The first of these is the fact that the
 government has been unable to raise the
 necessary funds to meet its obligations.
 This is due to a number of factors, including
 the fact that the government has been unable to
 collect the necessary taxes, and the fact that
 the government has been unable to borrow the
 necessary funds from the international market.
 The second factor is the fact that the
 government has been unable to implement the
 necessary reforms to the economy. This has
 led to a number of problems, including
 inflation, unemployment, and a general
 decline in the standard of living. The third
 factor is the fact that the government has
 been unable to maintain a stable political
 environment. This has led to a number of
 problems, including corruption, and a
 general lack of confidence in the government.
 These factors have all contributed to the
 economic crisis that is currently facing the
 country.

be put on paper to act as collector
of Trichinopoly as that post is at
present held by Robertson who
is the junior acting officer.

Yours sincerely
