GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From the Surgeon-General with the Government of Madras, dated 9th July 1898,
No. T-279.

ABSTRACT.—Submitting the annual report and statistics of the civil hospitals and dispensaries in the Presidency of Madras for the year 1897.

ORDER—No. , Public, dated August 1898.

The Surgeon-General submits his note on the administration of the civil hospitals and dispensaries in the Presidency for the year 1897. The instructions of Government, in the review of the report for 1896, regarding the curtailment of certain statements and appendices have been carried out, and the report has been somewhat reduced in bulk. A new arrangement has been introduced under which the various subjects discussed are dealt with in order in the body of the report with reference to the statements appended. This is an improvement on the previous system, and is more appropriate to a "brief note" to which the annual reports are to be confined. Several changes, too, have been made in the appendices, four statements which appeared on last year's report (Appendices E, F, G and L) having been omitted, while the statistics of mortality among in-patients which were formerly given in the body of the report now form Appendix F.

2. The number of institutions at work during the last three years is shown in the following table :—

1895.	1896.	1897.
Number at work on the 31st December 1894 473	Number at work on the 31st December 1895 486	Number at work on the 31st December 1896 475
		Newly opened 6
		Closed 11
		Decrease 5
		Number at work on the 31st December 1896 470
		Number per 1,000 of population. .01

3. The following statement compares the work done in 1897 with that of the two preceding years :—

Year.	Number treated.			Ratio per cent. of women to men.	Mortality among in-patients.	Accommodation.			Surgical operations.	Diets.		Gross expenditure.
	In.	Out.	Total.			Number of beds available.	Average daily sick.	Percentage of beds occupied.		Cost per patient per diem.	Total cost of diets.	
1895..	38,422	3,800,932	3,839,354	43.63	5.89	3,060	1,696					
1896..	39,020	4,003,513	4,042,533	44.62	6.44	3,168	1,665					
1897..	44,222	4,048,329	4,092,551	43.12	8.04	3,177	1,812					

The figures for the Nellore Baptist Mission hospital, the absence of which was noticed in the order reviewing the report for 1896, have now been included, but it is observed that statistics of the work done by the London Mission dispensary at Jam-malamadugu, and by the Mission dispensary at Guntur are omitted. The Government is anxious that the statistics of the medical aid afforded to the public throughout the Presidency should be as complete as possible, and the Surgeon-General should address the Mission authorities with a view to obtaining full particulars in future.

4. There was a marked increase in the total number and in the daily average strength of in-patients, which is attributed by the Surgeon-General to the prevalence of famine and cholera. It is observed however that the increase was by no means confined to the tracts affected by those causes, but occurred in most districts.

5. Statement III shows the nature of the diseases treated during the year. It would be more convenient if this statement were so arranged that complete statistics for each hospital should appear in the same opening, as is the case on pages 72 and 73. Cases of malarial fever exceeded by 63,000 the number in 1896, and dysentery and cholera were far more common than in the preceding year, the increase in the number of patients treated for each disease being 13,000. To the prevalence of cholera must doubtless be attributed the rise on the death-rate from 6.41 in 1896 to 8.04 in the year under review: the latter is the highest rate of mortality since 1892. There were again two deaths from septic disease acquired in hospital. The number of deaths from such diseases acquired before admission rose, however, from 19 to 71, a remarkable advance for which no explanation has been suggested.

6. With the exception of the increase in malarial fever dysentery and cholera, already referred to, the number of patients treated for the various diseases remained much the same as in 1896. Debility was however treated in 19,988 cases as against 7,652 in the previous year, a result probably due to the existence of famine.

7. The statistics of operations performed continue to be satisfactory, and His Excellency the Governor in Council notes with pleasure the commendations bestowed by the Surgeon-General on the officers mentioned on page 10 of his report.

8. In dealing with Statement IV, which shows the classes and sexes of persons to whom medical aid was afforded, the Surgeon-General refers to the decrease in the number of children treated, which he is unable to explain. The Government observes however that under the orders of the Government of India, conveyed in G.O., No. 70, dated 22nd January 1897, the age below which persons treated should be reckoned as children was reduced to ten years. In his letter recorded in G.O., No. 1300, Public, dated 30th September 1897, the Surgeon-General reported that this change had already been brought into force, and it seems probable therefore that the decrease in the number of children is merely the result of the alteration in classification.

9. The statements dealing with finance show that while the total expenditure on medical institutions outside the Presidency Town increased by more than Rs. 40,000, the sum provided from Provincial, Local and Municipal funds rose by only Rs. 5,000. The difference is due to the large public subscription collected on behalf of the Mission hospital now in course of erection at Madura.

The expenditure on bazaar medicines shows a satisfactory increase, and the Government notes with approval that the use of indigenous drugs has been encouraged by the Surgeon-General.

The cost of diets rose from As. 1-11 in 1896 to As. 2 and 4th of a pie in the year under review. Considering the high prices which prevailed throughout the year, the smallness of this increase is satisfactory. It is remarked however that the districts most affected by famine are not those in which the highest average prevailed.

10. The list of special institutions in Appendix J exhibits several variations as compared with last year. The Jesuit leper hospital at Mangalore has been included for the first time, while one private and three mission dispensaries have been newly entered. The number of isolation hospitals provided for cholera shows a satisfactory increase.

11. Inspection work declined, 56 dispensaries being left unvisited as against 46 in 1896. This is attributed to the frequent changes in the District Medical Officers due to the absence of several officers on military and other duty. The Surgeon-General himself visited most of the districts in the Presidency during the calendar year.

12. The year under review was marked by events which threw upon the Medical Department an unusually severe strain. The requirements of the Military Department reduced considerably the number of Commissioned officers available for civil duties, and with famine and the possibility of plague to contend against, the administration was seriously handicapped. In spite of these difficulties the work of the department continued to be satisfactory, and His Excellency the Governor in Council desires to record his appreciation of the efforts which contributed to this result.

MADRAS, June 1898.

No.

From

SURGEON-MAJOR-GENERAL C. SIBTHORPE, C.B., F.R.C.P.I.,
Surgeon-General with the Government of Madras,

To

THE HON. THE CHIEF SECRETARY TO GOVERNMENT,
PUBLIC DEPARTMENT.

