To

The Secretary to the Government of Madras.

*Dept. of Rev. & Agri.
Archæology & Epigraphy.**Dated Calcutta, the 4th January 1899.*

SIR,

THE attention of the Government of India has been drawn to the fact that a certain number of works on archæological subjects issued from time to time under the authority of the Government of India or of Local Governments and Administrations, are, owing to their exclusion from the uniform series of Archæological Survey Reports, in some danger of being altogether forgotten. Some of these are the work of archæologists of repute, others are of minor value. But at the present time, when archæological research in India is attracting no small share of attention in the scientific circles of Europe, it seems desirable that all possible information as to existing works on the subject should be made available to the public. It is now proposed to issue a list complete as far as possible of miscellaneous works published in past years at the expense or under the authority of Government, which are included neither in the series with which Sir Alexander Cunningham's name is associated nor in the new Imperial series. This list will be published in future issues of the latter series, and in this manner complete information as to the contributions of Government to the subject will be available to those interested. I am therefore to request that, with the permission of ^{the Governor in Council} ~~His Honour the Lieutenant-Governor~~ a complete list of all such publications relating to *Madras* may be furnished to the Government of India with the following details in each case:—

1. Title of work.
2. Name and official designation of author.
3. Date of publication.
4. Publishing press.
5. Size and number of volumes and number of pages in each volume.
6. Issue price of each volume or of complete work.
7. Whether still sold at the Government Press or Book Depot or not.
8. Whether copies exist in public or official libraries.
