 of 1897.

566

From

H. D. Taylor Esquire
Agent to the Government in
Ganjam.

To

The Chief Secretary to Government
Public Department
Fort Saint George.

Dated camp Pothiribund 18 February 1898.

Sir

I am returning herewith the enclosure to Government memorandum (Public Department) No 2823 dated 22nd December 1897, I have the honor to state that the rates quoted for the waterman and cook sweepers at the Balligoda Hospital were not the rates actually sanctioned according to the existing scale of establishment as a police hospital, but the rates proposed for the revised establishment, should the status of the Hospital be changed from that of a police Hospital to that of a Civil Dispensary.

2. I am unable to see why a sweeper, why a sweeper, who can be procured locally should obtain a hill allowance. The sweeper of the Saluk Office at Balligoda gets only Rs 5/- per mensem with warm clothing but no hill allowance. The reserve sweepers get Rs 4 each.

Yours

The present waterman is an Urja Brahmin, the brother of a Mahajant Bulliguda, and not specially imported from the low country but it would be quite easy to obtain a local man of the lowdoos caste for this work at Rs 4 or Rs 5.

The cook on the other hand must be a Brahmin and after local enquiring I think that his pay might be fixed at Rs 6.

I would therefore now propose the following revised rates of pay, should the Police Hospital be converted into a Civil Dispensary.

Cook Rs 6.00
Waterman Rs 4.00
Sweeper Rs 4.00

The salaries of the present sweeper and waterman are unnecessary high.

I would note that the proposals now before Government, merely provide for two wards for inpatients - one for Police and one for civil, the present out-house being converted into a dispensary room - certain alterations being made in the doors of the present building at a total estimated cost of Rs 150.

No provision has, however, been made for a female ward. Should the Hospital be converted into a civil dispensary, I consider that a new block of building containing a female ward and dispensary room should be constructed as soon as financial considerations admit of the same. For the present, however, the construction of the building may be postponed. I have the honor to be Sir

Yours most obedt Servt

Left Camp Purushokkapur 11th March 198-

Sir,

Sir,
With reference to the latter portion of G.O.
No 1006 dated 25th July, 197 and reminder thereto,
Memo No 561 dated 2nd Instant, I have the
honor to state that I do not exactly understand
the nature of the reference.
There is only

2. At Kodayagere (Goomsur) there is only a single Hospital building under a single medical officer both for Police and civil patients.

3. At Ramajiri-Udayajiri there are two separate buildings for police and civil respectively, but they are both under the charge of a single medical officer, and I have nothing to urge in favour of any change in the existing condition of affairs.

I have the honor to be
 your most ^{sir} obedient son

MADRAS, *May* 1898

From

SURGEON-MAJOR-GENERAL G. SIBTHORPE, C.B., F.R.C.P.I.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

Public DEPARTMENT.

SIR

With reference to ~~your~~ endorsement No. 807, dated the 26th March 1898 on Public Current No. 1055, herewith returned, I have the honour to state that the Police Hospital at Ramgiri Udiagiri is now in charge of a third class Hospital Assistant and both the police and the civil sick are treated at this institution in separate buildings set apart for the purpose.

2. The following table shows the number of sick treated during 1897-98.

	In-door	Out-door.
Police ...	24	156.
Civil ...	73	3804.

3. The expenditure incurred on account of establishment, medicines, Diet, &c., has been met from the budget allotment of the Police and occasionally a few rupees have been obtained from the special ~~establishment~~ Assistant Agent for bedding and clothing required for the use of the civil sick.

4. The present arrangement of charging the Police Department with the entire cost of treating the civil sick does not appear satisfactory. I would therefore suggest that the total cost (including establishment, medicines,

diets

diets &c.) of the institution be divided equally between the Agency and the Police.

5. As pointed out in my letter No. 432, dated the 6th November 1897, I consider that this institution should be placed in charge of an Apothecary on receipt of Rs. 75 in addition to a charge allowance of Rs. 50 per mensem.

I have the honor to be,

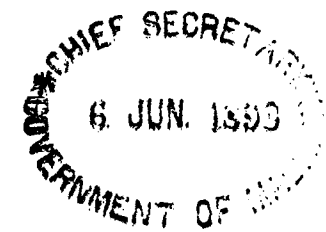

Your most obedient servant,

SUBJECT.

~~HIS EXCELLENCY THE GOVERNOR~~

THE HON'BLE SIR HENRY BLISS, K.C.I.E.

~~THE HON'BLE MR. CROSS, C.I.E.~~

Reorganization of Police Hospitals

FOR ORDERS.