SIR,

I have the honour to submit to His Excellency the Governor in Council the Annual Report and Statistics of the Civil Hospitals and Dispensaries in the Presidency of Madras for the year 1897.

Statement I. (*Showing no. of Hospitals & Dispensaries*)

(1) The names of the Medical officers who held charge of the various districts during the year are shown in Appendix A, with dates giving particulars as to the cause of changes. The frequent changes in some of the districts, which could not be avoided, were anything but conducive to good administration or to the officers being able to gain the confidence of the public in their respective charges.

(2) Exclusive of four dispensaries temporarily closed, there were 466 hospitals and dispensaries at work on the last day of the year 1897 in charge of 466 officers and subordinates, against 475 institutions on the last day of the previous year. Full details as to the number in each district and the classes of officers and subordinates in charge thereof will be found in Appendix B. Government in G.O., No. 527, Public, dated 25th June 1895, was pleased to declare that "it is most undesirable to entrust even dispensaries to third-class Hospital Assistants if such a course can possibly be avoided." But Appendix B will show that 39 Government and 55 Local Fund employes of that grade were in charge of medical institutions at the close of the year. The decrease, as compared with 1896 (two only), would be greater, were it not for the fact that several female medical practitioners, who resigned their appointments, have been temporarily replaced by third-class Hospital Assistants. *This is curious - How can it be? No*

(3) Appendix C gives the total of menial establishment in each district, with particulars as regards the number of compounders, clerks, ward attendants, &c.

(4) One dispensary was opened and three dispensaries were closed during the year. Two hospitals were converted into dispensaries. Several dispensaries were closed for varying periods to allow of the Hospital Assistants in charge of them being employed on cholera and famine duties. The details of these proceedings are given in Appendix D. In Madura district the dispensary at Virupatchy was removed to Chattarapatty under G.O., No. 1850-L., Mis., dated 9th October 1896; and the dispensary at Thandikudy was retained under G.O., No. 1376-L., Mis., dated 20th July 1897.

Statement II. (*Showing no. of in-door & out-door patients treated*)

(1) The total number of patients treated during the year was 4,092,551 as compared with 4,042,533 in the previous year. Of the total 44,222 were treated

(b) Local diseases.

	1896.		1897.	
	Number.	Ratio per mille of total.	Number.	Ratio per mille of total.
Ulcers and diseases of skin ...	845,855	209.24	867,911	212.07
Diseases of the digestive system ...	592,010	146.45	595,061	145.40
Diseases of the eye ...	488,822	120.91	360,144	88.00
Diseases of the ear ...	217,747	53.86	232,538	56.82
Diseases of the respiratory system ...	149,006	36.86	155,760	38.06
Of which 'diarrhoea' contributed ...	30,649	7.58	36,263	8.86

(c) Poisons and poisoned wounds show a decrease which needs no comment.

(d) Injuries.—Classed as 'general' and 'local' yield a ratio per mille of 1.92 and 48.69, respectively, as contrasted with 1.82 and 47.98, the corresponding figures for 1896.

(e) Not diagnosed.—Very few cases occur under this heading, as I issued a circular in October last that the term should be limited strictly to those cases in which it was impossible to make a diagnosis.

The increase shown above under malarial fevers, dysentery, debility, ulcers and skin diseases, and diarrhoea are attributable to the conditions of scarcity and famine generally prevalent.

(2) EPIDEMICS—(a) Plague.—Under the Epidemic Diseases Act, 1897, plague inspection stations were opened at Guntakal (14th February), Podanur (2nd March), Arkonam (16th March), Kondapalle (14th April), and Hospet (1st November). A retired Military Assistant Surgeon was placed in charge of each, with adequate subordinate medical and menial staff to carry out the regulations; 4,721 trains were inspected, and a daily average of 3,313.6 passengers examined; 27,231 persons were noted as passing through from plague-infected areas, and, of those, 676 were detained for observation. Only two cases of plague came under treatment, one at Guntakal, which proved fatal, and the other at Arkonam, which coming under treatment sufficiently early, recovered.

(b) Cholera.—During the year 1897 cholera existed in an epidemic form throughout the Presidency, excepting in the Nilgiris. Ganjam, Malabar, Madura and Tanjore suffered most; the remaining districts were attacked in varying degrees, South Canara being least affected. 23,500 cases were treated as in- or out-patients in the various hospitals and dispensaries of the Presidency.

(c) Small-pox.—Cases of small-pox occurred in all the districts, but with marked severity in Ganjam. In Salem the patients did not seek medical relief. A total of 211 cases was treated throughout the Presidency, of which number Ganjam contributed 61.

The rules laid down in G.O., No. 1028, L. & M., dated 26th June 1895, were carried out by Local Boards and Municipalities, and the spread of infection was prevented as much as possible.

Statement III-A (Showing Results of Surg. Operations by Medical & Subordinate Staff)

(1) 150,766 operations were performed upon 145,528 persons during the year. The details as to their nature are given in the annexed statement. Of the total number operated on (including 592 remained from the previous year), 93.16 per cent. were cured of their ailments, 5.52 were temporarily relieved, and 0.13 per cent. died after operation. The corresponding figures for 1896 were: 143,770 operations performed upon 142,435 persons; cured 93.16 per cent., relieved 5.28, and died 0.15.

(2) The subjoined statement shows the number of operations (in the 'selected list') performed by individual Medical officers and subordinates during the year. As ordered in G.O., No. 1385, Public, dated 14th October 1897, the list includes no officer below the rank of Assistant Surgeon:—

REPORT ON THE ANNUAL RETURNS

as in-patients, being an increase of 5,202 over the number so treated in 1896. The provision made in each district for in-patients, the percentage of beds occupied, and the average daily sick are detailed in Appendix E.

(2) The average daily attendance of patients during the year 1897, compared with that of the previous year, is as follows:—

Year.	In-patients.	Out-patients.	Total.
1896 ...	1,664.50	24,260.27	25,924.77
1897 ...	1,811.71	23,971.49	25,783.20

From this it will be seen that, though a larger number sought treatment than in 1896, the attendance at hospitals was not so regular or continuous as in that year. This is explained by the occurrence of famine and cholera; and the same reason accounts for the marked increase in the daily average of in-patients.

