(Medical).

Simla, the

19 September 1898.

Sir,

In reply to your telegram dated the 27th August last,

I am directed to state that the Secretary of State for India has been requested to engage if possible and send out at once ten more doctors for employment on plague duty in the Madras Presidency, and he has been warned that the Government of Madras consider that 15 more doctors and 50 nurses are likely to be required if plague extends in the Madras Presidency.

2. I am to suggest, for the consideration of the Governor in Council, that, in the event of plague nurses being required in the Madras Presidency, an endeavour should be made to meet the demand as far as possible by the recruitment of nurses in India. Nurses trained in India have the great advantage of knowing the language and habits of the people, and they are much less expensive than nurses procured from England. I am to mention for the information of the Governor in Council that the nursing staff employed in the Plague Wards of the Medical College Hospital, Calcutta, has recently been strengthened by the engagement of a number of locally trained nurses.

I have the honour to be,

Sir,

Your most obedient Servant,

A. H. L. Fraser

Secretary to the Govt. of India.

Handwritten notes:
 24.9.98
 Para. 2. might be sent to S.S. for report.
 26.9.98
 Yes. But the truth is that locally trained nurses are scarce & that we have already engaged a good many. This will have to be explained to India. I am the 29. up to this.
