Resolution

Submitted to Government for orders. In the Revenue Administration Report, which has to be submitted to Government by 15th September each year, the total areas cultivated, the outturn of the crops and areas occupied by certain special products have heretofore been referred to. The statements on which the remarks connected with these subjects are based should be prepared from the

mission of statistical returns to be deferred till 31st December

December the Board has granted a corresponding extension to Collectors in regard to the submission of their returns, viz, to 1st October in order that these and the jodi returns may be fully compared. The compilation of the return of outturn should proceed together with that of the areas sown in each taluk, and consequently the information on the subjects mentioned above will not be available by the date on which the Revenue Administration Report is due to Government, unless a special compilation be insisted on. This would cause a great increase of work.

3. As regards the total areas sown the necessary particulars may be taken from the monthly return for march each year, which though it does not include "supplemental cultivation" for all practical purposes is sufficient. A summary of the special outturn reports on paddy, cotton indigo, ground-nuts and sugar-cane may be added, but the Board recommends that all further reference to outturn and special crops may be omitted from the Revenue Administration Report, as they are fully dealt with in the Jamabandi Report.
