Memorandum to the Surgeon-General, Madras.
OFFICE OF SURGEON-GENERAL
WITH THE GOVERNMENT OF MADRAS,
13th May 1899.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I.

SURGEON-GENERAL WITH THE
GOVERNMENT OF MADRAS,

Madras.

To The Honorable the
Chief Secretary to Government
Public Department.

SIR,

I have the honor to solicit
the sanction of Government for the
entertainment of an Ice cooly on
Rs 6 per mensem required for the
Government, Maternity Hospital, Madras.
2. The necessity for this servant
is that the institution has been supplied
with ice free of charge by P. Venkatachellum's
Ice Factory and a cooly has been engaged
during the period on Rs 6 per mensem
to bring the supplies from the factory
and to distribute the same to the
several wards in the Hospital. His
services are also utilized for the sawing
and splitting of firewood.
3. During the current official
year 1899-1900 P. Venkatachellum's Ice
Factory having discontinued the free supply
of ice, it has to be obtained from his depen-
at

at five pence per pound.

The payment of his cooly on Rs 6 per mensem which has hitherto been met from the allotment under diet is contrary to the principles laid down in article 90 (a) of the Civil Account Code and as such, the sanction of Government is required for the entertainment of a cooly on Rs 6.

Should Government approve of his proposal, necessary provision of abatement will be submitted for sanction.

Duties of The Resident Asst Surgeon
Govt. Maternity, Madras.

I

The Resident Asst Surgeon will exercise a general supervision over the Medical, Stewards, and Conservancy departments and in the absence of the Superintendent, he will attend to any emergency in the Hospital.

2. He is in charge of the Medical Stores, and stock instruments & appliances, including the accounts and correspondence connected therewith. He is also in charge of the Medical Store rooms and is responsible for the proper upkeep of the stock books of medicines and Instruments &c.
3. He will be responsible for the proper keeping of the Parturition and Gynaecological registers and that the Birth and Death Reports are duly forwarded to the Municipal office.
4. The register number of admissions will be filled in by him in the Morning Reports which he will invariably check.
5. He will supervise the office clerks in official correspondence and will frank all letters sent by Post.
6. He is responsible for the preparation and due submission of all Medical returns, indents for Medical Stores, &c, as the Superintendent may direct.

He will conduct the duties of Registrar of Clinical Records, and will supervise the Delivery Reports of the Assistant Matrons, and the pupils, the Parturition Forms, and Subordinate Medical Officers, or students' reports and he will see that these are filed in proper order, and that the numbers agree with those of the Parturition Register.

8. He will see that the students enter the cases of labor conducted by them, in the book kept for the purpose, and initial the entries. He will also fill up the columns in the Confidential Register of students and submit the same to the Superintendent for his remarks.

9. He will keep a Roster of duty of medical subordinates and is responsible for the posting of the servants of the Conservancy Department, and has the power of inflicting small fines on the latter for dereliction of duty, subject to the approval of the Superintendent.

10. He will keep up the following books with the assistance of the clerks:

1. Daily Register of Parturient patients
2. Pupils Register
3. Military Nurses Register
4. Midwifery Nurse pupils Register
5. Stock book of medicines
6. Stock book of Instruments and Medical appliances, C. M. Book No 66

7. Daily Register showing diseases of in-patients. C. M. Book No 11
8. Register showing classes and ages of in-patients. C. M. Book No 5
9. Students Register
10. Medical Students & Receipts Files
11. Nurses Examination Book
12. Lecture Book
13. Perishable articles Book

7. Obstetric operations Register

Duties of Subordinate Medical Officers.

Govt. Maternity, Madras.

1. Subordinate Medical Officer is in charge of A, B, D, B₂ & B₂ Blocks, a total of 45 beds.

1. Subordinate Medical Officer is in charge of G₁ & G₂ Blocks, a total of 30 beds.

1. Subordinate Medical Officer is in charge of B₂ & Back Wards & A₂ & cottages, a total of 40 beds.

I. The Subordinate Medical Officers are in medical charge of the wards allotted to them and will go round with the Superintendent at his visits. They are responsible for the proper care and treatment of the patients in their wards subject to the supervision of the Superintendent and the Resident Assistant Surgeon.

