Civil Works.

READ—the following papers :—

From G. S. T. HARRIS, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepāk, 23rd March 1897, No. 5471.

In forwarding, for your information, correspondence in original as noted in the margin (to be returned), I have the honour to request the favour of your instructions on the several points raised by the Executive Engineer, Madras division, Military Works.

2. Of the five public buildings alluded to in the letter of the Executive Engineer, Military Works, only buildings represented by items 1 to 3 are in charge of this division, No. 4 is maintained by the Salt and Abkārī Department, and No. 5 is in charge of the Executive Engineer, Buckingham Canal division.

Office-note to the Consulting Architect to Government, dated 3rd May 1897, No. 2325 C.

Please ascertain and report whether, when the Seven Wells water-supply was handed over to the Military Works Department, any condition was made that the buildings mentioned in these papers were to be supplied with water free of charge, or whether terms of any kind were made on the transfer. Please also ascertain whether any other parts of the town within municipal limits are supplied with Seven Wells water, and if so, whether the municipality makes any contribution towards the cost of maintenance.

(Signed) D. McNEIL CAMPBELL, Col., R.E.,
Secretary to Government.

No. 1975.

Returned.

No condition of any kind appears to have been made on transfer of the Seven Wells water-supply to Military Works Department with regard to the civil buildings receiving Seven Wells supply.

2. The abkārī contractor pays for water supplied to the arrack distillery.

3. There is no public supply from the Seven Wells water-works paid for by the municipality or free to them.

18th May 1897.

(Signed) T. DIGBY, Major, R.E.,
Ex. Engineer, Madras Division.

To the Consulting Architect to Government, Madras.

No. 436.

Forwarded to the Chief Engineer, Public Works Department, Madras, with reference to his No. 2325 C., dated 3rd May 1897.

19th May 1897.

(Signed) G. S. T. HARRIS,
Consulting Architect to Government.

No. 2695 C.

Referred to the Superintending Engineer, II Circle, for favour of report whether the supply of Seven Wells water near the Basin may not be abandoned in favour of Red Hills water.

28th May 1897.

(Signed) D. McNEIL CAMPBELL, Col., R.E.,
Chief Engineer.

From J. E. PAUL, Esq., Executive Engineer, Buckingham Canal division, to the Superintending Engineer, II Circle, dated 18th June 1897, No. 624.

With reference to your No. 83 B.C., dated 3rd June 1897, on Chief Engineer's endorsement, No. 2695 C., dated 28th May 1897, I have the honour to report that the water-supply from Seven Wells can be abandoned and can be replaced by Red Hills water.

2. The enclosures received with the above are herewith returned.

No. 112 B.C.

Forwarded to the Chief Engineer, Public Works Department, with reference to his No. 2695 C., dated 28th May 1897.

2. The undersigned agrees with the Executive Engineer.
3. The enclosures received are returned.

26th June 1897.

(Signed) W. L. C. BADDELEY, Major, R.E.,
Suptg. Engineer, II Circle.

From the Public Department, dated 13th July 1897, No. 1460.

From G. S. T. HARRIS, Esq., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepāk, 16th August 1897, No. 1407.

In reply to your memo., No. 3236 C., dated the 17th July 1897, I have the honour to forward a copy of letter from the Executive Engineer, Military Works Department, furnishing particulars of the Seven Wells water supplied to the buildings referred to.

The Medical Storekeeper to Government now states that the water from the Red Hills Lake is more suitable for boilers and having a higher pressure is better in case of fire than that from the Seven Wells, and requests that early steps may be taken to alter the piping accordingly. I am now having an estimate prepared for this work. As Seven Wells water will not be wanted for this building in future, the charge to Provincial funds on account of the Medical College and General Hospital will be about Rs. 32 per mensem, or Rs. 384 per annum.

4 No. 3058 W., 3RD NOVEMBER 1897.

ENCLOSURE.

COPY of a communication from the Executive Engineer, Madras division, Military Works, to the Consulting Architect to Government, dated 11th August 1897, No. 3213.

With reference to your No. 1070, dated 19th July 1897, I have the honour to inform you that Rs. 84 per mensem may be fairly charged to Provincial funds on account of the supply of Seven Wells water to the General Hospital, Medical College and Medical Stores.

	GALLS.	
The General Hospital takes about	170,000	per mensem.
The Medical College	9,000	"
Do. Stores	91,000	"
Total	270,000	

This quantity can be raised by 6 picottah men at Rs. 8 each	48
Pumping to the 2nd floor of the hospital—six cock-turners at Rs. 6 each.	36
Total	84

From the Public Department, dated 7th October 1897, No. 2076.

ORDER—No. 3058 W., dated 3rd November 1897.

