OFFICE OF SURGEON-GENERAL

No. 13/22. *Cotacanamund* WITH THE GOVERNMENT OF MADRAS,
Madras, 11th September 189

From

SURGEON-MAJOR-GENERAL C. SIBTHORPE, C.B., F.R.C.P.I.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

Public DEPARTMENT.

SIR,

With reference to your Memorandum No.1825 dated

29th August 1898 regarding the discontinuance of the sub-
mission to Government of the weekly Health Reports, I have

the honor to state that the previous orders of Government
on this subject were duly communicated *to the Sanitary Commissioner* for information and

guidance. But as cholera has been since declared to be epi-

demic and as the above orders did not expressly cancel G.O.

No.340 *dated* 8th May 1890 the Sanitary Commissioner was evidently

guided by it in submitting the report for the week ending

29th July 1898.

2. It is however apparent from the Memorandum now re-
ceived that Government does not wish these reports to be
submitted to it, even when cholera is epidemic, and the Sani-
tary Commissioner has accordingly been instructed to wholly
discontinue their submission to Government.

I have the honor to be,

Sir,
Your most Obedt Servant,
C. Sibthorpe

Surgeon Major General
and Surgeon General with Govt of Madras

Statement of Deaths from Principal Diseases in the Town of Madras during the corresponding weeks of the previous five years.

Year.	Week ending.	Cholera.	Small-pox.	Fevers	Dysentery and diarrhoea.	All other diseases.	Total.	Total population according to the Census of 1891.	Ratio per 1,000 of population per annum.
1893.	4 th August			151	78	191	420		48.2
1894.	3 rd			121	39	141	301		34.5
1895.	2 nd	1		136	56	171	363		41.7
1896.	31 st July	1		103	37	148	289		33.2
1897.	30 th	2		102	30	131	265		30.4
Mean number of last five years		1.8		122.4	48.0	156.4	327.6		37.6

The Board is of opinion that cholera was epidemic during the week ending 29th July 1898.

This opinion is based on the following grounds:-

- Whether the disease shows a tendency to increase or diminish;

slight tendency to increase.

2. How far this may be attributed to seasonal variations or other causes;

The season has doubtless
great influence

3. Whether the disease is confined to any particular quarter of the town or to any particular class of the population and whether these are in any direct local connection with the shipping and port;

Not so confined,
No connection with port or
Shipping.

4. Whether the disease shows general epidemic tendency to attack all classes alike.

Yes.

Dated 2nd August 1898.