2. They will be present in the Hospital before 6.30 A.M. and will call the Students' Roll not later than 6.30 O'clock. They will also pay an evening visit to the Hospital between 4.30 & 5.30 P.M. except on the days on which they have gone off-duty and on Sunday.

3. They will post the students attending in their wards for case-taking and will render them assistance and instruction in examining patients and in drawing up the clinical reports, and will see that the rules for the guidance of students attending the Hospital are strictly carried out.

15
4. One subordinate medical officer will come on duty according to the Roster from 6. a.m. on one day to 6. p.m. on the following day, and during that time will be the subordinate medical officer on duty. While on duty, he will take care that the rules for the admission of patients and the special rules for the subordinate medical officer on duty are strictly carried out. - They do not as a rule go off duty before 12 noon - and sometimes later.

5. When on duty the subordinate medical officer is not to leave the Hospital premises without permission, and he will call the roll of servants on night duty at 8. p.m. and will see that they go to their respective places.

6. Subordinate medical officers will report to the Superintendent or to the Resident Staff Surgeon, in proper form, all cases of serious illness or difficulty in labour which may occur, and, except in cases of emergency, will not undertake any operation without first obtaining assistance.

7. Subordinate medical officers will mark the diet sheets of their patients daily and initial them, and order the diets for new admissions, and they are responsible that the diet sheets in the morning are sent to the Stewards Department not later than 8 o'clock.

In filling up the diet sheets the medical officer should order diet a day in advance for all ordinary cases, but, in serious cases of illness and when careful dieting is necessary, the diet should only be filled in for the day of issue.

Care must be taken not to order diet in advance for patients about to be discharged from the Hospital. Alterations or additions may be made when necessary, but care should be taken to initial erasures and to make the entries before 8 a.m. When alterations are required after the morning issue of the diet articles the entries should be made in pencil on the line for the next day and entered in ink on the following morning with the diet for that day.

8. They will see that the rules regarding the entry of prescriptions in the Ward Book and the Prescription Book, and the dispensing of medicines are strictly carried out and they are responsible for the proper upkeep and condition of all medical and surgical appliances in their wards or custody. They will take stock once a month, every first Wednesday in the month, of the furniture and medical appliances in the blocks in their charge and report the result to the Superintendent. They are also responsible that the loss and breakage Books referring to furniture &c, in the wards are properly kept up, and that all losses or breakages are enquired into and reported without delay.

9. After they have been round the wards in the morning, they will see that the medicines, &c, are sent to the wards with expedition and accuracy and will not leave the Hospital until this has been done and until they have initialled the Prescription Book showing the hour of despatch of medicines to their wards.

10. They will look over the Hospital Prescription Book daily and attend their initials.

11. They are responsible that the Clinical Record Book or Examination Book in each ward is properly kept up and always ready for use.

12. They will submit the Students' case Books, duly corrected and initialled, to the Resident Asst Surgeon every Saturday morning and, in the absence of the students, they are responsible that the reports of important cases are kept up and entered on the Journal sheets, which should be submitted with other reports to the Superintendent through the Resident Medical Officers every Saturday.

[Faint, mostly illegible handwritten text, likely bleed-through from the reverse side of the page.]

13.

They will keep up the following books in their respective wards:—

1. Puerperal Report Forms
2. Ward Clinical Note Book
3. Ward Prescription Book
4. Petty Operation Register
5. Punkah Cooly Roster
6. Roll call of Students.

14.

They are responsible that the Death Registration Report of all fatal cases occurring in their wards is duly filled in, and submitted to the Resident Asst Surgeon for countersignature without delay.

In submitting this Death Form duly filled in, the subordinate medical officer in charge of the case will also submit the clinical report with the post-mortem notes duly recorded if such an examination has been made. A.B. — This order refers to all infants as well as adults dying in the Hospital.

15.

They will report to the Superintendent or to the Assistant Surgeon any thing unusual or irregular occurring in the wards in their charge, or in the Hospital, while they are on duty, and will do their utmost to assist in maintaining order in the Hospital and in seeing that the rules and regulations are not infringed.

16.

