Very urgent

From the Additional Medical Officer
on Plague duty - Hoover
Salun District

To the Surgeon General
with the Government
Madras.

Sir.

In reference to the copy of an
agreement signed by me on the
9th August last on my part, to continue
in the service of the Government of
Madras for a period of 6 months from
August 30th. I beg to bring to your
notice the following urgent private affairs
which have since unexpectedly occurred,
and which profoundly alter the conditions
under which that agreement was
entered into by me.

When I came out to India - on Plague
duty - (Nov 30th / 98) I had agreed
on my return - to enter into a
partnership in a practice in Surrey.
On leaving of the mother - ...

at the end of May - this year, while on duty here being unable to return to settle affairs I wrote to the Doctor whom I proposed to join in practice - that under the circumstances a postponement of the partnership was desirable if possible; he replied that he thought it might be deferred for a short period further.

On hearing (in July) that the Government of Madras were willing to extend my services - I again wrote to the Doctor, to say I proposed to re-engage myself for a further period of six months in India.

Unfortunately, owing to the Doctor's absence from home and illness, the receipt of and reply to his 2nd letter were considerably delayed - And only, early in the present month (Sept. 1899) I received a telegram to say ^{he found me} "unable to wait", I was to write a reply.

As by that time the form of agreement had been returned by me - with a reference -

I telegraphed to him "to take help or an Assistant - temporarily" till my return in about April.

But some days later, I received a 2nd telegram to say - "He was forced to the Partner - at once".

And recently I received a letter - dated August explaining the special circumstances which had

arisen - which compelled him to take this decision, but that he would wait for me, if I was able to return to commence work by the 1st November next - at latest. I was to reply extremely - Yes or No -

I obtained leave at once to try to make arrangements.

I may say that the Doctor referred to in this letter, is a personal friend of my own and I know he would not have taken the line he has finally done in the matter, except under the pressure of absolute necessity.

Under these circumstances I am compelled, to ask permission of the Government of Madras for allowed to withdraw from this agreement (of 9.8.99) - to enable me to return to England at once.

I much regret that I find myself compelled to take this step, but would ask for its favourable consideration as a personal matter - one which is of great importance to myself which will vitally affect my future career.

I have heard that the practice of ^{refers to} ~~the practice~~ is an unique opportunity, and one which I have long looked forward to. The circumstances of my father's recent death place a similar opportunity open elsewhere in England, at a future time, but I cannot.

I would request the favour to return early,
as I am able to do so by the
boat leaving Bombay on the 14th October,
this would enable me to reach my destination
in the first week in November.

I have the honor to be

Sir

Sir

In continuation of my letter of the date
enclosed). I have the honor to state
in reference to my return passage -
that the special 4 months return ticket -
from Madras to London, with which
I was provided before I left England
- under my former agreement - was,
at your request returned to my office
early in May last - for further details
as I was informed by Government that
it could be renewed at any time.

And requesting that in the event of
a favorable reply from Government,
on the above quoted letter, I may be
furnished with authority to go to the
P. & O. Steamship Co. - at an early date

to enable me to reach my destination

The steamer leaving Bombay on
October 12th next.