In G.O.No.1006 Public, d/28th July 1897, Govt. referred back to the Surgeon General and the I.G. of Police the proposals made by those officers for the reorganization of the Police hospitals throughout the Presidency. Govt. observed that in those proposals everything appeared to have been sacrificed to secure uniformity. In the G.O. quoted three points were mentioned, with special reference to which the revised proposal should be made. ~~They were~~

(1) Govt. declared that it could not approve of the proposal to place each Headquarter police hospitals under the independent charge of a third class hospital assistant except in hospitals where the work was sufficient to occupy the medical subordinate's full time. The Surgeon General was accordingly told that in recommending a full-time hospital assistant for any particular hospital, he should explain fully the circumstances of the case;

(2)

✓ 2

(2) With regard to the number and pay of the menial establishment, the Surgeon General was told that instead of being uniform, ~~these~~ should be graded according to the size of each hospital, the amount of work to be performed, and the rates of pay prevailing locally; and

(3) the scale of equipment suggested was considered far too costly and the Surgeon General was requested to revise it.

The reports of the Surgeon General and the I.G. of Police have now been received, as well ^{communication} ~~as~~ from the Agent in Ganjam on the subject of the ^{Bellipada} Udayagiri hospitals

With regard to the first point raised in G.O.No.1006 Judicial, i.e. the appointment of Hospital Assts. to each headquarter hospital, the Surgeon Genl. now reiterates his former proposal. He explains in paragraph 3 of his letter d/6th November that he wishes to have a man who should live at the hospital, be always present for night duty and from 6-30 to 8 A.M. and from 5 to 6 P.M. He does not object to ^{his} ~~their~~ services during the day being utilized in the nearest municipal hospital or dispensaries. The I.G. supports the Surgeon-General's view. He urges that the police hospitals should receive more attention than they do now, and considers that ^{the} ~~an~~ result would probably be less malingering, better medical care, and eventually a decrease

3

3

decrease in the number of persons who go to the hospital.

The statement at flag E shows the cases in which the S.G. desires to replace a part-time by a full-time officer, but he has not, as desired, discussed each case in detail.

The following are the institutions in which it is proposed to place a 3rd clas hospital Assistant on Rs. 25+ Rs. 5 (charge allowance) ^{maliad} ~~the same~~ leaving them under the care of an officer with other duties, who receives either a small allowance or no remuneration at all, from the Police Dept:-

- Anantapur
- Chittoor
- Mangalore
- St. Thomas Mount
- Cuddapah
- Chatrapur
- Rajamundry
- Masulipatam
- Guntur
- Nellore
- Tanjore
- Vizagapatam

The arrangements at present subsisting in these cases are detailed below.

A N A N T A P U R.

24 beds with an average of 6.50 sick. In charge of an Assistant Surgeon, who also looks after the municipal hospital.

C H I T T O O R.

24 beds with an average of 5.90 sick. In charge of the Civil Surgeon.

With reference to this, please see H.M's. note flagged B in which it was remarked that "Chittoor is a very small place

4
place and if the Civil Surgeon did not look after the police hospital, it is difficult to know what work he would have to do". The Vellore hospital having been closed (G.O.No.800, dated 3-8-96 C) the number of patients in this hospital may be expected to increase.

MANGALORE.

15 beds. 6.86 daily sick.

~~Under the~~ The list submitted by the Surgeon-General shows the appointment of a full-time hospital Assistant to be a new departure, but according to the list previously submitted, and the report on police hospitals for the year 1896-97, a full time first class hospital assistant is already in charge there.

ST. THOMAS MOUNT.

It is proposed to build here a separate hospital for the police. When this institution is ready, the hospitals at Chingleput and Conjeeveram will be abolished - vide G.O.No.800, dated 3rd August 1896. Meanwhile the present arrangements may, it is submitted, continue and the question of the establishment of the new hospital may be considered later. This hospital has therefore been omitted from the present calculations.

C U D D A P A H.

10 beds. Average daily sick 7.

In charge of a first class hospital assistant,

5
assistant, who also does duty in the municipal hospital.

C H A T R A P U R.

14 beds. Average daily sick 6.04.

In charge of a first class military Asst. Surgeon. In the report for 1895-6 this hospital was shown as in charge of the Civil Surgeon, and H.M.'s. remarks quoted above with regard to Chittoor are also applicable to Chatrapur.

R A J A H M U N D R Y.

30 beds. 4.86 average daily sick. In charge of an Assistant Surgeon who has also duties in the Municipal Hospital.

M A S U L I P A T A M.

13 beds. 4.85 daily sick. In charge of an Assistant Surgeon who has also duties in the Municipal Hospital.

G U N T U R.

14 beds. Average daily sick 6.98.