Subordinate medical officers are expected to visit the office daily to examine and initial the Order Book and the Statement of the Average Daily Cost of Diet, the Prescription Book, &c.

20/

17. The attention of the subordinate medical officers is called to the statement of the calculated cost of diets and extras which is kept for information in the office. By careful attention to this, the average cost of dieting may be kept well within 8 annas for Europeans and 4 annas for natives without interfering with the issue of extras in all cases in which they may be necessary.

18. The subordinate medical officer in charge of the Gynaecological Block will instruct the midwifery train pupils in General and Gynaecological nursing, Bandaging and Bedmaking three days a week, and will keep a register showing the subjects taught. He will also keep up Civil Medical Book No III, Gynaecological operations, and is responsible for the correct entries in the Disease column of the Gynaecological Registers for In-patients (C. M. Book No I)

19. Each subordinate medical officer doing duty is supplied with a writing table drawer and key and a pocket instrument case for the proper care of which he is responsible, and which, when relieved from duty, he is required to hand over to his successor, giving a transfer receipt which is to be filed by the Resident Sub-Medical Officer.

The following keys are in charge of the subordinate medical officer on duty for the day:—

- (a) Ring with 5 keys viz.
Key of cupboard A
do do B
3 keys of the room of M.O. on duty.

The following are kept in cupboards A & B and always to be returned to their cupboards when not required for use:—

May 1899.

From

SURGEON-GENERAL F. SIBTHORPE, C.B., F.R.C.P.I.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

Public DEPARTMENT.

SIR,

I have the honor to state that the Sub-ordinate Medical Staff sanctioned for the Government Maternity Hospital, Madras, after the transfer to that institution of the Gynaecological wards from the late Women and Children Hospital was one Military Assistant Surgeon and two Civil Apothecaries.

2. In 1896 a strong representation having been made regarding its inefficiency Government, in G.O.

E No. 1058, Public, dated 24th September 1896, accorded sanction for provision being made in the budget for an additional Apothecary and since then there have been 3 Civil Medical Subordinates for duty in the hospital in addition to the Resident Military Assistant Surgeon.

3. The Superintendent of the institution has now addressed me a letter on the subject showing how inadequate the present staff is for the requirements of the hospital and applying for a fourth subordinate. He also encloses a list (attached) of the duties which now devolve on the present staff and states:-

"From this enclosure it will be seen that a subordinate officer comes on duty one day at 6 A.M. and does not leave the Hospital until probably 12 (sometimes later) the next day, or a tour of duty of 32 hours. Every third night he spends in the hospital, and he gets little

rest

CURRENT NO. 2

OFFICE OF SURGEON-GENERAL

WITH THE GOVERNMENT OF MADRAS,

No. 18/403

Comptroller General, 27th July 1899.

From

SURGEON-GENERAL J. SIBTHORPE, C.B., F.R.C.P.I.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

Public DEPARTMENT.

SIR,

With reference to your Memorandum No. 1402, Public, dated 29th June 1899, I have the honor to report for the information of Government that the Superintendent, Government Maternity Hospital states that gardeners and lascars are now employed to bring ice from the Factory and one lascar and one gardener have already resigned their appointments not being willing to do this extra work. The lascars have too much work in the Hospital and it is therefore not feasible to have recourse to their services being utilized in this direction.

2. The cost of the extra establishment may be met from savings under 24. B. Hospitals and Dispensaries in the Budget Estimate of the Medical Department for 1899-1900 but it is too early to arrive at any decisive idea as to the amount of savings that may

may eventually be available

I have the honor to be,

Sir,

Your most obedient Servant,

C. P. N. M. S. P.

Surgeon General.
Surgeon-General

C. No. 1427 From the Surgeon General, No. 7.8/172, dated 3.5. 1899.

" 1442, " " " " 7.8/194, " 7.5. 1899.

" 1696, " Accountant General, " PA. 175, " 9-6- 1899.
2494

" " " " " " 1899.

For order

In the first current read above, the Surgeon General asks for sanction to the employment of an ice Coolie on Rs. 6 per mensem in the Maternity Hospital Madras, and in his second letter, he recommends the employment of a fourth medical subordinate in the same institution. One proposition statement for both items has since been forwarded by the Accountant General (Cm. No. 1696 read above) and the two applications have thus come together.