The Military Works Department enquires whether the supply of water from the Seven Wells to all or any of the following buildings should be continued, and if so, whether the proportionate charge for maintenance and the cost of renewals will be accepted as a debit against Provincial funds:—

- | | |
|-----------------------|-------------------------------|
| (a) General Hospital. | (d) Buckingham Canal division |
| (b) Medical College. | near the Basin. |
| (c) Medical Stores. | (e) Arrack Distillery. |

2. The Principal Medical Storekeeper and the Executive Engineer, Buckingham Canal division, report that the supply to the Medical Stores and the Basin, respectively, may be abandoned in favour of the Red Hills water, and the Government considers that no sufficient case has been made out for the retention of the supply to the General Hospital and the Medical College. The supply to buildings (a) to (d) will therefore be discontinued.

3. In regard to the Arrack distillery, it is observed that the abkari contractor pays for the water supplied.

14 FEB 1946
DEPARTMENT OF MAINE
SECRETARY

Madras, 17 February 1898.

Surgern Major W. H. Moore, Barristers,
THE MEDICAL STOREKEEPER TO GOVERNMENT,

To

THE Chief Secretary to
The Government of Madras.
Fort St. George.

Reference :—

I beg respectfully to submit for the consideration of Government and for favor of very early orders, the following points.

2. Order No. 736 L of 14 April 1897 of the Government of Madras sanctioned Local Fund and Municipal bodies obtaining their requirements of Inoculums and Spirituous preparations from this Depot.
3. Para 2 of the above order requested the Surgeon General "to issue the necessary instructions to the District Medical Officers"; and in accordance therewith that officer in his Standing Order No. 132 of 1897 has directed the submission of Indents on this Depot for the preparations in question. Seven have

Indents for these drugs required for the year 1897-98, and two indents for requirements during the year 1898-99 have already been received; and in the absence of early and specific orders for the entertainment of the necessary establishment &c. affairs remain at a standstill, and the whole civil medical administration is likely to get out of gear.

4. It has been pointed out to the authorities concerned that the manufacture and supply of Tinctures &c. to Local Fund and Municipal bodies can only be undertaken under the following circumstances:-

(1) An extra establishment at the small cost of Rs. 202. per mensem (Please see Proceedings of the Madras Government No. 1283 & of 16 July 1897). This amount, as shown in para 4 of the Surgeon General's letter accompanying the above quoted Government order, being met from the amount of 20 per cent charged on drugs to cover deterioration &c.

(2) An adequate water supply - The extent to which this defect has been handicapped particularly in reference to the manufacture

manufacture of drugs since the discontinuance of the Seven Wells water supply was shown in detail in this Office No. 1427 of 25 January 1898 to your address in para 10 of which I stated "that the existing difficulty would be so greatly intensified as to render satisfactory work impossible, when it came to attempting the manufacture under such conditions of the large quantities of Tinctures &c. that would be required for Local Fund and Municipal bodies in April next."

5. The Director General, Indian Medical Service in his No. 6234 of 25 September 1897 to the Government of India recommended that the supply of Tinctures &c. to Local Fund and Municipal bodies should be undertaken after 1st April 1898; and asked to be authorised (1) to instruct the Medical Storekeeper, Madras Command to prepare a Supplementary indent for the necessary Home supplies; (2) to provide for the stores that will have to be purchased locally in his Material

1. Budget for 1898-99; and (3) to arrange for
the extra establishment at a cost of Rs. 2421,
a per annum.

2. 6. Provision has been made in the Budget
of Country supplies for 1898-99 for articles of
or local purchase which will be required for the
two manufactures under reference; and our stock
of English articles will, I think, enable us
to go on with the work until such time
as the necessary Home supplies may be
expected on supplementary Indent which will
be submitted as soon as ordered.

3. 7. As already stated Local Fund and
Municipal bodies calculating on getting their
requirements of Dinebars &c. from this Depot
after 1st April, have made no arrangements
for supplies from Home. For want of
definite orders, however nothing can be done
here in the matter of arranging to meet
their wants; and there is therefore the prospect
of civil medical establishments being much
handicapped during the coming official year

for want of these very necessary remedies.

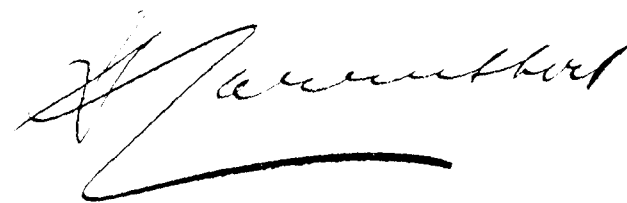

8. Under these circumstances, I beg to
solicit the favors of very early orders

(1) to underlain the extra establishment
asked for from 1st April 1898;

(2) the water supply being increased as
requested in this office no ¹²/₄₄₂₇ of 25 January 1898
to your address. This is most urgent as it will
take at least a month to lay on, and
absolutely nothing can be done without it;

(3) the preparation and submission of
the necessary Indent for Home supplies.

I have the honor to be,
Sir,
Your Most Obedient Servant,

Surgeon-Major,
Medical Storekeeper to Government.