(3) Of the out-patients treated, 10.86 per cent. attended by proxy compared with 13.12 per cent. in the previous year.

(4) The ratio of deaths per cent. of total treated ranged from 2.53 in Salem to 20.46 in Ganjam and averaged 8.04 for the Presidency. Compared with 6.44 in 1896, the increase is to be accounted for by the prevalence of famine and cholera. In addition it may be noted that 2.38 per cent. of the cases seeking treatment were admitted moribund, as compared with 1.96 per cent. in the previous year.

(5) There were 3,557 deaths among in-patients. Appendix F gives the figures for each district. Only two patients are returned as having acquired septic disease in hospital; seventy-one cases sought treatment for such disease contracted outside. In every instance the patient was isolated while under treatment, and disinfection of the ward, bedding, &c., used was thoroughly carried out.

Statement III. (Showing Diseases Treated)

(1) The classes of diseases treated during 1897 and the more important in each class are compared with the corresponding figures for 1896 in the following tables:—

	1896.	1897.
(a) General diseases ...	1,172,987	1,297,140
(b) Local diseases ...	2,656,668	2,578,397
(c) Poisons and poisoned wounds ...	10,930	9,646
(d) Injuries ...	201,354	207,137
(e) Not diagnosed ...	599	231
Total ...	4,042,538	4,092,551

(a) General diseases.

	1896.		1897.	
	Number.	Ratio per mille of total.	Number.	Ratio per mille of total.
Malarial fevers ...	887,777	95.92	470,877	115.05
Worms ...	259,793	64.26	242,140	59.12
Rheumatic affections ...	186,820	46.14	188,568	46.07
Dysentery ...	62,270	15.40	76,811	18.52
Syphilis and gonorrhoea ...	71,654	17.72	75,310	18.40
Cholera ...	10,776	2.66	23,500	5.74
Debility ...	7,652	1.89	19,988	4.88

(3) I have great pleasure in bringing to the notice of Government the good work done in this branch by the following :—

Surgeon-Lieutenant-Colonel W. O'Hara,
Surgeon-Major J. C. Marsden,
Surgeon-Major C. Adams,
Surgeon-Captain R. H. Elliot,
Civil Assistant Surgeon A. P. Fernandez,
Civil Assistant Surgeon S. Kandayya Pillai, and
Civil Assistant Surgeon T. R. Lakshmana Perumal Pillai.

Statement IV

Statement IV gives details of the classes and sexes treated during 1897 in the various civil medical institutions of the presidency. The following tables compare the totals of the year under review with those of the previous year :—

	Total.		Ratio per cent.	
	1896.	1897.	1896.	1897.
Men	1,913,879	2,021,136	47.34	49.38
Women	854,098	882,584	21.13	21.57
Children	1,274,556	1,188,831	31.53	29.05
Total treated ...	4,042,533	4,092,551		
Europeans	10,436	7,818	0.26	0.19
Eurasians	43,407	42,522	1.07	1.04
Hindus	2,932,112	2,964,972	72.53	72.45
Mussulmans	518,705	513,065	12.83	12.54
Other classes	537,873	504,174	13.31	13.78

	Average daily attendance.		Ratio per cent.	
	1896.	1897.	1896.	1897.
Men	12,477.10	12,942.69	48.21	50.21
Women	5,930.41	6,022.39	22.92	23.35
Children	7,471.26	6,818.12	28.87	26.44
Total	25,878.77	25,783.20	...	

The decrease in the number of children treated, I cannot explain; but I note that it is most marked in those districts in which a fall occurs in the total number of European, Eurasian and Mussulman patients, as the following figures will show :—

District.	Decrease—as compared with 1896—in the total of			
	Children.	Europeans.	Eurasians.	Mussulmans.
Arcot, North	7,411	156	35	1,058
Arcot, South	5,452	90	806	2,084
Ganjām	6,126	201	410	436
Górávari	1,525	160	245	329
Nilgiris	744	522	533	208
Salem	4,125	747	454	

The decrease in European patients occurs in all districts except Anantapur, Kurnool, Tanjore, Tinnevely and Trichinopoly; Eurasians number less in South Canara, Chingleput, Nellore, Tanjore and the districts tabulated above; while the districts named in the table, together with Coimbatore, Cuddapah, Kurnool and Tinnevely, mainly contribute to the decrease in Mussulman patients.

Statement V.

(1) *Income*.—The income of the Civil hospitals and dispensaries for the year 1897 was derived from the following sources :—

	1896.			1897.		
	RS.	A.	P.	RS.	A.	P.
(a) From Government	97,288	15	11	91,703	0	10
(b) From Local Funds	6,43,712	11	7	6,41,927	1	1
(c) From Municipal and other funds	1,94,550	3	2	2,07,102	12	8
(d) From interest on investments	12,843	11	6	13,898	12	4
(e) From sale of securities or withdrawal of deposits	2,457	7	0	6,359	8	3
(f) From subscriptions	34,490	7	10	68,533	5	10
(g) For diet by paying patients	1,556	15	8	1,540	1	1
(h) From sale of medicines not supplied by Government	9,271	3	1	10,154	7	0
(i) Miscellaneous receipts	10,562	15	6	8,386	0	5
(k) Cash balance on 1st January	344	15	10			
Total	10,07,079	11	1	10,49,605	1	6

() The amount under *other funds* includes Rs. 15,668-14-2 collected mainly from mission funds.

(e) The increase under this item is due to the withdrawal of Rs. 3,000 as a loan to the Cuddalore Municipality to help that body in the repair of the hospital, under G.O., No. 1213-M., Mis., dated 15th May 1897. The whole invested capital (Rs. 1,400) of the Local Fund Hospital, Srivaikuntam, Tinnevely district, was drawn out to pay for sundry improvements and alterations to the building; and Rs. 1,720-8-3 was withdrawn for similar purposes on behalf of the St. Bartholomew's Hospital, Ootacamund.