38
2. As regards the ice
coolie, the Surgeon General
states that up to the end
of last official year, the
Hospital was supplied
with ice free of charge
by P. Venkatasubramanian's Ice
factory, & that a coolie
was employed on Rs. 6 per m.,
to bring the ice from the
factory & to distribute it
to the wards; that from
the beginning of this official
year, the free supply has
been stopped & that the ice
has now to be purchased;
that the pay of the coolie
has hitherto been met
from the allotment under
dist. which is irregular,
& that the sanction of Govt.
is therefore applied for.

It is stated that the services
of the men are also utilised
for the sawing & splitting
of firewood.

3. Before sanction is
given to the employment
of this extra manual,

39
3
the Surgeon General might
be asked to explain why
one of the 8 lascars or 4
gardeners attached to the
hospital cannot be sent
daily for ice. It is not
stated that no servant of
the hospital can be
spared for the duty.

4. An extra medical
subordinate on Rs 50 per
mensem, plus a local allowance
of Rs 30 per mensem, is
asked for on the ground
that the existing establishment
of one Military Asst. Surgeon
& three Civil Apothecaries
is quite inadequate for
the requirements of the
hospital. Statements are
submitted showing in
detail the duties performed
by the subordinate staff.
The Military Asst. Surgeon
(Resident Asst. Surgeon) appears
to have his hands full.
The three Civil Apothecaries
also have a long list of

U.
duties, including 45 beds for the first, 30 beds for the second & 40 beds for the fourth: the greatest hindrance complained of is that each apothecary has to go on duty in turn at 6 a.m. one day & remain at the Hospital until 12 o'c, on some times later, the next day, - a continuous shift of duty of 32 hours, - & that each man has only two nights in bed out of three.

5. The proportion statement shows an increase of two apothecaries on Rs. 50 each per mensem, with a local allowance of Rs. 30 each, giving a total increase of Rs. 160 a month. The reason for this is as follows, -

In 1896, after the transfer to the Maternity Hospital of gynaecological wards of the Women & Children Hospital, the staff of the Maternity Hospital consisted of the Med. Asst. Surgeon

U/5
& two apothecaries. Application was made for a third apothecary but the Surgeon General was told in S.O. No. 360 Public, dated 17.3.96 that the expenditure could not be sanctioned until Budget provision had been made for it. In his letter No. 408 of 4-9-96, the Surgeon General asked whether he could include an additional apothecary in his budget for 1897-98, & in S.O. No. 1058 Public dated 24.9.96, he was informed that he was at liberty to include the item, but that the question of its retention would be decided when the Civil Budget was under consideration. The provision in the Budget appears to have been passed, & a third apothecary has been employed since the beginning of 1897-98, but definite sanction to his continuance has not yet been given. In the

142/1
proposition statement now
submitted, therefore, the
column "Present Scale"
shows only two civil apothecaries,
while the "Proposed Scale"
provides for four. One addl
man only is asked for, but
to make the sanction complete,
it is necessary to include the
third man allowed in 1896.

6. The question for consider-
ation now is whether the
employment of a fourth
apothecary in the Hospital
can be sanctioned without
the present distribution of
duties, a strong case appears
to have been made out
for a fourth subordinate,
but in a separate paper
it is proposed to ask
the Govt. of India to
sanction the appt. of
a junior Commissioned med-
ical officer for the Maternity
Hospital, & if the applica-
tion is acceded to, the
Mil. Asst. Surgeon will

143/1
probably be relieved of
some of his present duties,
and be able to take
some of those allotted
to the apothecaries. If
therefore a fourth apothecary
is sanctioned, it might
be as a temporary arrange-
ment, pending settlement
of the question of the appt.
of a Comm. medical officer.