In charge of the Civil Surgeon. The Surgeon-General now proposes to place this hospital under a third class Hospital Assistant. He states however that this institution will be abolished when the railway reaches Masulipatam.

With regard to this hospital it is to be observed that Guntur is not the headquarters of a district, and there is a municipal hospital there. There seems therefore to be no reason why a separate hospital assistant should be provided,

provided, ~~and~~ ^{this institution} why should not be managed in the same way as other hospitals in places which are not the headquarters of districts, that is by a Medical officer with other duties.

NELLORE.

18 beds. 8.76 sick. In charge of a first class hospital assistant who has also duties in the Municipal Hospital.

TANJORE.

16 beds. 4.07 sick.

In charge of a first class hospital assistant who also acts as Medical School Assistant.

VIZAGAPATAM.

12 beds. 4.46 sick.

In charge of a third class hospital assistant who also has duties in the Municipal hospital. The extra expenditure involved in these hospitals by the Surgeon-General's proposals is as follows:

	Rs. per mensem
Anantapur...	+ 30
Chittoor....	+ 30
Mangalore...	+ 20
Cuddapah....	+ 20
Chattrapur...	+ 30
Rajahmundry.	+ 15
Masulipatam.	+ 30
Guntur.....	+ 30
Nellore.....	+ 20
Tanjore.....	+ 30
Vizagapatam.	+ 30
	<u>Rs. 275</u>

** the increase is Rs. 90. but a compromise of Rs. 15 will be dispensed with.*

In addition to these hospitals the Surgeon-General's proposals will lead to an increase in cost in the following institutions:-

Madura...	Rs. 5
Salem ...	Rs. 5
Palamcottah	Rs. 5

These ~~sums~~ ^{institutions} representing the charge allowances to be paid for independent charge. The total cost of this portion of the scheme will therefore be Rs. 290 per mensem.

The list at E however shows savings in the case of the following hospitals, consequent of the substitution of a third class Hospital Asst. for an officer of a higher class:-

	Rs.
Cuddalore...	25
Bellary.....	25
Coimbatore..	25
Kurnool.....	25
* Calicut.....	25
* Ootacamund..	25
* Trichinopoly	25
	<u>Rs. 175</u>

In the case of all these institutions except Calicut and Ootacamund the report for 1896-97 shows that a 3rd class hospital Assistant was in charge during that year. The Surgeon-General's list states under "present establishment" that a first class hospital assistant is in charge. In this connection please see page 7 of the note for orders at B. If the present list ~~states~~ states correctly the class of hospital assistant in charge in these cases, it is obviously merely an accident that they are ~~all~~ of the first class. Their places may at any time be taken by men of a lower class, and the saving is therefore only apparent and not real. It is however suggested by the I.G. the cost of strengthening the head quarter hospitals will be to some extent repaid by the closing of certain hospitals in other places, which will be possible.

will possible shortly when these places are connected with head-quarters by rail. The Surgeon-General mentions nine such institutions. (para. 2(b) of his letter at B) but it is to be observed that the closing of the hospitals at Chingleput and Conjeeveram has already been ordered and is merely awaiting the erection of a hospital at St. Thomas Mount, and has nothing to do with railway communication, while the closing of the Vizianagram hospital has also been decided upon. The Palghat hospital may, the Surgeon-General says, be closed at once, the sick being transferred to Calicut: this it is submitted may be approved.

The question for orders now is whether Govt. will accept the S.G.'s principle, and consent to uniformity in all head-quarter hospitals.

It is plain from the present report that in some at least of these institutions the police work will not supply full employment for the hospital Assistants. In this respect therefore the conditions laid down by Govt. in G.O.No. 1006 of 1897 are not fulfilled. The Surgeon-General now explains that he does not mean that the hospital assistants should spend their day in idleness, but proposes to employ them in the municipal hospitals. One of the main objections to his scheme thus disappears. At the same time it is to be observed that if the Police Hospital Assistant is to have other work, the advantage of the scheme

For orders.

11/1/98. Yes

11/1/98. Yes

scheme in the case of such hospitals as Cuddapah and Nellore is not apparent. There are at present 1st class hospital Assistant who works also in the Municipal Hospital. He will still have to be paid by the Municipality while an extra man be employed by the police. It would seem to be worth while to enquire, this and similar cases, whether arrangements could not be made whereby the present hospital Assistant could live at the police hospital and still do his work for the Municipality. In that case one man would be employed instead of two.