(f) The *subscriptions* were very high on behalf of the mission hospital now being constructed at Madura, and amounted to Rs. 44,290-15-0.

(2) In the provincial contributions towards the pay of Medical officers, the following variations require notice :—

Anantapur.—A decrease owing to the removal of the Military Assistant Surgeon from Sir T. Munro's Hospital at Gooty, and his replacement by a Civil Apothecary.

Arcot, South.—The one-fourth contribution to pay of the medical subordinate at Tiruvannamalai has been reduced to one-eighth under G.O., No. 800, Public, dated 3rd August 1896.

Canara, South.—The increase is due to the expenditure on Amini-devi for the whole year as contrasted with only three months in 1896.

Cuddapah.—Some of the dispensaries having been closed in 1896, the Government contribution towards the others was less in 1897 than the total contribution in the preceding year.

Malabar.—The difference is due to the receipt of statistics from Minicoy.

(3) All the State institutions named in Appendix J, Duggirala Public Works Dispensary, St. Bartholomew's Hospital, and the Lawrence Asylum are wholly supplied with European medicines at the Government expense; Kodaikānal, Madura district, receives an annual grant of Rs. 120 for medicines.

(4) Recoveries from Government for dieting cases of wounds or injuries brought to hospital by the Police amounted to Rs. 2,979-12-0 as contrasted with Rs. 2,677-0-11 in 1896.

(5) Special allowances were granted to the following institutions :—

(a) Sir Thomas Munro's Hospital, Gooty, Rs. 1,599-6-11, under G.O., No. 446-F., dated 28th February 1884;

(b) Rānipétai Hospital, from Arcot Langarkhana Funds, Rs. 2,065-15-0, under G.O., No. 1688-F., dated 14th December 1872;

(c) Vellore Municipal Hospital, Rs. 2,200, under G.O., No. 167-F., dated 10th May 1867;

(d) Dowlaishweram, Górávari, Rs. 999-4-9, under G.O., No. 2,210-L. & M., dated 4th September 1891; and

(e) St. Bartholomew's Hospital, Ootacamund, Rs. 3,215-12-6, under G.O., No. 165-F., dated 9th February 1875.

(6) The large increase under *subscriptions* shows the success of the efforts made to collect them.

(7) Every patient that can afford to pay for his *diet* has been induced to pay for the same.

(8) The *sale of medicines* has realised Rs. 833-3-11 more than the amount obtained under this head last year.

Statement V, Part I.

(1) *Expenditure*.—The expenditure may be detailed as follows:—

	1896.			1897.		
	RS.	A.	P.	RS.	A.	P.
(a) Establishment	5,90,723	3	1	5,91,577	10	6
(b) Bazaar medicines	18,895	8	0	21,267	2	7
(c) European medicines	1,62,541	9	4	1,62,589	12	9
(d) Diet	73,871	13	6	85,479	0	1
(e) Miscellaneous charges	96,289	14	7	98,017	0	0
(f) Buildings	64,471	8	0	89,709	5	11
(g) Invested during the year	286	2	7	965	1	8
Total	10,07,079	11	1	10,49,605	1	6

(2) Waring's book on bazaar medicines has been supplied to all medical institutions, and the use of *indigenous drugs* has been encouraged, as the expenditure under that item will show.

(3) The details for each district under 'European medicines' are given in Appendix G; the totals for the presidency are as follows:—

	RS.	A.	P.
(i) Cost of local stores, with packing charges, &c. ...	41,952	3	10
(ii) Cost of European medicines	90,505	4	9
(iii) Cost of Surgical instruments and appliances	19,692	0	6
(iv) Repair of Surgical instruments and appliances	1,647	7	7
(v) Packing, exchange and deterioration charges on Europe stores	8,792	12	1
Total	1,62,589	12	9

The Government institutions, St. Bartholomew's Hospital, and the Lawrence Asylum were supplied by the Government Medical Store Depot; Messrs. Burgoyne, Burbidges & Co., London, supplied the Local Fund and Municipal institutions with European medicines, &c., except opium, tinctures and spirits, ethers and acids, which were purchased from local firms either at Madras or Bombay. Quinine and its alkaloids were obtained from the Government Factory at Nedivattam.

(4) *Diet*.—The average cost per patient per diem for the presidency was 2 annas and four-fifths of a pie as contrasted with 1 anna and 11 pies in the previous year; this was due to the rise in prices of food articles almost throughout the presidency. The following districts showed an increase over the figure for the presidency:—

District.	Average cost per diet.			Increase over the presidency average.		
	RS.	A.	P.	RS.	A.	P.
Bellary	0	2	3	0	0	2½
Chingleput	0	2	6	0	0	5½
Coimbatore	0	2	2½	0	0	1½
Cuddapah	0	2	1	0	0	0½
Ganjám	0	2	1½	0	0	0½
Gódvári	0	2	6	0	0	5½
Kistna	0	2	1½	0	0	0½
Kurnool	0	2	4½	0	0	3½
Nellore	0	2	6	0	0	5½
Trichinopoly	0	2	3½	0	0	2½

The average for Nilgiris was 4 annas and 3 pies. The local circumstances of this district are such as to preclude comparison with any other part of the presidency.

The attention of the District Medical and Sanitary Officers and Civil Surgeons has been drawn to the possibility of exercising greater economy under this item, and to the necessity of cutting down expenditure consistent with efficiency under other headings where there have been variations.

(5) *Buildings and repairs*.—(a) Sufficient budget provision has been made in all the districts for the usual annual repairs of hospital and dispensary buildings.

(b) Rs. 1,889-1-9 were spent on improving the hospital at Guntúr, and Rs. 41,450-15-5 were spent in the construction of a new Mission Hospital at Madura.

(6) A table giving the *cost per head* under each item of expenditure will be found in Appendix H.

(7) The expenditure in the following institutions is out of proportion to the medical relief afforded in them:—

Sriperumbúdur—Chingleput.—This has been reduced from the status of a hospital to that of a dispensary.

Chódvaram—Gódvári.—Though not much patronised by the inhabitants, the hospital is of use to the large police force.

