APRIL.

Venereal Affections.

Forwarding to the Government of India a letter from the Surgeon-General submitting, with remarks, a statement showing the extent of — in the city of Madras during the year 1897.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated 2nd March 1898, No. 203.

With reference to G.O., No. 741, Public, dated the 20th October 1892, I have the honour to submit a statement in the form prescribed therein showing the extent of venereal affections in the City of Madras during the year 1897 as obtained from the hospital statistics.

2. There were 4,445 cases treated in the different hospitals in Madras against 4,174 treated in the previous year, *i.e.*, an excess of 271 cases.

3. There was a decrease in the number of patients treated in the following institutions :—

(1) North Black Town Dispensary	by	178
(2) Government Voluntary Venereal Hospital	..	78
(3) Government Ophthalmic Hospital	..	22
(4) Port and Marine Dispensary	..	5
(5) Government Maternity Hospital	..	1
Total, decrease		284

4. The following institutions showed an increase in the numbers treated :—

(1) Government General Hospital	by	411
(2) St. Thomé Dispensary	..	50
(3) Native Infirmary	..	48
(4) Victoria Caste and Gosha Hospital	..	24
(5) Raja Sir Ramasawmi Mudaliyar's Lying-in Hospital	..	20
(6) Bezwada-Madras State Railway Dispensary	..	1
Total		554
The Second District Dispensary treated one patient against none in the previous year		1
Total, increase		555

5. No patients were treated during the year for venereal affections in the Government Leper Hospital. In the Royapettah Hospital, the number treated for venereal diseases during the year remained the same as that of the preceding one.

6. As regards the diseases treated, primary and secondary syphilis showed the largest number, viz., 2,256, next came gonorrhœa 1,433, ulcer of penis 256, against 2,546, 1,252 and 220, respectively, of the preceding year. All other venereal diseases amounted to 500 against 156 of the previous year.

7. Out of a total of 4,445 cases treated during the year, 1,493 (33·59) were afforded in-door relief, and of this number 158 were Europeans and Eurasians against 142 during the last year. Of the aggregate number treated, the proportion of males to females was nearly 2 to 1—3,001 being males and 1,444 females.

8. Out of a total number of 217,717 cases of all diseases treated in these institutions, 2·04 per cent. were for venereal affections.

9. Among the British troops, with an average strength of 545, there were 328 cases treated for the following complaints :—

Primary syphilis	114
Secondary syphilis	35
Ulcer of penis	31
Gonorrhœa	148