Again, with regard to Tanjore, the present first class hospital assistant is described as also an Assistant in the local Medical School. The Police Dept. contributes only an allowance of Rs. 10. The man's duties in the Medical School will probably allow him to fulfil the condition required by the S.G. in para. 3(a) of his letter. In this case therefore it seems unnecessary to employ an extra man. ~~to employ an extra man.~~

Menial Establishment:- With regard to this, the S.G.'s original proposal was that it there should be a ward attendant on Rs. 8 and a sweeper on Rs. 6 for each head-quarter hospital. Now now modifies this so far as to suggest that the rates of pay for the attendant should be fixed at from Rs. 6 to Rs. 8, and for the sweeper from Rs. 5 to Rs. 7 a month, according to local circumstances

para (1) of his letter in G.O. No. 3/8/96

EQUIPMENT.

He now submits two separate lists, one of articles required in police wards attached to larger hospitals, and the other for separate institutions. ~~The latter is, with very few omissions, the same as before.~~ Such articles as the electro magnetic apparatus

apparatus

The Agent considers S.A. 3 & 4 sufficient for the present - it is present they get S.A. 3 each, with a full allowance of S.A. 4. The Agent may be right, but it is perhaps unnecessary to reduce the pay of the present incumbents, especially as their work is about to be increased. On the other hand the Agent suggests S.A. 3 for the cook. There seems however to be no reason why the S.A.'s proposal, and S.A. 3 for this current, should not be accepted as it stands. The Agent asks for an annual addition to the Agency grant of the sum necessary to ^{meet} this new expenditure. He also suggests that when money is available a female ward will be a convenience.

With regard to Udayagiri it appears that the Police Hospital there now receives a large number of civil patients, whose cost is charged to the Police. This seems wrong, and it is submitted that the proposal of the S.A., supported by the S.C., that Agency Dues should bear half the cost, may be accepted.

Orders are solicited.

AK
14/6/98

16/6/98

The S.G. is on his usual tack, and as much as possible. He has not made an attempt to comply with orders dealing with each case separately. When it refers all addl expenditure, which cannot be met by the Agency, should be met by the Government. ^{AK}

The Agent presumably knows best about this. ^{AK}
a purely local question.

This is for the present response to the present S.A. budget. ^{AK}

I should see how the male hospital worked before committing myself to this. This is the cost of the Agency management. The Agents don't have to find funds. Local S.A. have, some always, to make proposals for spending this. ^{AK}

On 1799 (flag P)

There is no objection to this. His answer accounts for this. ^{AK}

4/6 P.S.

No. 844, 214th July 1898

In G.O. No. 1006 Pub., d/28th July 1897, the S.G. was desired to revise his scheme for the reorganization of the establishment of police hospitals, framing his proposals with reference to the actual requirements of each institution, and not with a view to uniformity. It was further requested that in recommending a whole time hospital Asst. for any hospital, he should explain fully the circumstances under which he made the proposal. In the present letter the S.G. has not complied with these instructions. Uniformity is still the basis of his proposals. The Govt. is under the circumstances unable to sanction the additional expenditure proposed, the necessity for which has not been shown, and the Police hospitals must therefore remain upon their present footing. The scale of equipments has been slightly modified but, in the opinion of Govt., it is still far in excess of actual requirements, and in this respect

respect also the existing arrangement must therefore continue.

2. I.E. the Governor in Council is unable to approve of the proposal not put forward that a cook should be engaged for each institution, and the patients ^{within} the hospital. It is impossible to stop half the pay of a constable on Rs.7 or Rs.8 ^{per mensem} without running the risk of leaving his family insufficiently provided for.

3. Turning to the other proposals made in the S.G.'s letter No.173 Tour, d/6th June 1896, the Govt. does not approve of the suggestion in para 5 to fix ^{at Rs 5 per mensem} the contribution to be paid by Govt. to local bodies towards the pay of the medical subordinate. The proposal in para 6 to hand over police wards and their equipment to the local and municipal hospitals to which they are attached, is sanctioned.

4. In para 7 the S.G. proposes that six police hospitals in the interior parts of Ganjam, Vizagapatam and Malabar should be placed in charge of an apothecary. The hospital at Vizianagaram will shortly be closed, and no orders regarding it are therefore required. The Govt. does not consider that any revision of the scale of establishment is necessary in the case of the other hospitals. The employment of an apothecary at Ballaguda and Koraput appears to be desirable, but for the other hospitals a hospital

Asst.

Asst. should be sufficient.

5. The Govt. approves of the proposal to throw open the Police Hospital at Ballaguda to the public and to ^{share} ~~divide~~ the cost of the establishment ^{with} ~~between~~ and the Agency. The scale of pay required for the menial servants being purely a question of local knowledge, the Agent's proposals should be followed. The small expenditure required for structural alterations in the hospital ^{may be incurred} ~~is recommended~~.

6. With regard to the hospital at Udayagiri the Govt. has no objection to the proposal that Agency funds should bear half the cost of the institution.