Singarayakonda—Nellore.—The District Board proposed to close this dispensary from 31st March 1898. It is in a small village on the line of railway between Nellore and Ongole; a railway dispensary is at work in the place.

Statement V, Part II.

Funded Capital.				RS.	A.	P.
Balance on 1st January 1897	...	...	...	3,97,770	8	8
Invested during the year	...	...	...	965	1	8
Unexpended interest on capital	...	...	...	470	11	9
Withdrawn from funds	...	...	...	6,359	8	3
Balance on hand, 1st January 1898	...	...	...	3,92,846	13	10

The amount withdrawn is accounted for as follows:—

	RS.	A.	P.
For Cuddalore	3,000	0	0
For Srivaikuntam	1,400	0	0
For St. Bartholomew's Hospital	1,720	8	3
For Tenkási	175	0	0
For Kulittalai	64	0	0

The first three items are explained under statement V, 'Income,' paragraph 1; the others are accidental and could not be avoided.

Miscellaneous.

(1) Appendix J gives an abstract of the information furnished about *special institutions*, including—

- State institutions.
- Leper hospitals.
- Wards for venereal cases amongst females.
- Private institutions.
- Mission institutions.
- Railway institutions.

(2) *Famine works*.—In connection with these there were employed in—

	Medical subordinates.	
Anantapur	...	8
Bellary	...	20
Cuddapah	...	32
Ganjám	...	17
Kurnool	...	18
Vizagapatam	...	6

who treated 62,257 cases of disease (sore-eyes, indigestion, and such like minor ailments), occurring in the relief camps.

(3) *Isolation hospitals for cholera*, under G.O., No. 1028, L.M., dated 26th June 1895. Of these there are now available—

North Arcot—Vellore	...	...	...	...	...	...	...	2
Bellary—Adoni	...	...	...	...	...	...	...	1
Do. Bellary	...	...	...	...	...	...	...	1
Chingleput—Conjeevaram	...	...	...	...	...	...	...	1
Cuddapah—Cuddapah	...	...	...	...	...	...	...	1
Kistna—Bezawada	...	...	...	...	...	...	...	1
Madura—Madura	...	...	...	...	...	...	...	1
Malabar—Calicut	...	...	...	...	...	...	...	1

Do. Suramangalam	...	...	...	...	...	...	...	1
Do. Tiruppattur	...	...	...	...	...	...	...	1
Do. Vaniyambadi	...	...	...	...	...	...	...	1
Trichinopoly—Trichinopoly	...	...	...	...	...	...	...	3
Total	...	...	...	...	...	...	...	20

(4) *Special medical relief*.—(a) The Public Works Department, Ganjám Division, maintained a dispensary at a total cost of Rs. 932-11-4, at which 382 patients were treated, with a daily average of 1.72. The same department maintained a dispensary at Duggirala, Kistna, at a cost of Rs. 1,135-6-7, at which 3,710 patients were treated with a daily average of 28.88.

(b) Medical subordinates attached to the establishments of—

The Collector of Cuddapah,
The Collector of Ganjám,
The Collector of Kurnool,
The Collector of Vizagapatam,
The Senior Assistant Collector of Vizagapatam,
The Special Assistant Collector of Vizagapatam,
The Special Assistant Collector of Gódvári,

treated 2,356 patients with a daily average of 22.44. No statistics were available for the Special Assistant Agent's establishment, Ganjám, as the late Hospital Assistant did not duly maintain the registers. The medical subordinate attached to the Deputy Collector's establishment, Kurnool, was engaged on famine duty to the exclusion of his regular functions.

(c) The sale of quinine by the postal authorities in the presidency during 1897 realized Rs. 7,877-9-5; the income for the previous year was only Rs. 3,256-1-6. The details for each postal division are contrasted in the following statement:—

Divisions.	1896.		1897.	
	Number of powders sold.	Value.	Number of powders sold.	Value.
		RS. A. P.		RS. A. P.
Bellary	26,253	273 7 6	28,313	295 3 1
Calicut	54,618	568 15 0	104,773	1,093 12 0
Cocanada	17,645	183 12 10	28,452	297 5 11
Coimbatore	24,101	251 0 10	51,014	564 10 1
Cuddalore	22,278	232 1 0	63,609	663 7 5
Nellore	29,817	310 9 6	59,068	617 3 3
Palamcottah	28,201	293 12 2	190,910	1,991 15 3
Presidency	2,587	26 15 2	6,496	67 10 8
Trichinopoly	24,331	253 7 2	166,283	1,733 6 0
Vizagapatam	82,754	862 0 4	52,870	553 0 3
Total	312,585	3,256 1 6	754,788	7,877 9 5

(5) *Inspections*.—(a) In Anantapur, Cuddapah, Ganjám, Kurnool, Malabar, Nellore, Nilgiris, Tanjore and Trichinopoly, all medical institutions were inspected by the District Medical and Sanitary Officers concerned. In the other districts fifty-six dispensaries were not inspected in 1897: these are distributed as follows:

North Arcot	...	...	...	...	...	...	...	2
South Arcot	...	...	...	...	...	...	...	1
Bellary	...	...	...	...	...	...	...	14
South Canara	...	...	...	...	...	...	...	4
Chingleput	...	...	...	...	...	...	...	4
Coimbatore	...	...	...	...	...	...	...	3
Gódvári	...	...	...	...	...	...	...	1
Kistna	...	...	...	...	...	...	...	3
Madura	...	...	...	...	...	...	...	7
Salem	...	...	...	...	...	...	...	1
Tinnevelly	...	...	...	...	...	...	...	10
Vizagapatam	...	...	...	...	...	...	...	6

The cause of this short work is to be ascribed to the changes of Medical Officers for military or other duty. In Bellary the Military Surgeon superintended the civil administrative work without prejudice to his military duties; in Tinnevelly the Assistant Surgeon had charge of the district for over two months, during which time no inspections were made.

(b) Between 1st April 1897 and 5th April 1898, I made seven tours of inspection, in the course of which I visited all the districts except South Canara and inspected the hospitals in twenty-seven stations therein. The same unsatisfactory state of affairs exists in all the institutions; as copies of my remarks in the Visitors' Books of the institutions visited will reach Government with the Administration Reports of the local bodies concerned, I need not make further comment here.