7. If a fourth apothecary
is allowed, the question
of provision of funds in
the current year has to be
considered. In the re-
appropriation statement
attached to the Proposition
Statement, the Govt.
Maternity Hospital shows
that the full allotment
for the Hospital will be
spent, & that no re-appro-
priation is possible. The
additional allotment re-
quired is set down as Rs.
1032, i.e. one apothecary at
(670 + 30) Rs. 70, & one in colli-

+ Budget provision
already exists for 3
apothecaries, vide p. 14

at Rs 6, or Rs 86 per month
for 12 months, = Rs 1032. The
ice cooler may be excluded
for the present, & if the
apothecary is employed from
12 July, the addl allowance
required will be $Rs\ 80 \times \frac{5}{8} =$
⁶⁴⁰Rs 560. The Surgeon General
might have reported whether
savings will be available
from any other head under
Medical, & if not, he has
not done so, & it might
be asked if the
addl allowance can be
provided.

C. 14.6.99. 15/6/99

11/6/99

Int. Dept.
There will still remain
a small sum unallotted
from the 8.75 lakhs (even if
100% is given 1 lakh); but
to avoid the chance of making
unnecessary transfers, perhaps
the Dy. might ^{be asked} when reporting
about the ~~ice cooler~~ ice cooler,
to state whether he can
fund the fund from his budget

Civil
25.6.99

11/6/99

Public Dept.
Further note (C. 2102)

The Surgeon General
now reports that the cost
of the extra articles may
be met from savings under
24.3, Hospitals & Dispensaries
in the Medical Budget for
1899-1900, but that it is
too early to arrive at the
exact amount of savings.

2. As regards the ice cooler
he states that the doctors

46/10

& gardeners have too much to do in the hospital to be sent for ice & other things. Hence now gardeners have already resigned on account of this extra work.

2. With reference to the application for a fourth medical subordinate, the S.O. has refused to entertain the proposal to appoint a junior Commissioned Officer to the hospital, & the appointment of a lady Asst. Surgt. will not relieve the apothecaries of any portion of their work, the case for a fourth medical subordinate holds good. Orders are issued as to whether the proposal to entertain an ice-cooler & a fourth apothecary may now be approved, & the proposition statement transferred to the Finl. Dept. for disposal.

Cy
29.7.59
H. M. Forster.
11/17/8.

The ice cooler and the medical subordinate already entertained may be sent to.

MA 2.8.59

Why will it not? The Govt. of India want us to appoint her instead of a junior ^{commissioned} medical officer. If she cannot do the work, why have her. We had better have a man to do it.
MA 2.8.59
no female pract. in that case.
MA 2.8.59.

[G. 75]
1000-11-8 96.

47

NOTE FOR THE Chief Secy.

With reference to the Ch. Secy's query against para 3 of the draft S.O. below, it is submitted that the proposition statement provides for the entertainment of an ice cooler on Rs 6 per month, & two addl apothecaries as decided by the H.M. The draft S.O. mentions the ice cooler & the 3rd apothecary already employed - the fourth apothecary will be struck out. It is proposed that the prop. statement, thus modified, shall be transferred to the Finl. Dept.

who amtes & initialed.

order
min W. 921 of 18-8-99.

The entertainment of
an ice cookie on Rs. 6 per
manum in the Fort
Maternity Hospital, under,
is sanctioned.

2. In L.O. No. 105 of Public
dated 24 Sept. 1896, the
Surgeon General was permitted
to make provision in his
budget for the employment
in the Maternity Hospital
of a third Civil Apothecary
on Rs. 50 per manum, with
a local allowance of Rs. 30
a month. The appointment
of this third apothecary is
now formally sanctioned

The Govt. however considers that sufficient cause has not been shown for the permanent employment of a fourth civil apothecary in the Hospital. The question of the appointment of a lady Asst. Surg. to the institution is under consideration separately. On her arrival, the Military Asst. Surgeon will be relieved of some portion of his present duties, & a redistribution of the work of the subordinate medical staff should then be possible. Meanwhile, the Surgeon General is at liberty to post an additional apothecary to do duty in the Hospital, if the services of one can be made available from elsewhere.

3. Subject to this modification, the proposition statement submitted by the Surgeon General is approved. He is transferred to the District Department (Framjeejee) 11/18/88
C/ 15.988

The provision for the 4th Apothecary being struck out of the proposed statement which will be approved by the Surgeon General & the P. G. Asst. Surg. (See note with P.S. in file on C/ 2104 also) 24.6.88
