FROM

A. H. L. FRASER, Esq., C.S.I.,

Officiating Secretary to the Government of India,

To

The Chief Secretary to the Government of Madras.

Home Department.
Medical.

Simla, the 29th August 1899.

SIR,

274
6-3-99

IN paragraph 11 of his review of the Report on Civil Hospitals and Dispensaries for the year 1897, a copy of which was forwarded with my letter No 305 dated the 18th February last

the Director General of the Indian Medical Service observed that work not falling strictly under the head of surgical operations continues to be shown in some Provinces in Statement III-A. He instanced opening of blisters, hypodermic injections and vaccinations.

2. To this remark several Local Governments have replied that the list of surgical operations is prepared according to the Appendix to the "Nomenclature of Diseases" under the orders contained in Home Department Circular No. 235-245 dated the 14th March 1896. Vaccinations and other work not falling strictly under the head of surgical operations are included in the list given in this Appendix. The general question of the record and report of surgical operations is now under the consideration of the Director General of the Indian Medical Service. For the present the Government of India desire that the following may be omitted from the dispensary reports:—

Vaccinations (shown in the vaccination reports), passing of catheters and introduction of seton, hypodermic injection, removal of wax from the ear, and cupping.

I have the honour to be,

SIR,

Your most obedient Servant,

A. H. L. Fraser

Offg. Secy. to the Govt. of India.