In my last tour I visited Travancore on special duty and inspected the State Institutions there.

(6) The work done during the year in the *Hospitals and Dispensaries for Women and Children* is shown in Appendix K.

The Rajahmundry Municipality employed a Lady Apothecary from 13th July and arranged for dispensary relief being temporarily given in a thatched shed in the hospital compound. The Lady Apothecary, Berhampur, has been on sick leave since the 9th March 1897; those employed at Madura, Chicacole and Salem resigned their appointments from 24th March, 9th July and 1st September, respectively; in all four cases no proper substitutes have yet been appointed.

One of the female Hospital Assistants employed by the Nellore Municipality has, on the score of merit, been granted a scholarship since 1st August last to study for the Apothecary grade.

(7) *Midwives*.—There are 12 pupils in training at the Rajah Sir Ramasawmy Mudaliar's Lying-in Hospital, and 5 others are being trained at the Government Maternity Hospital; but, as already remarked in my report on the Presidency Institutions, until the school at the latter hospital is overworked, I would prefer to see all Local Fund pupils sent there.

In Cuddapah and Nellore districts 1 and 3 nurses, respectively, are being trained at the local head-quarters hospital.

In the following districts no nurses were being trained at the end of the year: Anantapur, Bellary, Chingleput, Coimbatore, Ganjám, Kistna, Madura, Malabar, Nilgiris, Tanjore and Trichinopoly.

The following statement shows the number of midwives employed in each district during the year 1897, and the work done by them for that period:—

District.	1896.		1897.	
	Number of midwives.	Total number of cases conducted.	Number of midwives.	Total number of cases conducted.
Anantapur	6	396	6	346
Arcot, North	17	1,189	18	1,150
Arcot, South	23	986	20	939
Bellary	20	2,060	15	1,690
Canara, South	10	850	11	756
Chingleput	12	747	13	678
Coimbatore	10	520	11	659
Cuddapah	13	794	13	782
Ganjām	4	342	4	266
Gōdāvari	10	890	11	794
Kistna	17	962	19	1,181
Kurnool	4	245	4	336
Madura	28	1,689	31	2,165
Malabar	9	468	9	666
Nellore	23	1,613	23	1,850
Nilgiris	3	153	3	192
Salem	10	439	11	633
Tanjore	25	1,975	28	1,837
Tinnevely	12	886	12	921
Trichinopoly	14	991	13	959
Vizagapatam	10	1,329	15	1,757
Total	280	19,624	290	20,557

Of the total number of cases conducted during the year, 1,149 were treated as in-patients, of which 863 were cases of natural labour, the remainder being otherwise.

The average for the Presidency was 70·8 cases to each midwife as compared with 70·1 in the previous year. In the following districts the individual average is above the general figure:—

Vizagapatam	117·1
Bellary	112·7
Kurnool	84·0
Nellore	80·4
Tinnevely	76·7
Malabar	74·0
Trichinopoly	73·8
Gōdāvari	72·2

The work in Ganjām, South Arcot and Chingleput is very poor.

A lying-in hospital is under construction at Tirupati, North Arcot. Elsewhere the provision of beds for lying-in cases continues as in 1896.

Verification of Stock and Service Registers.

The inventories of valuable stock have been checked and found correct. The service registers have all been duly verified.

General Remarks.

The year under report was an eventful one from an administrative point of view. The war on the frontier, the famine in the Ceded Districts, Nellore and Ganjām, and the plague precautionary measures adopted throughout the presidency conjointly caused a great strain on the Medical department and rendered the work of administration a most difficult task. Commissioned Medical Officers and Military Assistant Surgeons were required for military service, and the demand, especially for the former, was so great that no less than thirteen Medical Officers had to be withdrawn from civil duty. This almost paralysed the department, and it interfered greatly with the efficient performance of duties in several important appointments. To make arrangements for filling the vacancies thus created, and also to meet plague requirements, it became necessary, in addition to the utilization

of the services of senior departmental Civil Assistant Surgeons, to entertain temporarily retired Military Assistant Surgeons and Private Practitioners possessing recognised medical degrees. A large staff of pensioned and private Hospital Assistants was also employed for plague and famine duty. It would have been impossible to secure a sufficient number of subordinates of the Hospital Assistant class if liberal terms had not been offered as an inducement. Medical subordinates were also required for cholera duty in several districts. The demand was especially great in Coimbatore where the Central Jail was attacked by a severe epidemic of the disease.

I am glad to say that, as a rule, Government officers and subordinates performed the various disagreeable and trying duties allotted to them with commendable cheerfulness and zeal. Two Hospital Assistants * employed on cholera duty in the Coimbatore Central Jail acquitted themselves so well that the Superintendent

* First-class Hospital Assistant S. M. Jesudasa Naidu, No. 290, and Third-class Hospital Assistant G. Sivawami Pillai, No. 541.

and the Inspector-General of Prisons recommended a special recognition of their services, and they were accordingly granted an extra allowance of Rs. 10 each per mensem for the period the outbreak lasted in the jail—vide G.O., No. 1313-J., dated 8th September 1897.

The undermentioned subordinates were specially commended by me for their work in connection with the famine and cholera duties:—

1. Senior Assistant Surgeon S. E. White.
2. Civil Assistant Surgeon B. F. Powell.
3. Civil Apothecary E. A. Holmes.
4. Do. J. Samuel.
5. Do. S. D. Perinbam.
6. Do. K. Jaganathan.
7. Do. A. F. Xavier.
8. Civil Hospital Assistant Kamal Singh, No. 321.
9. Do. C. Ramasawmy Naickar, No. 349.
10. Do. J. G. Samidoss Nadar, No. 350.
11. Do. C. Ramanjalu Naidu, No. 360.
12. Do. C. K. Raman, No. 580.
13. Do. T. Kristnasawmy Naidu, No. 628.
14. Do. J. N. Sigamany Pillai, No. 637.
15. Local Fund Hospital Assistant G. Narayanasawmy Naidu.

I have the honour to be,

Sir,

Your most obedient servant, .

