Public CURRENT No. 2100

PLAGUE.

LOCAL AND MUNICIPAL DEPARTMENT.

## PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

Again G.O.No.1010 P.His., dated 1st July 1900 directed the Collector of Salem to continue the medical examination of westward train at Jalarpet as long as there is plague at Ranipet.

From the Surgeon General with the Government of Madras, No. 18/140 dated 5th July 1900.

Dr. J Thomas on plague duty at Jalarpet having been permitted by Government to return to England, I have directed him to leave and direct to Mr. Low who is at Jalarpet.

2. Now that plague has considerably decreased in Bangalore, Mysore and Bangalore I do not consider it necessary to continue the duty for Dr. Thomas to Jalarpet. The present staff consists of Mr. Low (a European plague doctor), Mr. Stanton M.B., and 5 Hospital Assistants and this I consider quite enough for the present. Kindly let me know your views in the future.

*Ref. no 1811 P dated 10th July 1900*  
Forwarded to the Collector of Salem for next year's report.

From the Collector of Salem No. 1880 dated 15th July 1900.

With reference to Government order No. 1811 P dated 10th July 1900 I have the honour to state that I have already wired to the Surgeon General for a third doctor in place of Dr. J Thomas at Jalarpet. The decrease in plague at Bangalore and - in Mysore does not in any way diminish the work of examination and intimation of cases and the necessity for a third doctor is just as well now as it was before. Dr. Low has been complaining of excessive work since the removal of Dr. J Thomas. You are aware that in addition to the day train two trains come into Jalarpet at midnight and the examination of both has to be conducted at one and the same time or else the company complains of delay. It is this night work that makes it so trying for the staff. The supervision of the camps passport work, and correspondence is heavy besides. The number of passengers in the detention camp on 10th July (this being the time of rush from the mines) was 211 and the number in the plague hospital was 1. I consider that a third doctor is indispensable. Plague is still on

the increase in the Mysore taluk bordering this district and we cannot afford to relax our vigilance at Jalarpet.

From the Surgeon General with the Government of Madras, No. 12/577 dated 15th July 1900.

In continuation of my letter No. 12/540 dated the 5th instant I have the honor to state that the Medical Officer in charge of the Plague Inspection Station Jalarpet and the Collector of Salem are both of opinion that a third Medical Officer is indispensable at Jalarpet. I am accordingly taking steps to depute one at once as reported to the Collector.

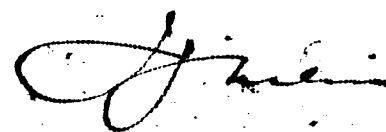

Order No. 1157 P.M.S., dated 15th July 1900.

In Government Order No. 1010 P.M.S., dated 1st July 1900 above the Collector of Salem was asked to continue the examination of the westward trains, so long as there was plague at Jalarpet. Since the 1st July 1900, the Government therefore considers that the inspection of the westward trains at Jalarpet may now be dispensed with.

2. With the inspection of the westward trains discontinued the services of a third Medical Officer at Jalarpet will not be needed.

3. With reference to the latter part of his telegram disposed of in the G.O. quoted above, the Collector of Salem will submit proposals for the reduction of the establishment at the Jalarpet inspection station.

(True Extract)

For As. Secretary to Government.
