SUBJECT.

Requesting that 5 more Temporary
Doctors may be obtained from
England for plague duty.

I agree. The doctors we have
must be utilized to the best
advantage. They should be made
to travel together; it is only in
places where plague is or is likely to be
kept that the resident doctors should be kept.

OFFICE OF SURGEON-GENERAL

WITH THE GOVERNMENT OF MADRAS,

Madras, 13th February 1899.

No. 164

From

SURGEON-GENERAL C. SIBTHORPE, C.B., F.R.C.P.I.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

To

THE HON'BLE THE CHIEF SECRETARY TO GOVERNMENT,

Public DEPARTMENT.

SIR,

With reference to G.O. No. 169, Public, dated 9th February 1899, I have the honor to invite the attention of Government to my letter No. 145 dated 2th February 1899, forwarded through the Plague Commissioner - from which it will be seen that I have not now a single Medical Officer at my disposal for plague duty should one be required in any District.

2. In addition to the two Additional Medical Officers already employed in the North Arcot District, I had to send the other day three more officers to Arcot, Kuppum and Wallajah respectively at the instance of the Plague Commissioner and the number of Additional Medical Officers employed in the Anantapur District is four. If officers are thus asked for each small place and I am to be in a position to comply with such requisitions it is absolutely necessary that more men should be got out at once.

3. Under these circumstances and considering that plague does not yet show a tendency to abate in the North Arcot District, I would strongly urge on Government the necessity of at least getting out five more Medical Officers at once and the other five later on

The Govt adheres
to the decision in S.D.
No. 169 Public dated 9-
Feb 1955.

2. The temporary doctors already engaged must be utilised to the best advantage - they should be required to travel and organise, and be employed less as ^{district} executive officers - It is impossible to allow a medical officer for each infected town, and it is only at places where plague is, or is likely to be, very bad that the resident-doctor