Surgeon-Major-General,
Surgeon-General with the Government of Madras.

NOTE.—Class I—denotes State hospitals and dispensaries, including all institutions maintained by Provincial Funds and under Government management.

Class II—denotes Local Fund institutions, including all institutions which are vested in Local boards or guaranteed, or maintained by Local Funds. Under this head must be classed institutions maintained by municipalities.

Class III-A—Those institutions that are entirely maintained at the cost of private individuals or associations.

Class III-B—Institutions supported by private subscriptions or guarantee, but receiving aid from Government or Local Funds.

* Travelling allowances drawn by the Civil Apothecary for going to Narasannappett and giving medical

evidence before the Court of Sessions at Madras.

† The Government contribution was reduced to one-eighth—vide G.O., No. 179, Financial, dated 20th

February 1897.

* One-eighth pay of a Third-class Hospital Assistant for five months only.

† To meet charges under diet and contingencies.

** A fixed annual grant is given by Government, viz., half the cost of the institution, for treating the

D.P.W. officials is G.O. No. 2210, L. & M., dated 4th September 1891.

†† The cost of post-mortem instruments, &c., supplied for medico-legal purposes.

‡ Cost of repairing the post-mortem room.

+ Fixed annual grant by the Zemindar of Polavaram.

* From mission funds.

APPENDICES A—J.

APPENDIX A.

Showing the names of Medical Officers who held charge of the districts during the year 1897.

District.	Medical Officers in charge.	Period on duty during the year 1897.	Remarks.
Anantapur ...	Surgeon-Captain J. L. Macrae ... Surgeon-Major H. M. Hakim ...	1st January to 11th February. 12th February to 31st December.	Acting. After return from privilege leave.
Arcot, North ...	Surgeon-Lieutenant-Colonel J. Lancaster ...	Whole year.	
Arcot, South ...	Surgeon-Major J. C. Marsden ...	Whole year.	
Bellary ...	Surgeon-Major J. W. Evans ... Surgeon-Major R. H. Cama ...	1st January to 3rd August. 4th August to 31st December.	Left on furlough. In addition to Military duties.
Canara, South ...	Surgeon-Captain C. Donovan ... Civil Assistant Surgeon C. P. Ganapati ...	1st January to 20th August. 21st August to 31st December.	Transferred to Military duty. Acting D. M. & S. Officer.
Chingleput ...	Surgeon-Lieutenant-Colonel H. A. F. Nailer.	Whole year.	
Coimbatore ...	Surgeon-Lieutenant-Colonel J. F. Fitzpatrick. Surgeon-Major R. Pemberton ... Civil Assistant Surgeon D. S. Amirthasawmi Pillai.	1st January to 31st August. 15th September. 1st to 14th September and 16th September to 31st December.	Granted furlough on medical grounds. Transferred to Military duty. Acting D. M. & S. Officer.
Cuddapah ...	Surgeon-Major W. F. Thomas ...	Whole year.	
Ganjām ...	Surgeon-Major H. Thomson ...	Whole year.	
Gódvári ...	Surgeon-Major S. C. Sarkies ...	Whole year.	
Kistna ...	Surgeon-Captain W. C. Vickers ... Civil Assistant Surgeon T. R. Lakshmanaperumal Pillai.	1st January to 18th August. 19th August to 3rd December.	Ordered on Plague duty. In temporary charge.
Kurnool ...	Surgeon-Captain C. L. Williams ... Surgeon-Major A. L. Patch ... Surgeon-Major C. Adams ...	4th to 31st December. Whole year. 1st January to 4th October.	 Granted furlough on Medical certificate.
Madura ...	Civil Assistant Surgeon S. Kandayya Pillai. Civil Apothecary Khaja Latifuddin Sakib ...	5th October to 18th December. 19th to 26th December.	Acting D. M. & S. Officer. Granted sick leave. Acting Assistant to D.M. & S. Officer. In temporary charge.
Malabar ...	Civil Assistant Surgeon M. Thummon Singh. Surgeon-Lieutenant-Colonel T. J. Hackett Wilkins.	27th to 31st December. Whole year.	Acting D. M. & S. Officer.
Nellore ...	Surgeon-Major W. H. Thornhill ... Civil Assistant Surgeon C. T. Saldanha ...	Whole year. 7th to 27th June ...	Except for three weeks in June, when employed in Madras as member of the Board of Examiners. In temporary charge.
Nilgiris ...	Surgeon-Major F. C. Reeves ...	Whole year.	
Salem ...	Brigade-Surgeon-Lieutenant-Colonel A. N. Rogers-Harrison. Civil Assistant Surgeon B. F. Gonsalves ...	1st January to 10th April and 23rd April to 31st December. 11th to 22nd April ...	 In temporary charge.

APPENDIX A—continued.

Showing the names of Medical Officers who held charge of the districts during the year 1897—continued.

District.	Medical Officers in charge.	Period on duty during the year 1897.	Remarks.
Tanjore	Surgeon-Lieutenant-Colonel W. A. Lee ... Civil Assistant Surgeon D. Gnanam Pillai. Civil Assistant Surgeon C. A. Lafrenais ...	1st January to 9th September. 10th to 26th September. 27th September to 31st December.	Transferred to Madras. In temporary charge. Acting D. M. & S. Officer.
Tinnevely	Surgeon-Major K. C. Sanjana Civil Assistant Surgeon J. S. Evers Uncovenanted Civil Surgeon N. Muhammad Oosman.	1st January to 16th September. 16th September to 15th November. 16th November to 31st December.	Transferred to Military duty. In temporary charge. Acting D. M. & S. Officer.
Trichinopoly	Surgeon-Lieutenant-Colonel W. O'Hara ...	Whole year.	
Vizagapatam	Surgeon-Lieutenant-Colonel A. H. Leapingwell.	Whole year.	

APPENDIX B.

Showing the number of institutions at work and the classes of Officers in charge of them on the last day of the year 1897.

Civil Hospitals and Dispensaries.

Reviewing the annual report and statistics of the — in the Presidency of Madras for the
year 1897.

GOVERNMENT OF MADRAS.
PUBLIC DEPARTMENT.

