My dear Sir Arthur

I think you are right & that we had better ask Mr. Hannemann's immediate return. I will tell the Secretary to telegraph - A telegram came in yesterday evening that there were two suspicious cases at Andapah, the very district from which our sapient Sup. Genl. had just ordered the doctor away & about, ~~the~~ with plague at Puntakal, anyone might be well known was the next district likely to be attacked. Mr. Newman here ^{has} wired the Col.

of Haddopah not to let the doctor go - I hope he had not already started.

Things being as they are & the probability that we shall soon require a plague count being so great, the question arises whether we ought to let Mr. Hammick go - that is, if you agree, as I understood some time ago, that he is the best (indeed, almost the only really good) man for this duty. It appears that Mr. Stuart's leave expires on the 25th - whether he comes by last mail, or is coming by next mail, I do not know - But in any case, if Mr. Ham-

nick is to be detained, there is no time to lose. Mr. Stuart, by the way, took paid leave on relief of the office of Asst. Surg. Gen. & is therefore entitled under the rules to joining time (about 10 days) in addition to his priv. leave. He may therefore not be returning until the week after next - In any case, he might be ordered to take his joining time & Mr. Hammick to take his full subsidiary leave before proceeding on furlough - Between the two, we should get a breathing time of 3 weeks or more so, by the kind of plan we shall probably be able to say definitely whether we want a plague count or not. If Mr. Stuart comes by last mail, Mr. Hammick will probably be leaving Sunday or Saturday, so there would in that case be no time to lose. As regards Madras, in my opinion it is only too probable that there has been plague there, undetected, for some weeks past.

In the week before last the deaths
increased by more than 25%! I
wrote yesterday morning to Mr. Freeman
here to inquire at once of the matter.
But what explanation (than than
72 deaths reported from cholera) there
was & whether they had made sure
there was no plague, and at the
same time told him to have tables
prepared of the corresponding mortal-
ity week by week from the beginning
of June, in this and past years -
I must await reply. I believe
it is the case that there is a variety
of plague which resembles pneumonia -
indeed, I know there is - and the worst
fit is that that variety is most
to be the most fatal.

Believe me

Yours sincerely

H. W. Hiss

Ootacamund.

My dear Stokes,

His Excellency wishes
me to send you the enclosed
and to ask you to tele
Hamrick and Stuart to
take their full joining time
as Sir Henry Bliss suggests.
His Excellency wishes you
at the same time to warn
Hamrick that if plague
increases it may be
necessary to appoint him

The question of Mr. Hammick's pay
