OFFICE OF SURGEON-GENERAL

No.

WITH THE GOVERNMENT OF MADRAS,

Madras, 10th July 1898.

From

SURGEON-MAJOR-GENERAL C. SIBTHORPE, C.B., F.R.C.P.I.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE ~~HONORABLE~~ SECRETARY TO GOVERNMENT,

Local and Municipal DEPARTMENT.

SIR,

In continuation of my letter No. 182 dated 10th June 1898, I have the honor to state that the total accommodation for small-pox cases in the General Hospital consists of two wards, one of six beds and the other of three beds, usually restricted to the use of Natives and Europeans respectively. On the 31st March 1898, the European ward was occupied by two European females suffering from small-pox and one native female under treatment for chicken-pox, while in the Native ward there were four native men suffering from small-pox. Hence there was obviously no room for the two European men suffering from small-pox sent by Messrs. *Barney & Co.*

on that date.

Major General

Note
Please see page 9 of G.O. 821 Pub. J. S.G. 25/6/88
does not say whether there were any cholera patients on March 31st. He was asked w. O.M. 1174 to say how many patients there were in the

Solution wards (which include the cholera ward)
 He replied giving the number of patients suffering from contagious diseases. Poss. if he does not include cholera among contagious diseases, but if so his reply did not answer the question put to him in the O.M. If there were no cholera patients their sheds could have been used