READ—the following paper:—

From the Surgeon-General with the Government of Madras, dated 9th July 1898,
No. T-279.

ABSTRACT.—Submitting the annual report and statistics of the civil hospitals and dispensaries in the Presidency of Madras for the year 1897.

ORDER—No. , Public, dated August 1898.

The Surgeon-General submits his note on the administration of the civil hospitals and dispensaries in the Presidency for the year 1897. The instructions of Government, in the review of the report for 1896, regarding the curtailment of certain statements and appendices have been carried out, and the report has been somewhat reduced in bulk. A new arrangement has been introduced under which the various subjects discussed are dealt with in order in the body of the report with reference to the statements appended. This is an improvement on the previous system, and is more appropriate to a "brief note" to which the annual reports are to be confined. Several changes, too, have been made in the appendices, four statements which appeared on last year's report (Appendices E, F, G and L) having been omitted, while the statistics of mortality among in-patients which were formerly given in the body of the report now form Appendix F.

2. The number of institutions at work during the last three years is shown in the following table:—

1895.	1896.	1897.
Number at work on the 31st December 1894 473	Number at work on the 31st December 1895 489	Number at work on the 31st December 1896 475
		Newly opened 6
		Closed 11
		Decrease 5
		Number at work on the 31st December 1896 470
		Number per 1,000 of population. .. . 01

3. The following statement compares the work done in 1897 with that of the two preceding years:—

Year.	Number treated.			Ratio per cent. of women to men.	Mortality among in-patients.	Accommodation.			Surgical operations.	Diets		Gross expenditure.
	In.	Out.	Total.			Number of beds avail-able.	Average daily sick.	Percent- age of beds occupied.		Cost per patient per diem.	Total cost of diets.	
1895..	38,422	3,800,932	3,839,354	43.63	5.89	3,060	1,696	53.42	141,765	As. P. Rs.	Rs.	Rs.
1896..	39,920	4,003,513	4,043,433	41.62	6.44	3,168	1,605	52.56	143,779	2 0 1	77,568	9,77,247
1897..	44,222	4,048,329	4,092,551	43.12	8.04	3,177	1,812	57.03	150,766	1 11	75,872	10,07,047
										2 0 5	85,179	10,42,605

The figures for the Nellore Baptist Mission hospital, the absence of which was noticed in the order reviewing the report for 1896, have now been included, but it is observed that statistics of the work done by the London Mission dispensary at Jammalamadugu, and by the Mission dispensary at Guntur are omitted. The Government is anxious that the statistics of the medical aid afforded to the public throughout the Presidency should be as complete as possible, and the Surgeon-General should address the Mission authorities with a view to obtaining full particulars in future.

4. There was a marked increase in the total number and in the daily average strength of in-patients, which is attributed by the Surgeon-General to the prevalence of famine and cholera. It is observed however that the increase was by no means confined to the tracts affected by those causes, but occurred in most districts.

5. Statement III shows the nature of the diseases treated during the year. It would be more convenient if this statement were re-arranged that complete statistics for each hospital should appear in the same opening, as is the case on pages 72 and Cases of malarial fever exceeded by 63,000 the number in 1896, and dysentery and cholera were far more common than in the preceding year, the increase in the number of patients treated for each disease being 13,000. To the prevalence of cholera must doubtless be attributed the rise on the death-rate from 6.41 in 1896 to 8.04 in the year under review: the latter is the highest rate of mortality since 1892. There were again two deaths from septic disease acquired in hospital. The number of deaths from such diseases acquired before admission rose, however, from 19 to 71, a remarkable advance for which no explanation has been suggested.

6. With the exception of the increase in malarial fever, dysentery and cholera, already referred to, the number of patients treated for the various diseases remained much the same as in 1896. Debility was however treated in 19,988 cases as against 7,652 in the previous year, a result probably due to the existence of famine.

7. The statistics of operations performed continue to be satisfactory, and His Excellency the Governor in Council notes with pleasure the commendations bestowed by the Surgeon-General on the officers mentioned on page 10 of his report.

8. In dealing with Statement IV, which shows the classes and sexes of persons to whom medical aid was afforded, the Surgeon-General refers to the decrease in the number of children treated, which he is unable to explain. The Government observes however that under the orders of the Government of India, conveyed in G.O., No. 70, dated 22nd January 1897, the age below which persons treated should be reckoned as children was reduced to ten years. In his letter recorded in G.O., No. 1300, Public, dated 30th September 1897, the Surgeon-General reported that this change had already been brought into force, and it seems probable therefore that the decrease in the number of children is merely the result of the alteration in classification.

9. The statements dealing with finance show that while the total expenditure on medical institutions outside the Presidency Town increased by more than Rs. 40,000, the sum provided from Provincial, Local and Municipal funds rose by only Rs. 5,000. The difference is due to the large public subscription collected on behalf of the Mission hospital now in course of erection at Madura.

The expenditure on bazaar medicines shows a satisfactory increase, and the Government notes with approval that the use of indigenous drugs has been encouraged by the Surgeon-General.

The cost of diets rose from As. 1-11 in 1896 to As. 2 and 4th of a pie in the year under review. Considering the high prices which prevailed throughout the year, the smallness of this increase is satisfactory. It is remarked however that the districts most affected by famine are not those in which the highest average prevailed.

10. The list of special institutions in Appendix J exhibits several variations as compared with last year. The Jesuit leper hospital at Mangalore has been included for the first time, while one private and three mission dispensaries have been newly entered. The number of isolation hospitals provided for cholera shows a satisfactory increase.

11. Inspection work declined, 56 dispensaries being left unvisited as against 46 in 1896. This is attributed to the frequent changes in the District Medical Officers due to the absence of several officers on military and other duty. The Surgeon-General himself visited most of the districts in the Presidency during the calendar year.

12. The year under review was marked by events which threw upon the Medical Department an unusually severe strain. The requirements of the Military Department reduced considerably the number of Commissioned officers available for civil duties, and with famine and the possibility of plague to contend against, the administration was seriously handicapped. In spite of these difficulties the work of the department continued to be satisfactory, and His Excellency the Governor in Council desires to record his appreciation of the efforts which contributed to this result.
